About Us

A London-based sustainability technology and assurance firm

End-to-end solutions from preparedness to action and assurance

Make ESG Data Credible Through AI-Powered Innovation

Enabling Data-Driven Decisions for Business Success Through ESG Intelligence

Simplifying complex regulations and stakeholder expectations

Vision

To be the global catalyst in making sustainability data as credible & managed as financial data

Our Intelligent Sustainability Ecosystem

Insights

ESG Compass Suite: AI-driven ESG assessments and preparedness intelligent platform

- ESG Insight AI – Maturity and Roadmap
- ISSB Readiness
- CSRD Readiness
- Double Materiality Assessment
- ESG Due Diligence
- Human Rights Due Diligence (HRDD)
- e-learning and collaboration hub.

Action

LevelUp Net Zero: Automated carbon accounting and management

- Granular and audit-ready carbon measurement and reporting
- Supply chain Model
- Climate scenario modeling
- User-friendly interface
- API Integration Capabilities
- Advanced Predictive Analytics

Risk Management & Assurance

GreenShield Suite: anti-greenwashing risk management, assurance and compliance solution

- ESG risk management
- Stakholders Enagement & ESG Incident Management
- Anti-greenwashing rule assessment and compliance

ESG Compass Suite

Your AI-Powered Sustainability Navigator

01 **GreenSight AI:** Gain deep, AI-powered insights into your ESG performance

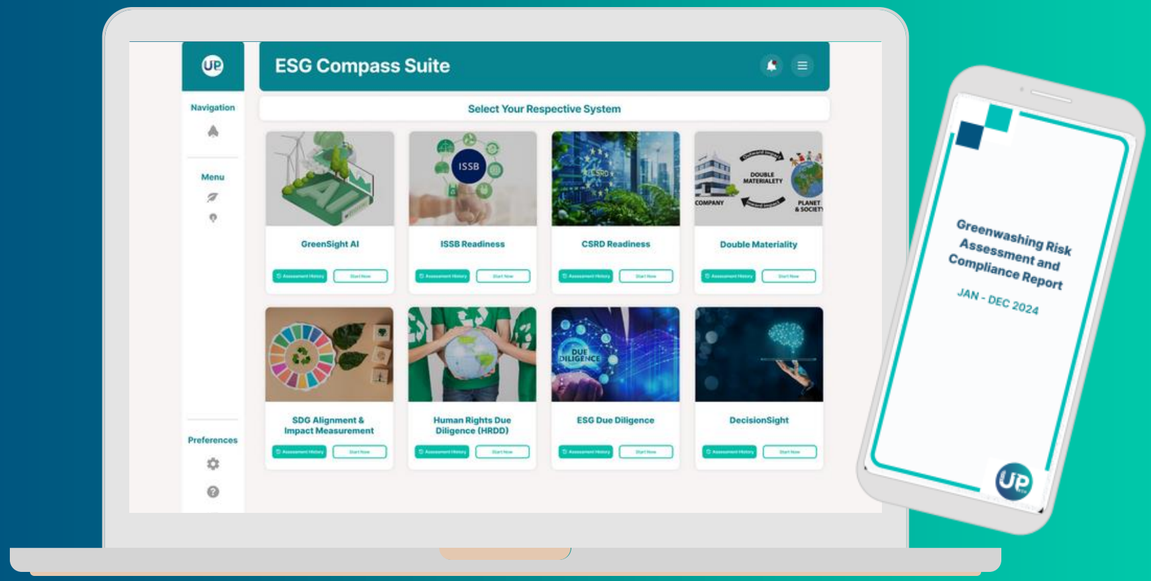
02 **CSRD Readiness:** Self-assess and Prepare for Corporate Sustainability Reporting Directive compliance

03 **ISSB Readiness:** Self-assess and align with International Sustainability Standards Board requirements

04 **ESG Due Diligence:** Conduct thorough ESG risk assessments

05 **Human Rights Due Diligence (HRDD):** Ensure respect for human rights across your value chain

06 **Double Materiality Assessment:** Identify and prioritise ESG issues that matter most to your business and stakeholders



