About the Company

UKSTANDART was established with the goal of extending to new markets. Alongside manufacturing metalworking products, Ukrstandard is actively seeking international investment to integrate into the global machine-building industry.

Our production meets the highest international standards, ensuring top-quality solutions to match the needs of global industries.

Materials

Aluminum

Brass

Carbon steel

Stainless steel

Composites

Titan and plastics

WE CAN BE USEFUL FOR EACH OTHER IF YOU ARE:

An international industrial enterprise seeking collaboration with Ukrainian or global manufacturers of machine-building products.

A wholesale supplier purchasing large volumes for resale or internal use.

An international company interested in leveraging our products to enhance business operations or elevate service quality.

Ukrstandart**

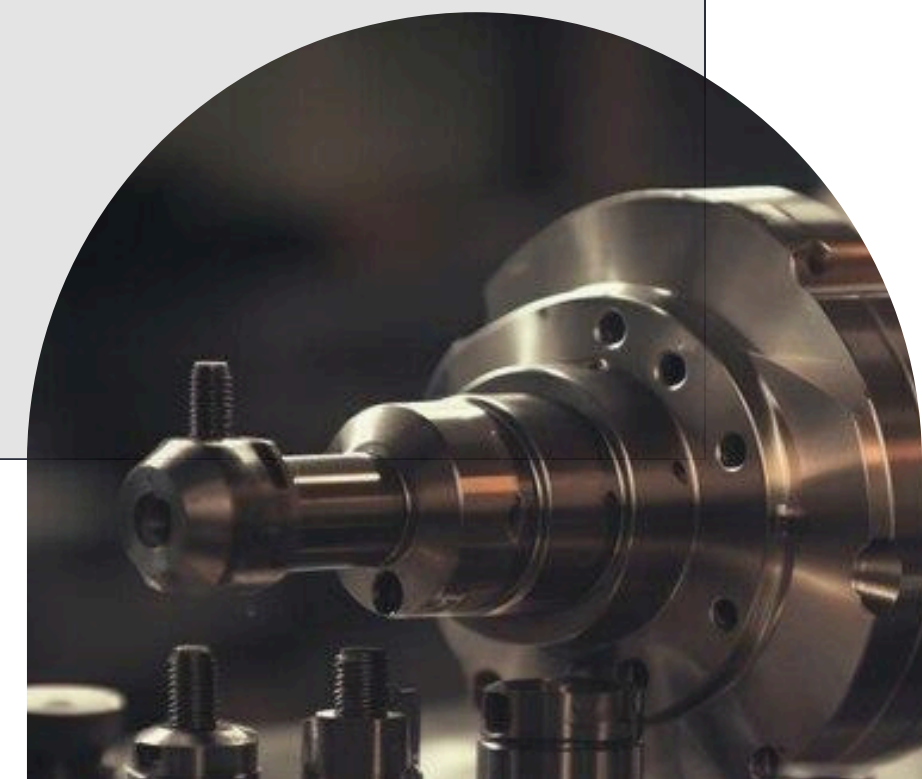

OUR EXPECTATIONS

We are actively seeking strategic partners in the fields of mechanical engineering, energy, construction, agriculture, food and light industry, etc. and exploring new sales markets to expand the reach of our metalworking products.

We are in search of partners who can share our commitment to excellence and can help introduce our Ukrainian-manufactured components to a broader market.

We are ready to explore opportunities together.

Production facilities:

