## PATENTED TECHNOLOGY

GREENJET: Worldwide patented water-saving nozzle that mixes air and water, thus reducing energy and water consumption without reducing and in some cases even increasing the pressure

## GELD SPAREN

A hotel with 100 rooms saves  
on average per year:

- 20,000 € of water and energy costs
- 32,000 kg CO<sub>2</sub>
- 2.55 million litres of water

## EASY ASSEMBLY

Simply screw the GREENJET between the hose and the fitting by hand. For rain showers, GREENJET is used directly in front of the rain shower.

## FOR ALL SHOWERS

GREENJET fits all commercially available shower heads with a 1/2-inch insert. Thanks to its compact and simple chrome-plated design, GREENJET does not get in the way of your daily shower.

## CONTACT

## GREENJET

- ✓ TÜV-certified water and energy savings of up to 66%.
- ✓ GREENJET patented technology with no pressure loss
- ✓ Already in use in hotels such as: Park Hyatt, Hilton, Ibis, Radisson and many others.
- ✓ GREENJET can be installed in less than a minute without the need for tools.
- ✓ GREENKEY APPROVED PRODUCT

## Other products

- ✗ Pressure loss
- ✗ No savings, as less pressure means longer shower times
- ✗ Savings not TÜV-certified

Save up to 66% on energy and water costs while maintaining or even improving pressure.

**GREENJET uses a patented technology that mixes air with the water stream without reducing the pressure. This innovative system creates a constant stream of water and in some cases even improves the pressure, ensuring a comfortable and pleasant showering experience. Unlike conventional flow restrictors, which often reduce comfort, GREENJET maintains shower comfort!**

**The result: lower water consumption without compromising shower quality.**

**GREENJET technology is TÜV-certified and guarantees water and energy savings of up to 66%. It offers an efficient and sustainable solution that has been thoroughly tested.**
