

Decades of innovation

With over 80 years of experience, we are a leading European manufacturer of high-quality brush solutions. Our products keep industries running efficiently, whether it's maintaining roads, railways, and airports or supporting manufacturing, waste processing, oil recovery, and agriculture. Designed to perform in even the toughest conditions, our brushes help you maximise efficiency, durability, and performance.

A strong Nordic heritage

We are headquartered in Finland, with production facilities in Finland and Estonia. Our customer service and logistics centers in Finland, Estonia and Germany serve customers smoothly and effectively. Our brushes are built to withstand harsh northern climates and are recognised worldwide for their quality. As part of the Lagercrantz Group, a publicly listed company in Stockholm, we bring reliability and expertise to every solution we provide.

Why choose us?

- 80+ years of expertise
- Customised solutions for any industry
- Durable, high-quality materials
- Cost-effective, efficient designs

Solutions for your industry

Airport maintenance

Our brushes keep runways clear in extreme weather, ensuring year-round airport operations. Finnish airports have set global standards for airport maintenance – an achievement we proudly contribute to.

Road & railway maintenance

Our brushes remove dirt, debris, and weeds from roads and railway tracks, extending infrastructure lifespan and cutting maintenance costs. Available in various materials and sizes, they keep operations efficient and cost-effective.

Industrial applications

From surface preparation to material conveying, our brushes support manufacturing, aerospace, automotive, construction, and food processing. Built for precision and durability, they meet the most demanding industry standards.

Custom solutions for specialised needs

Every industry has unique challenges. We design tailored brushes for oil recovery, agriculture, manufacturing, and waste processing, and more – ensuring efficiency and durability in harsh conditions.

Our product range

Brush rings

Versatile, durable, and fully customisable for cleaning and surface treatment.

Gutter brushes

Removing dirt, preventing blockages and protecting infrastructure efficiently.

Roller brushes

Enable continuous cleaning and coating applications with uniform coverage.

Strip brushes

Used for sealing, wiping, and dusting, maintaining a controlled environment.

Cassette brushes

Replacable modules in precise dimensions minimise downtime and maintenance costs.

Tufts

High-density precision brushes for detailed cleaning and finishing.

Special applications

Custom brushes designed for seamless integration in your industry.

Brush components

Premium-quality replacements for compatibility and efficiency.
