- Plugit is building its own EV charging network for both passenger vehicles and heavy-duty vehicles
- The company is owned by CVC DIF and the company's executive management

> 1700  
DC charging  
points

> 15 000  
Charging points

> 3 800 000  
Charging events in 2024

> 98%  
Uptime of public chargers

# We have

- Our technology expertise spans both **hardware and software**:
  - **Energy Systems Integration**: Battery storage (BESS), grid connection, load balancing, and energy market participation.
  - **High-Power Charging**: Fleet and heavy-duty transport electrification, including megawatt-scale charging and depot solutions.
  - **Digital Solutions**: Cloud-based CPMS, smart charging algorithms, predictive maintenance, and user-centric mobile applications.
  - **Data & Analytics**: Traffic, charging, and energy consumption analytics to enable customer insight, operational optimization, and new business models.
- **Collaboration Opportunities**:  
**Pilot & Demonstration Sites, Smart & AI-Driven Charging, Energy & Grid Innovation, Sector Expansion**: Beyond passenger EVs, we target fleet, logistics, heavy-duty vehicles, and emerging sectors such as **electric aviation** and **maritime charging**.

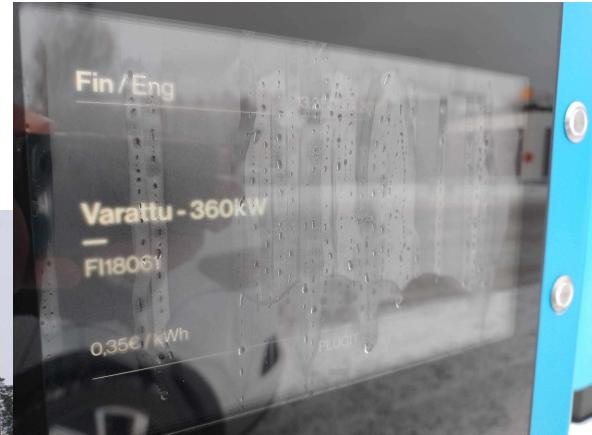

Our offering: Demo site for any Horizon project where test site is needed  
Real R&D environment, from winter cold to MCS charging

- -20 ..-30C°

- Moisture

- MW peak loads