GreenSight AI

Unlock Your ESG Potential with AI-Powered Maturity Rapid Assessment

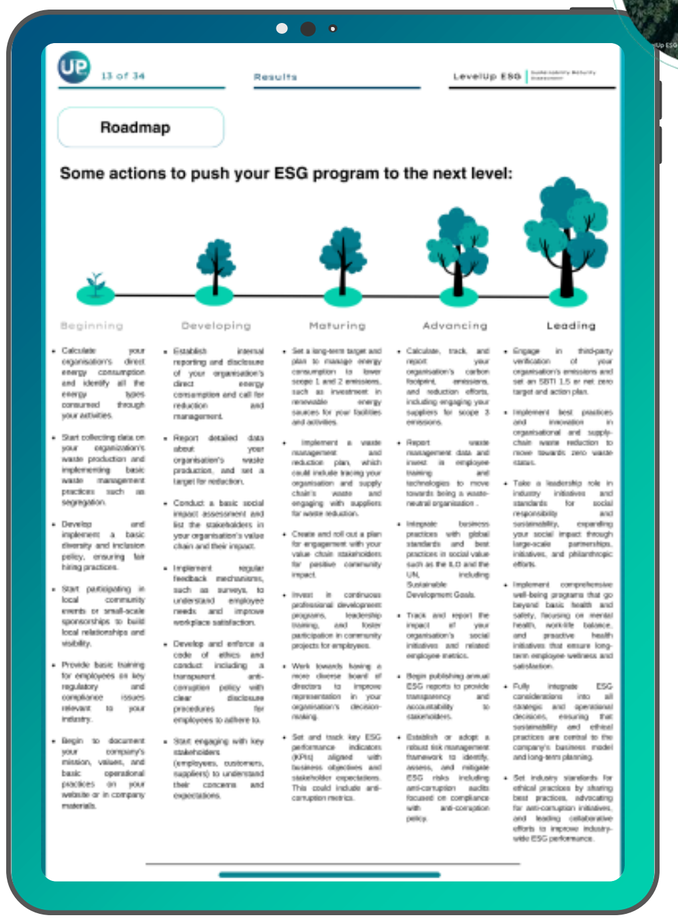
01 **ESG Rapid Scan™:** 30-minute sustainability assessment powered by proprietary AI insights & global frameworks

02 **Strategic Action Roadmap:** Get a maturity aligned action plan to enhance your ESG practices

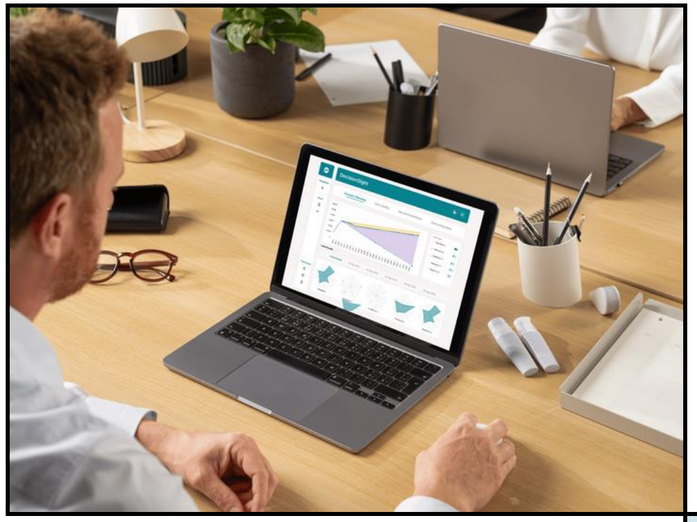
03 **Dynamic Data Visualization:** Track progress with interactive metrics and reports

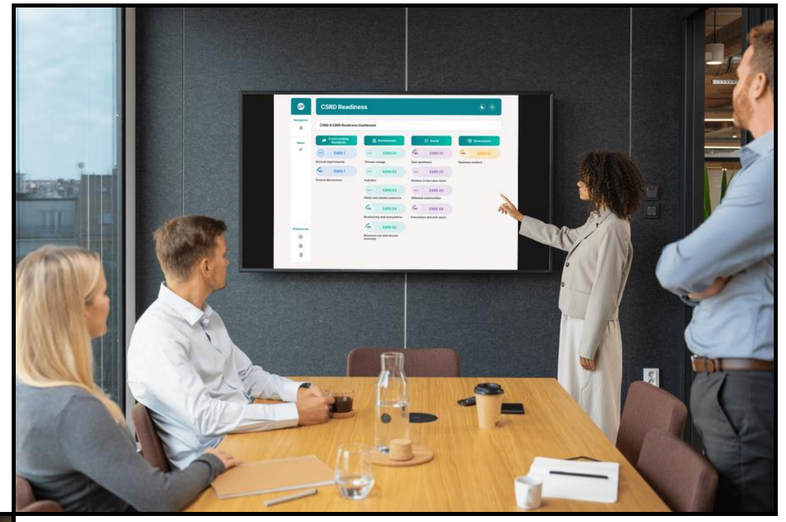
04 **Proactive Compliance insights:** Stay updated on evolving ESG regulations and requirements

05 **Intelligent Progress Radar:** Stay ahead with smart progress tracking and AI-driven analytics that highlight improvement opportunities



