<b>Addressed topic(s)</b>	<b>Expertise relevant to multiple topics</b>

- **NeverBlink** – deep-tech IT startup / SME from Poland
- **Core product:** breakthrough platform for **real-time data integration and trustworthy neurosymbolic AI**
- **Technology based on [award-winning research](#)**  
(Dieter Fensel Visionary Award and Best Poster @ ESWC 2025)
- **[Real-life success stories](#)** – sped up the Nanopublication Network by **>1000x** (nominated for Best Industry Paper @ SEMANTiCS 2025)
- We maintain crucial open-source software: **the fastest knowledge graph streaming protocol, [Jelly-RDF](#) and lead a [CG TF](#) at W3C**
- Excellent Horizon track record
  - Our team led the implementation of an **award-winning H2020 pilot** ([Best Professional Research 2024](#), buildingSMART)
  - NeverBlink is currently coordinating the **[OBEREK EU project](#)**

## What we can do for your project

**GenAI is too unreliable  
for the industry**

**We enforce logical validity  
& explainability**

**Too much scattered  
and disconnected data**

**We give data meaning,  
make it usable for AI**

**IT systems can't react  
to real-time events**

**We enable real-time AI  
decision-making**

## • Expertise:

- Robust and trustworthy AI
- Industrial AI (e.g., manufacturing, energy, smart city, farming...)
- Agentic AI, neurosymbolic AI
- Data integration, real-time systems
- FAIR, data management, RDF, knowledge graphs

## • Preferred role:

- Looking to join consortia that need a **strong AI & data partner**

## • Contribution to proposals:

- Team experienced in HE coordination – **we can contribute to writing**
- Strong in standardization, open science / open source
- Clear exploitation path and impact
- Women-led EU deep-tech startup
