

AI LEVERAGE FOR DOMAIN LEADERS.

Custom software and AI for the domain-specific needs of your business, powered by European computing. Optimised budgets, uncompromised quality.

HEALTHCARE

FMCG

AUTOMOTIVE

DATA STAYS IN EUROPE

NO US PROVIDER LOCK-IN

ONE PARTNER. TWO VALUE PROPOSITIONS.

01 THE ENGINE BEHIND YOUR EXPERTISE

8bites is a technological vehicle for the domain-specific needs of businesses. You know your field, whether that is diagnostics, dental care or medical devices. We bring the engine:

- Experimental AI research
- Access to high-performance European computing
- A team that has worked on some of the first national AI models

Data does not leave Europe and we are not tied to any US provider.

02 WE PROVIDE

- Workflow audits
- Custom software development and industrial applications
- AI automation pilots and integration layers, without changing your systems or migrations
- Private EU AI hosting

HEALTHCARE PROJECT

MYTELEDOC

A telemedicine platform for remote consultations with doctors and specialists, live across Central and Eastern Europe.

WHAT IT DELIVERS

- Video consultations with GPs, on demand
- Appointment booking with specialists
- E-prescriptions and medical records in one place

THE TEAM

Experts who previously worked on Meta/Facebook initiatives and founded startups in San Francisco.

SELECTED WORK

Porsche, SPP, a leading fintech SaaS company, a leading engineering corporation, SmartLight, Stikprint, WT:R, JPenenergy, K2projekt, K2flora

LET'S CREATE SOME GREAT STUFF TOGETHER
