

Branch Labs

Big ideas to reality

What would make someone choose this over alternatives, and how can the name reinforce that differentiator?

Collaborative branching model inspired by version control

Create main branch → allow individual exploration → open source everything → reconvene and iterate

Who needs to say this name out loud, and in what context?

Innovators, artists, RnD teams, researchers, startup communities

Polymaths and domain experts with cross-disciplinary curiosity

Professional discussions about making concepts tangible and real

Genesis Team

Patryk "Patys" Szczygło

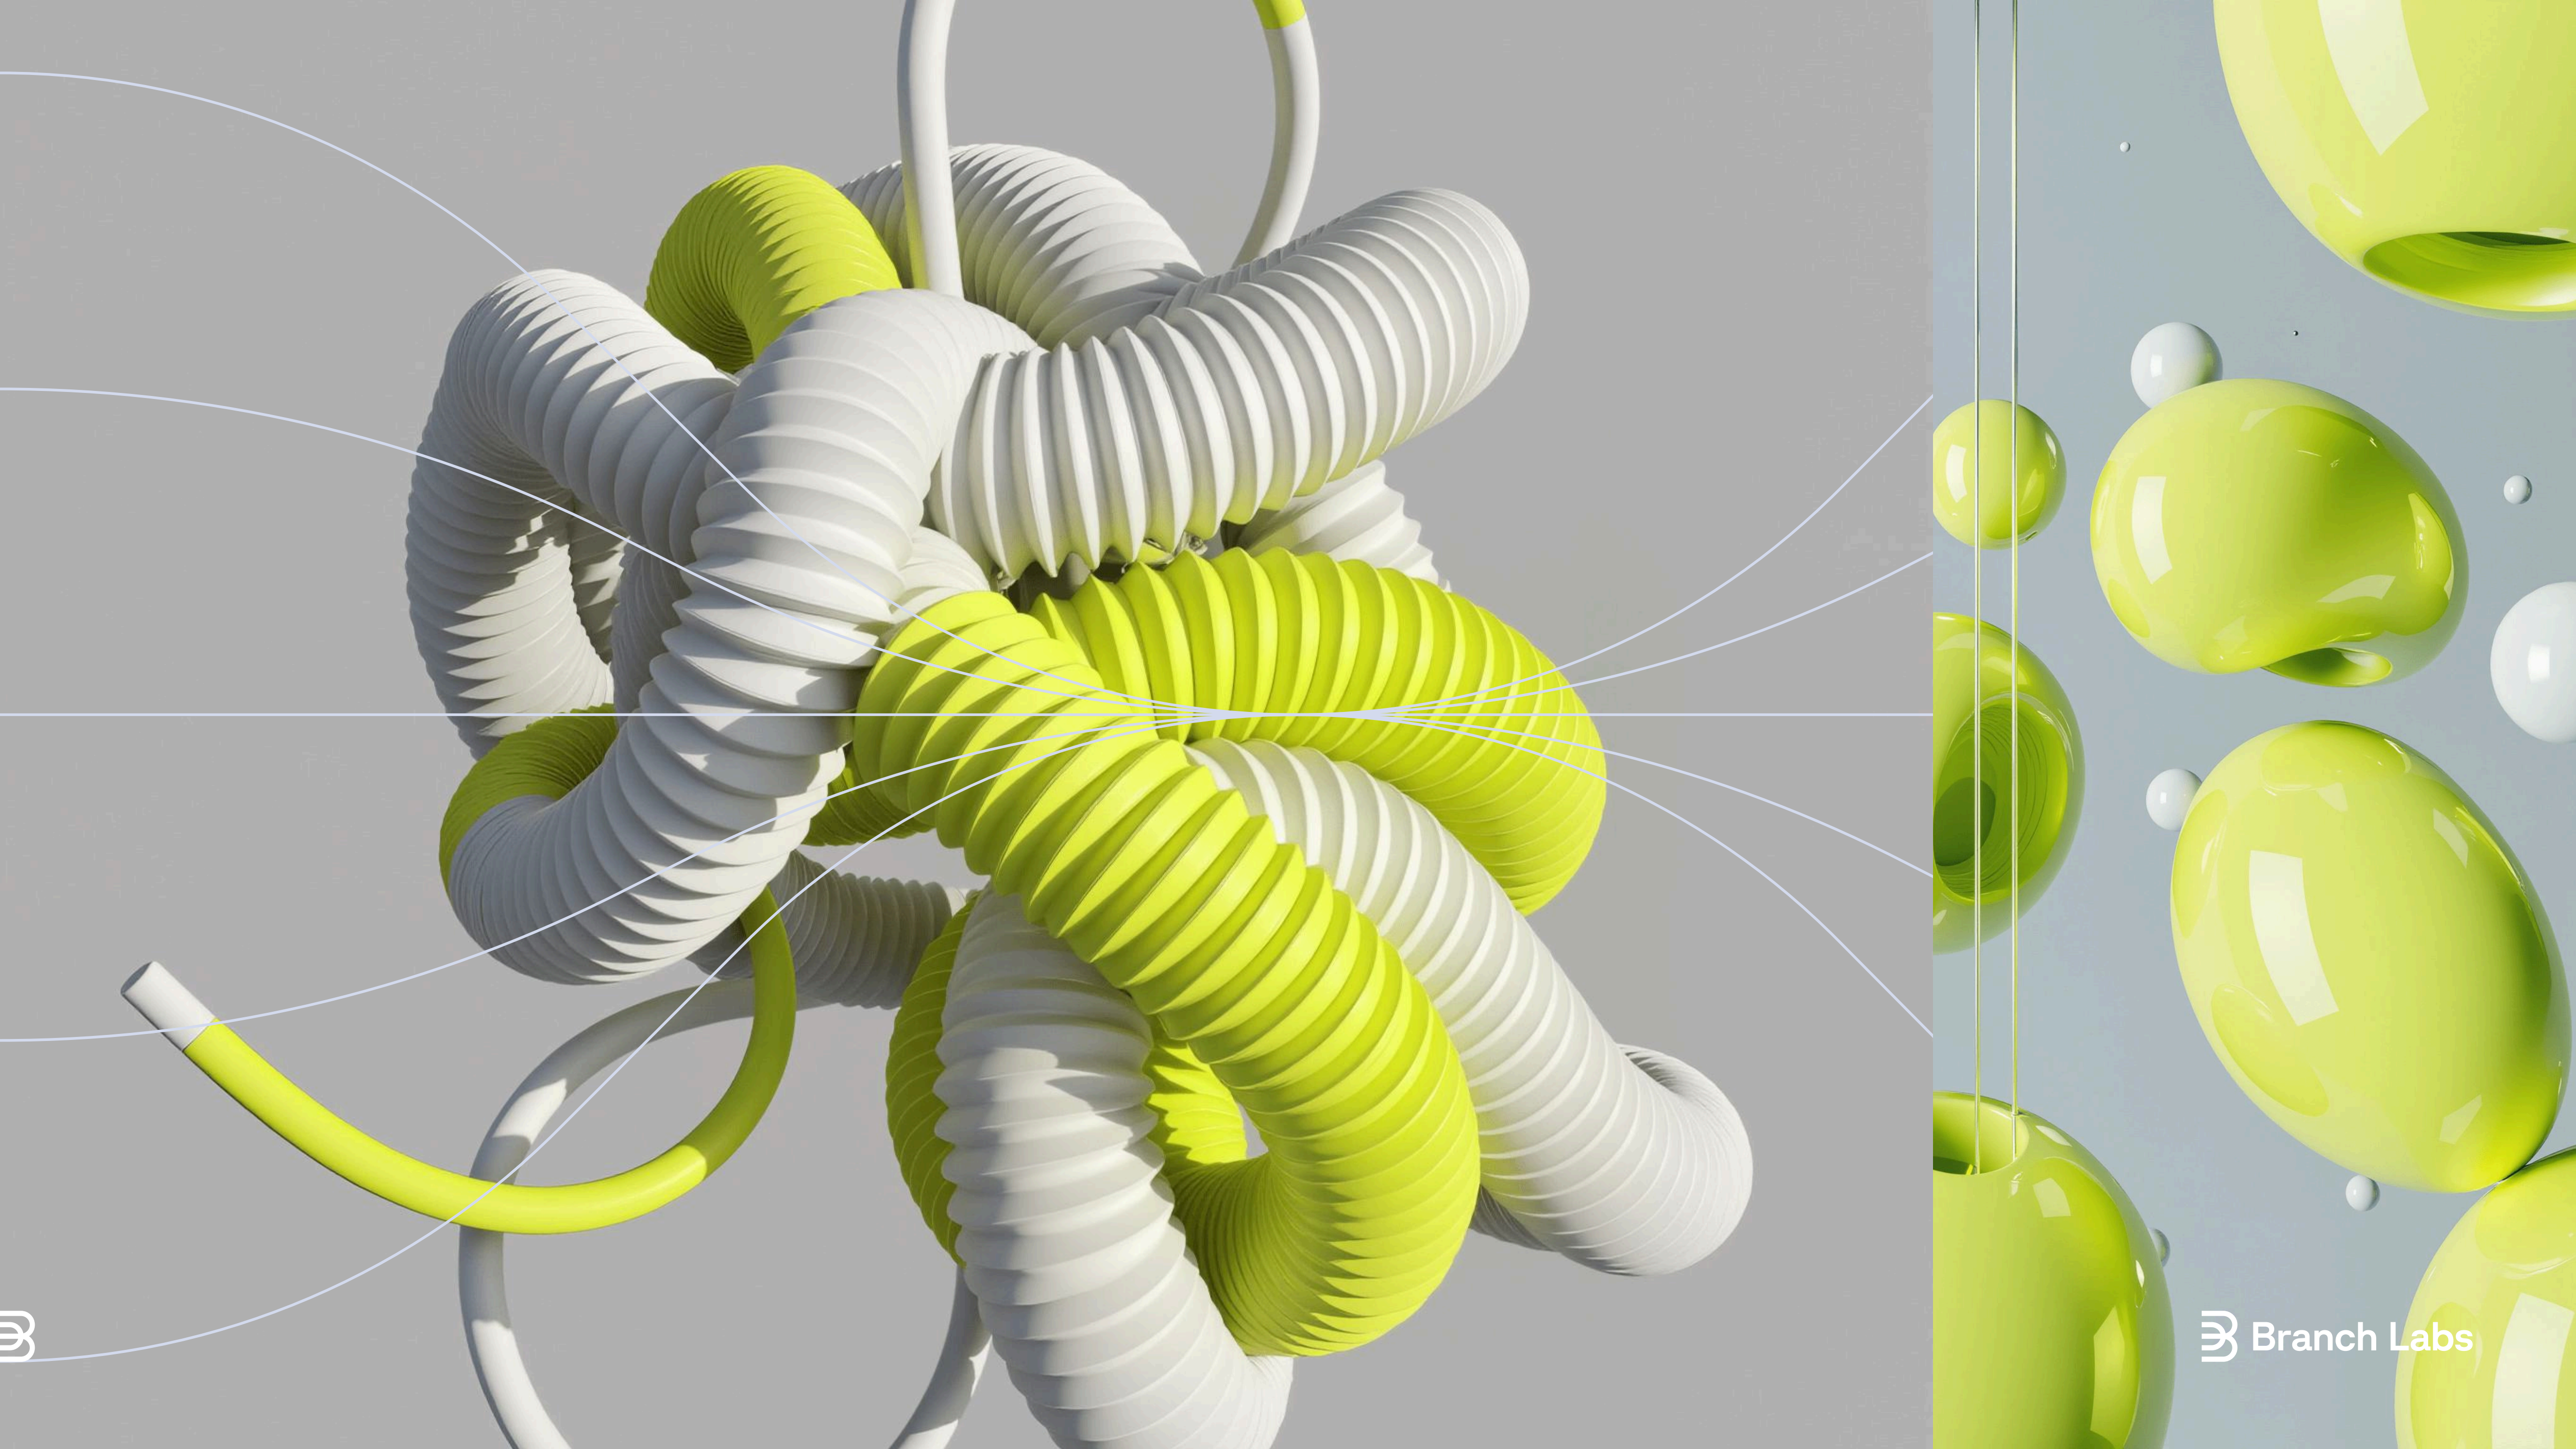

Tech experimentalist. R&D enthusiast. Loves to play with new technologies.

Jan Skora

Unconventional thinker, pattern seeker, and transformation architect exploring the frontiers of human potential.
