

# ELECTRONICS MANUFACTURING SERVICES - LOCATED IN EUROPE

*Efficient production at Far-East prices*

## WORKING WITH TECHTO ELECTRONICS

- ✓ Agile manufacturing
- ✓ Competitive pricing
- ✓ Experienced manufacturing team
- ✓ Professional box-build lines
- ✓ Advanced quality control and traceability
- ✓ Continuous product manufacturability
- ✓ Design and BOM cost optimization with EKTOS Development team

## AREAS OF SPECIALIZATION

Efficient NPI & sourcing

ESD-compliant box build lines

Quality up to IPC-A-610 class 3

Multi-level quality control and traceability

PCBA conformal coating/sealing

Testing automation with PTS (Product Test System)

Complex repair, incl. BGA rework

Functional end-of-line testing

Cable / Harness mounting

Retail packaging

## TECHNICAL CAPABILITIES

High-efficiency in-line  
Yamaha SMT machines

Professional manual and  
semi-automatic THD  
soldering

Specialized product  
box-build line and quality  
control

## SUPPLY CHAIN MANAGEMENT AND COMPONENT SOURCING

Proactive inventory  
management

Strategic sourcing  
partnerships

Alternative component  
recommendations

Cost-efficiency and  
production continuity

## CUSTOMERS

## TESTIMONIALS

“With our cooperation with EKTOS and TECHTO, our device hit the market within a short amount of time. We are able to maintain product cost on a competitive level and enjoy support for manufacturing over the years.”

Christian Mortensen, Co-Founder and CEO - AirWallet

“EKTOS' development team delivered a compact design with seamless integration. TECHTO helped us go to market with an elegantly manufactured and well-functioning device. We are satisfied with the seamless production cycle, packaging, and quality finishing.”

Martin Ove Rasmussen, Founder - Martins Tech Garage

## SEAMLESS MANUFACTURING PROCESS

## ABOUT COMPANY

Established in 2019, TECHTO Electronics rapidly grew in 2022-2023, doubling our customer base in Denmark, Europe, and Ukraine. Certified in ISO 9001:2015 and ISO 13485:2016, we reaffirmed our quality in 2023. Our 85+ employees operate in 2,000 m<sup>2</sup> facility, with ~1,000 m<sup>2</sup> expansion planned for 2024.
