

Augmented Reality for Museums

Transform Exhibitions into Immersive Experiences

Artivive is the **no-code, AI-powered AR platform** trusted by **600,000+ creatives and institutions worldwide**. Create self-guided tours, immersive exhibits, and interactive souvenirs — **in just minutes**. With Artivive, museums can transform any painting, print, or space into a dynamic, multimedia experience — **no coding required**.

Used by **200+ museums across 192 countries** — including the **Albertina, Belvedere, Centre Pompidou** to enhance storytelling and audience engagement.

🧠 Enhance Engagement & Learning

- Visitors spend up to **30% more time interacting** with AR-powered exhibits.
- Let your collection speak, move, and respond through dynamic digital layers.

🎨 Bridge Past & Future

- **Bring artworks, artifacts, and cultural stories to life** with interactive animations, soundscapes, and narratives — all **powered by AI** and **no-code tools**.

📱 Simple, Scalable, Smartphone-Based

- No hardware needed. Artivive **works on any visitor's device**.
- **Just scan** an artwork with the Artivive app **and experience** the transformation.

🌍 Inclusive & Multilingual

- Offer **multilingual storytelling**, audio descriptions, and accessible experiences - perfect for **global and diverse audiences**.

How You Can Start

- ✅ Interactive Campaigns
- ✅ Highlight hidden stories behind your exhibits.
- ✅ Turn your walls into dynamic AR murals.
- ✅ Sell AR-enhanced postcards and souvenirs.

Turn your museum into a canvas for the future

- 30% increase in engagement with AR content
- Proven social media amplification
- Drives foot traffic, buzz, and conversions
- Launch, promote & update content anytime
