Finance advisory

This service is a **three-month Finance Advisory Service** including **one-on-one advisory sessions, funding strategy, valuation assessment, and a robust financial model deliverable**. The goal of this service is providing **robust financial strategy to raise public or private funds**.

Business planning and financial modelling

In the first phase, Inveniam financial experts assist clients **in developing and/or refining the main assumptions driving the business plan to create a financial model plan with the entire cost, revenue and funding structure**.

This includes from leveraging internal startups comparable resources, market research data and creating detailed budget forecasts to strategically plan resource allocation and business growth.

Funding strategy and company valuation

The second phase involves the following steps **to proceed with a company funding strategy and valuation advisory**

- Company valuation estimation and advisory, including review of the comparable startup's valuations
- Advisory funding strategies
