IDA Industrial Park, Cleaboy Road,
Waterford, X91 HY58

The Ministry of Health of Ukraine extends its respect and kindly requests the following.

Since the night of February 24, 2022, Ukraine has been under full-scale attack by Russia. Ukraine is courageously fighting the Russian invaders, defending its homeland and protecting the Ukrainian people.

Ukrainian cities are being shelled, with rockets often hitting civilian homes and even functioning hospitals. A big part of the medical infrastructure has been destroyed. The healthcare system is in particular need of support now, as our doctors are at the frontline of the fight for the lives of Ukrainians, and our citizens need uninterrupted support, treatment and medicines.

We sincerely ask you to support the Ukrainian people in need of proper and timely medical care by considering providing us with humanitarian aid in the form of anti-infective medical products in accordance with the annex to this letter.

Additionally, we would like to inform you that in accordance with the Ministry of Health of Ukraine Order No. 474 dated March 12, 2022, "Certain Issues of Receiving Humanitarian and Charitable Assistance under Martial Law" (as amended by Order No. 2201 dated December 26, 2022), the State Institution "Public Health Center of the Ministry of Health of Ukraine" (hereinafter referred to as PHC) is authorized to receive medicines, medical devices, medical equipment, and other goods necessary to provide healthcare under martial law conditions. The Public Health Center is responsible for receiving and distributing humanitarian aid among healthcare institutions in Ukraine.

For any further questions or clarifications, please feel free to contact Maryna Chernyshova at +380639700190 or via email at support.moz@moz.gov.ua.