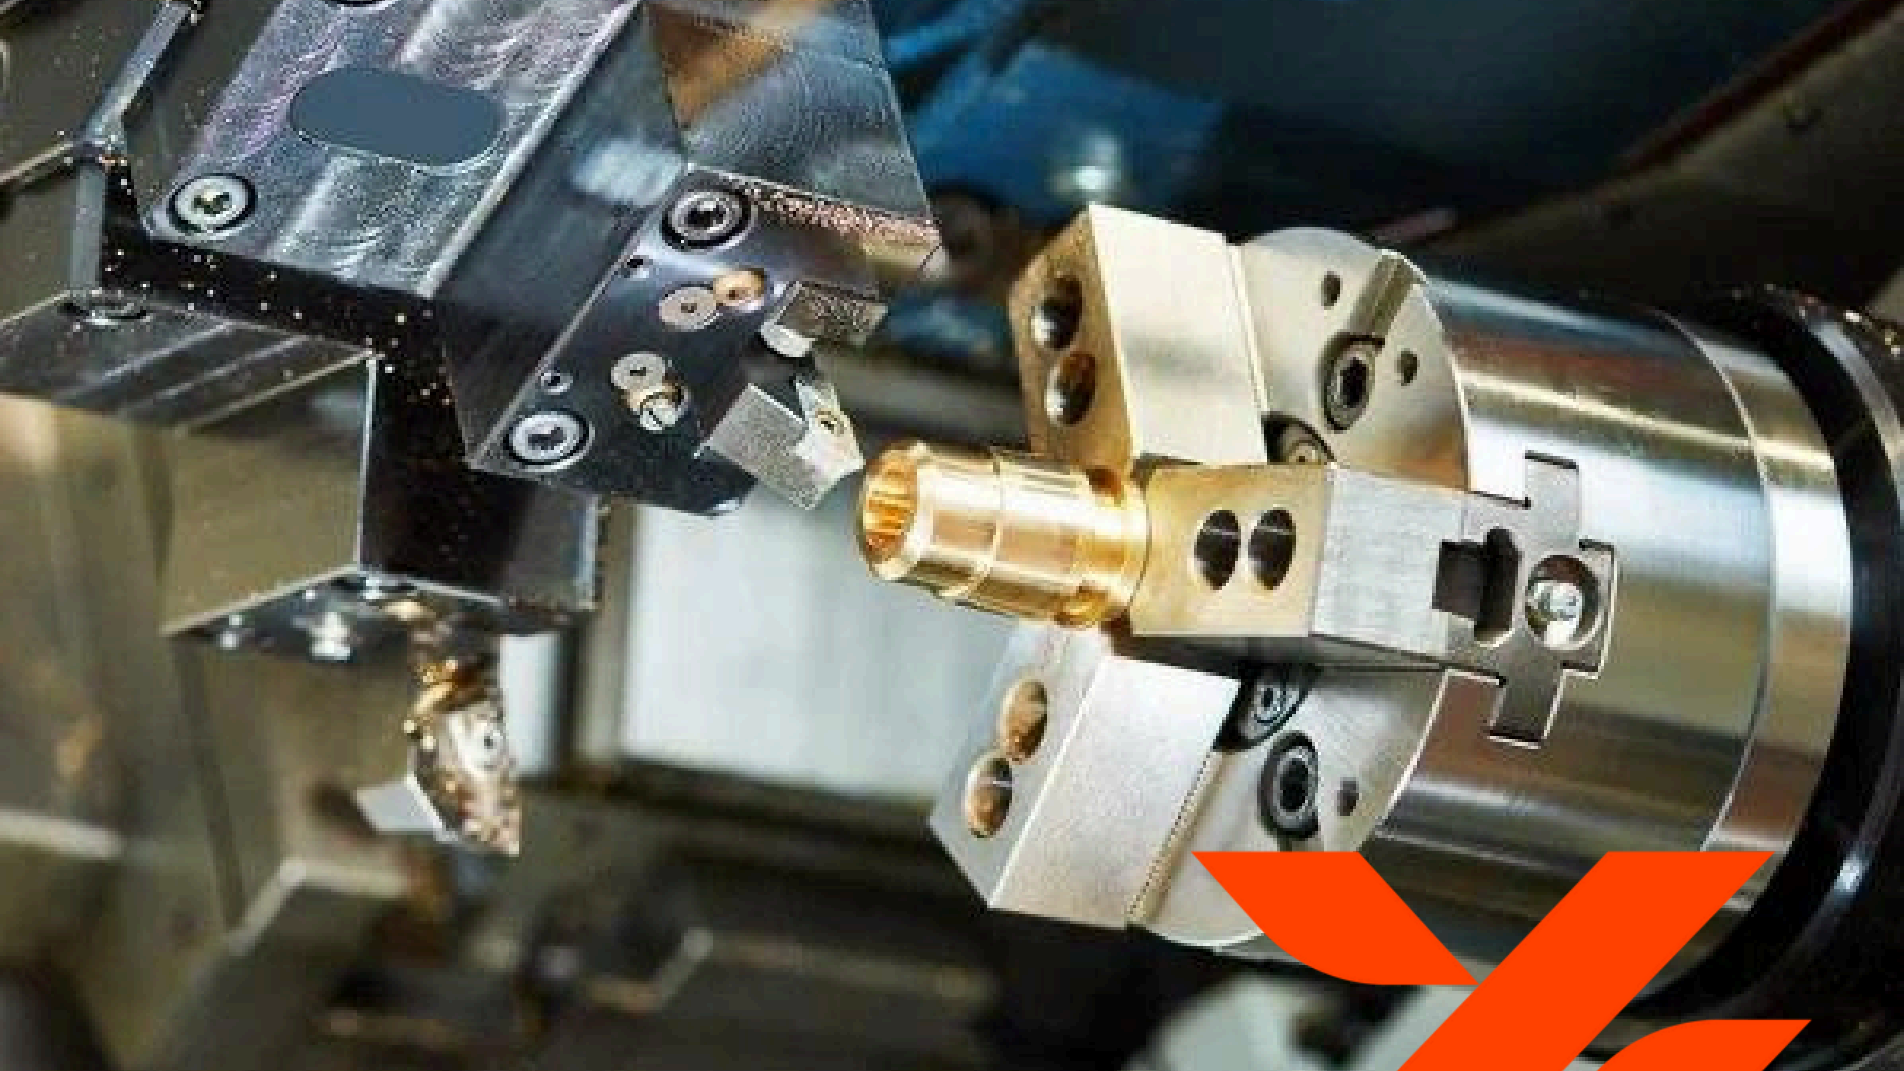

Ukraine (Boryspil)

Czech Republic (Brno)

Ukr
STD
