MILITARY & CIVIL CYBERSECURITY SOLUTIONS

INNOVATION & WORLDWIDE EXPERTISE

As a pioneer in the sector of cyber range and of virtualization & simulation platforms, DIATEAM has always made a point of **anticipating needs** and finding **innovative solutions**, which allow to respond to the unique challenges our clients face. To always be at the edge and to maintain high standards of excellence, our teams constantly work on **technological watch**, and dedicate more than 30% of their time to **Research & Development**. This allows us to constantly improve the technical quality of our solutions. Thanks to its **renowned technological leadership**, the company offers its expertise to the most demanding clients **in Europe and around the world**.

Founded in 2002, DIATEAM (A Cy4gate company since 2023) has been specializing in software Research & Development, in computer security and innovative information systems.

ETHICS & DURABILITY

The individual and the team are and will always be the cornerstone of an organization. We at DIATEAM make the **human element the core of our values, methods, and interactions**. We capitalize on the talents we recruit to build up a team that is **diverse, passionate, curious, durable and constantly at the forefront of technological expertise**, so we can fulfill our commitments and create a trusting environment. We want to be **always transparent** about our solutions, our working ethics, and our methodology, as well as about our skills, deadlines and own limitations, which allows us to build simple and open relationships with our clients and partners, based on **trust and confidence**.

SOLUTIONS

HYBRID CYBER RANGE

The complete simulation environment to empower your cyber skills !

The combination of our Hybrid Cyber Range and our Cyber instructors allows you to train your teams with content and scenarios tailored to the maturity level of the learners.

Our Hybrid Cyber Range is available in **tactical case, in rack, or online**.

AVANTAGES

Simulate any information system.

Create your own **topologies, scenarios, contents** to feed **defensive & offensive exercises**. We can also offer you **turnkey scenarios** that are in-house created and tailored to your activity sector, which you can then use and customize to train your teams, or to feed your topologies in order to test & validate your infrastructures.

SECTORS

Diateam Hybrid Cyber Range is used in a wide array of applications.

- Maritime • Transportation • Space
- Telecommunications • Universities
- Public communities • Health...

Examples of tools we have at hand include our dedicated **Maritime and Port Cyber Range**, and the possibility to connect **any type of network equipment or PLC/OT industrial automation system**.

TRAININGS

Diateam offers two types of trainings:

On premise,

on our premises or on the client's facilities:

- OSINT • Offensive Adversary Operations • Cyber Crisis Exercise
- Initial Operator Platform Training

Online,

through our online LMS (Learning Management System) for Red Team and Blue Team learning paths.

SERVICES

- Development of specific and custom software and hardware.
- Supply of cyber on-demand contents/topologies/scenarios.
- Dedicated learning catalog (on premise and online).
- Cyber crisis management exercises/CTF "Attack/Defense" challenges.
- Advanced AI-based Anomaly Detection systems for AIS and ADS-B protocols.
