

Libanon training and aircraft maintenance centre MEA Beirut

As a phoenix, the MEA Training and Conference center rises again.

<https://www.mea.com.lb/english/about-mea/the-training-center;>

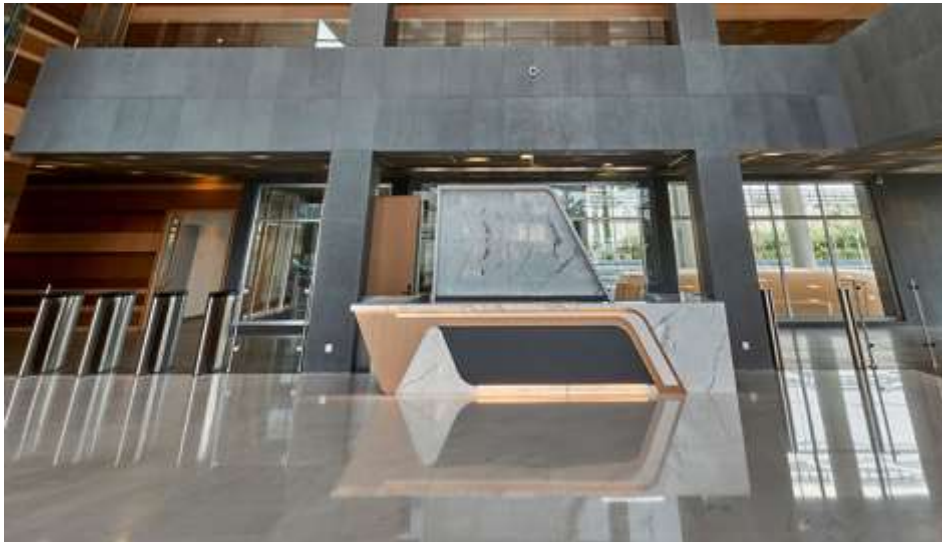

- This Dream Project which has the highest international standards, has been implemented in two phases:

The first phase was inaugurated by H.E. Governor of Banque du Liban Mr. Riad Salameh in March 2015. This part consisted of the Pilot Training Division and the section on simulation training.

With the return of security as well as political stability following the election of the President of the Lebanese Republic General Michel Aoun and the formation of the national unity Government headed by H.E. Prime Minister Saad El Hariri, Middle East Airlines Board of Directors decided to complete the second and final phase of the project.

The First of November 2017, the birthdate of Prime Minister Rafic Hariri, marks the birth of Middle East Airlines Training and Conferences Center arising under the patronage of Prime Minister Saad El Hariri.
