

ING. ERHARD FISCHER GMBH

# Precise Thermal Solutions with Peltier Elements

PRODUCT PORTFOLIO

From concept to series production, we create customized cooling and heating solutions for critical processes. Our strong expertise in Peltier element integration, thermoelectric modules, dehumidifiers, sensor and control technologies, and versatile mounting solutions enables us to handle complex requirements with precision and efficiency.

We are your technical sparring partner.

PRECISE TEMPERATURE MANAGEMENT

# Our Thermoelectric Portfolio

## // Thermoelectric Modules

Compact Peltier elements for precise temperature control across a wide range of operating conditions.

- Wide range of sizes and performance classes
- High precision and durability
- Suitable for dynamic and extreme environments

## // Micro Coolers

Ultra-compact thermoelectric coolers designed for applications with minimal space and high-performance requirements.

- Extremely small dimensions (down to 1×1 mm)
- High temperature differentials in multi-stage designs
- Flexible integration into custom housings

## // Thermoelectric Assemblies

Complete cooling systems for air, liquid, or direct cooling applications, ready for integration into your system.

- Pre-assembled, application-ready solutions
- Air, water, and direct cooling options
- Customizable to specific requirements

## // Intelligent Dehumidifiers

Smart, plug-and-play dehumidification units that protect sensitive electronics from moisture.

- Automated moisture control
- Simple integration into existing systems
- Extends lifetime of electronic components

## // Customized Solutions

Tailored thermoelectric systems developed to meet specific technical requirements.

- Fully application-specific design
- Plug-and-play integration
- Optimized for performance and reliability

## Your Trusted Partner in Thermal Solutions

	PROFESSIONAL COORDINATION
	1000+ SUCCESSFUL PROJECTS
	QUICK TIME-TO-QUOTE

	FULL-SERVICE PARTNER
	ISO CERTIFIED QUALITY
	100% CUSTOMER SUPPORT
