

# Automotive

TODAY. TOMORROW. TOGETHER.

AUTOMOTIVE

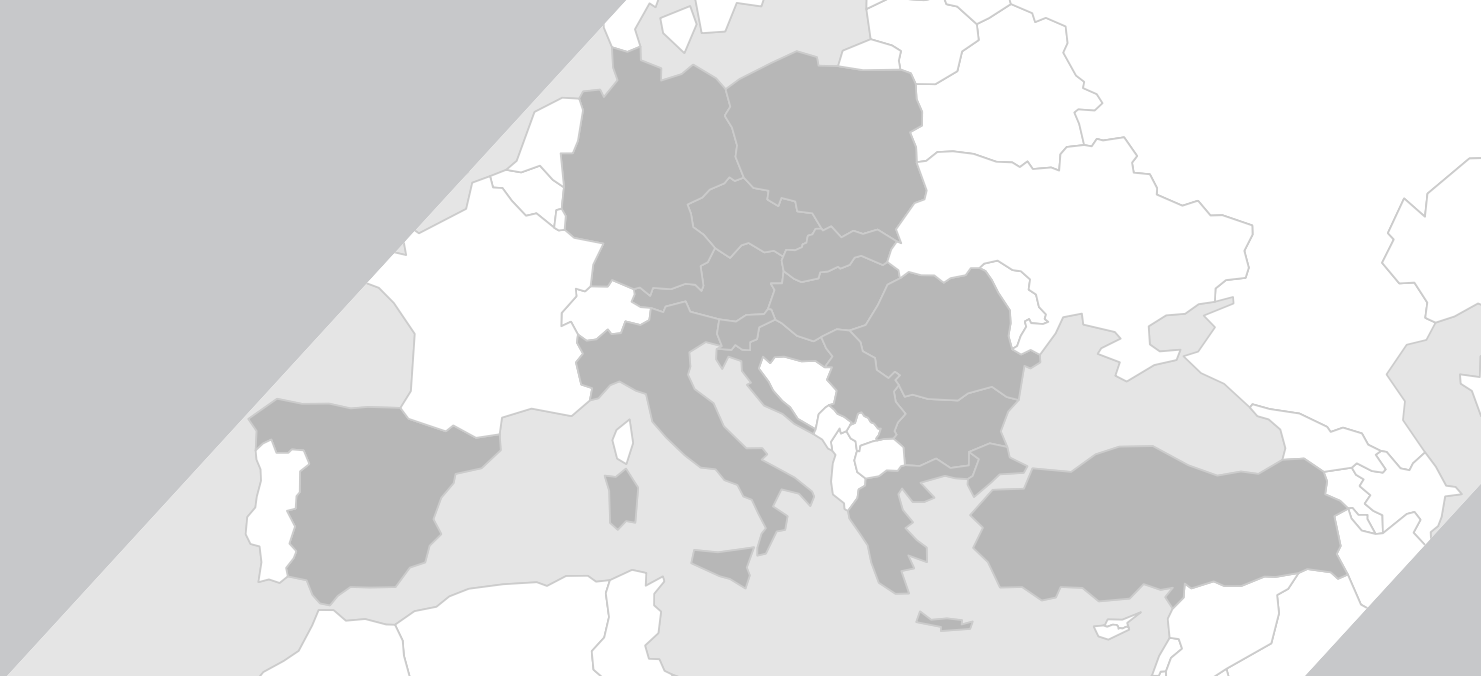

## **Whether components or an entire car – your goods will travel safely with us**

You build the cars – we get them moving, even before they're registered. We deliver the exact supply of semi-finished and finished products to European plants and take care of the transport of finished cars. We deliver car parts such as rims, engines, batteries, doors and bodies just-in-time for more than 20 international automotive industry locations.

Our rail network covers the whole of Europe and our services cover the entire logistics chain, so, as a customer, you get the direct benefit. From production to delivery, we keep a close eye on your goods, while our strict quality management system ensures that they reach their destination quickly and unscathed.

### **Your Cargo. Our Logistics Solutions.**

- Organisation of Europe-wide end-to-end deliveries
- Complete logistics from a single source – for new vehicles and for components, semi-finished and finished products
- Around one million finished cars and 600,000 tonnes of components transported annually
- We enhance your competitiveness with customised logistics services

### Equipment

- Hbis-tt
- Barrier wagons
- Covered wagons
- Flat wagons
- Containers
- 45-ft swap bodies
- Car transport wagons