Get your Free AI-Powered Maturity Assessment





CSRD Readiness

GreenSight AI

LevelUp Net Zero

Intelligent Decarbonisation Platform

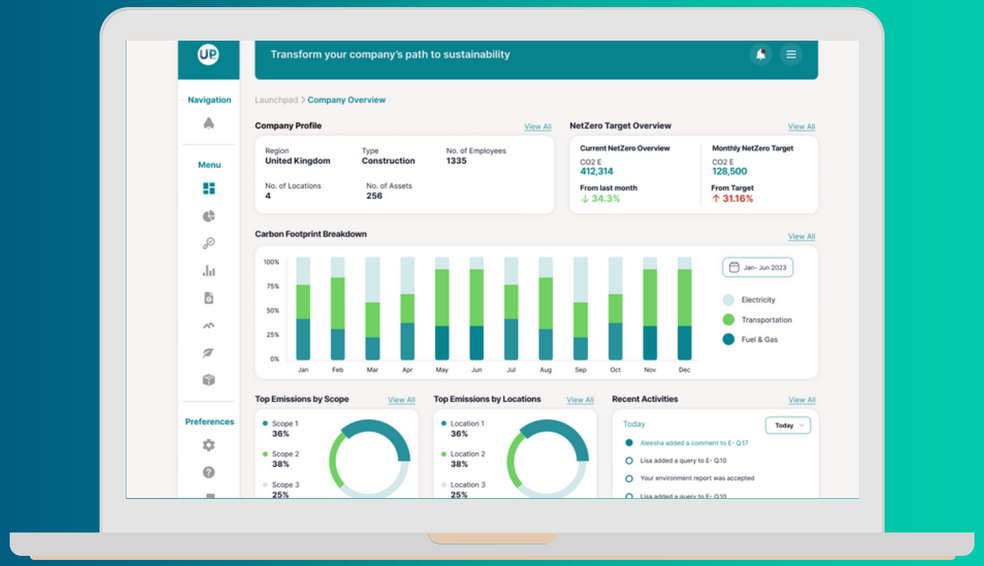
01 Automated carbon footprint tracking across value chain

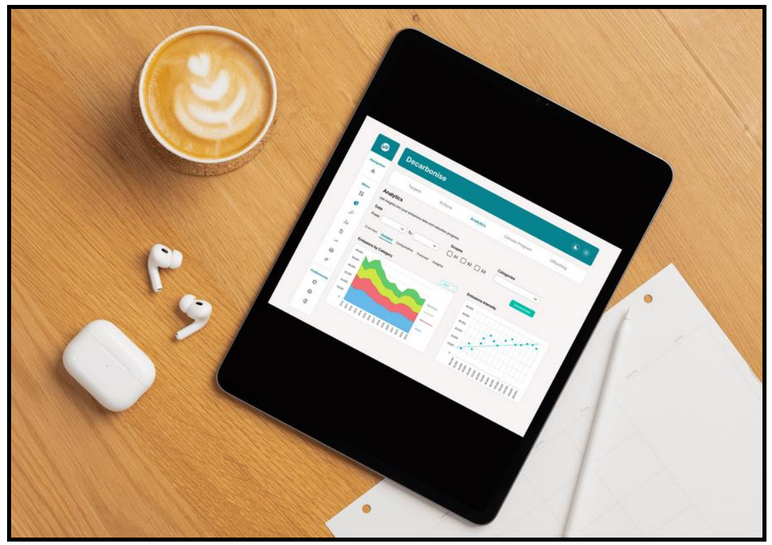
02 Transparent, auditable carbon reporting and compliance

03 Seamless integration with IoT, ERPs for granular, auditable data

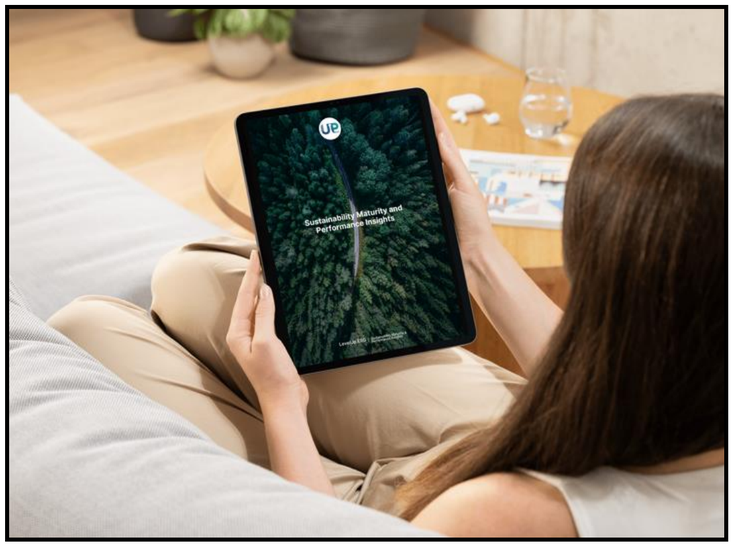
04 Science-based target setting and reduction pathway optimization

