

Vietgest Castle – Modern Nobility

In the Mecklenburg Lake District, almost halfway between Hamburg and Berlin, the imposing, 230-year-old castle reopened in 2020 as a cultural and event location as well as a castle hotel.

I bring my experience from more than 1,000 events of all kinds: from conventions, seminars and workshops of all sizes to concerts, weddings and family celebrations. All our events have a professional and at the same time private and exclusive character: As a rule, “the whole castle” is booked so that privacy is guaranteed.

In addition to the spectacular baroque hall with a 4.80 m height and the garden salon with its adjoining wintergarden, you feel the charm of what we call "modern nobility" in the cozy library with a fireplace, the private salon and when strolling through the enchanting park. The almost 2,000 square meter castle was brought into the 21st century with "modern-noble" furnishing, an elevator, an ecological air heat pump heating system, charging stations for electric cars and a photovoltaic system.

We offer a variety of inspiring moments from concerts of all genres, vocal coaching, „Trabi“-races to tango classes (all levels & desired length). The area around the castle invites you to extensive team events of all kinds: boat, canoe and bike tours, long walks as well as archery or barbecues on the vast terrace.

Key facts:

- 2 big halls (132 sqm and 105 sqm; up to 200 people „cinema layout“; each with a grand piano)

About 20 minutes away there is one of Mecklenburg's most beautiful golf clubs: Teschow Castle.
