# ADVANTAGES OF 3PL WAREHOUSING

No upfront costs.

Goods insurance and comprehensive technical support for storage and distribution included.

Scalable space and services tailored to your company's growth, without extra investment.

No need to invest in technological infrastructure or warehouse equipment.

Flexible payment structure – based on actual usage and occupied pallet space.

Simplified operations and reduced logistics costs with favorable domestic and international shipping rates.

No additional expenses for staff or facility maintenance.

Free access to advanced Warehouse Management Systems (WMS).

Potential savings of up to 70% compared to running your own warehouse.

# VIRTUAL OFFICE CROATIA

We provide everything you need for simple and fast company formation and efficient business management – whether you're:

- an established company looking to upgrade and streamline operations, or
- a startup in need of a professional image from day one.