05 Predictive carbon analytics and scenario modeling

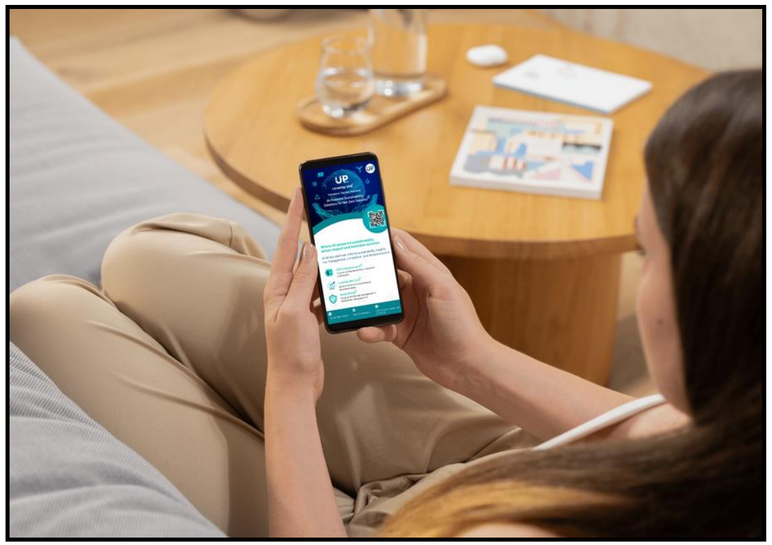




Decarbonise



Sustainability Maturity and Performance Insights



GreenShield

ESG Risk management, Compliance & Stakeholders Engagement

Navigate and Automate Your ESG Risk Management and Compliance

01 Comprehensive ESG risk management and mitigation

02 AI-powered Stakeholders Engagement and incident management and reporting

03 Robust data validation and verification through cutting edge technology and certified auditors.

04 Transparent, auditable data and regulatory compliance self assessments

Get CBAM-ready

with LevelUp ESG

01

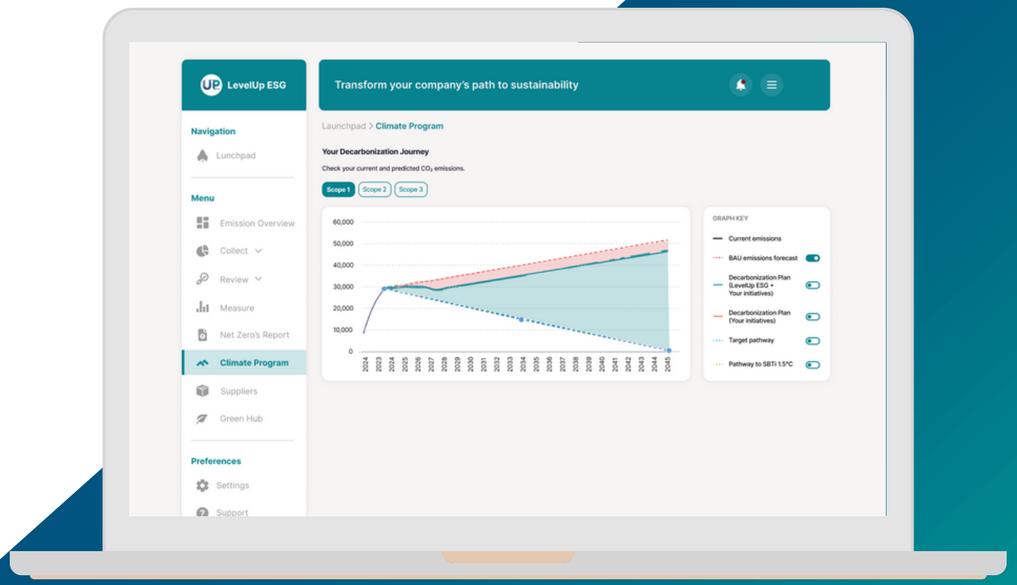
Streamline Reporting: Effortlessly collect and manage data to get ready for CBAM reporting requirements.

02

Supplier Engagement Made Easy: Collaborate with suppliers to ensure their data is accurate and up-to-date.

03

Reduce CBAM Costs: Optimize your operations and identify cost-saving opportunities with our data-driven insights.



Get SECR-ready

SECR Compliance

Streamline Reporting

Effortlessly collect and manage data to meet SECR reporting requirements.

Comprehensive Solutions

Scope 1, 2, and 3 emissions calculation
Energy efficiency action planning
SECR-compliant reporting

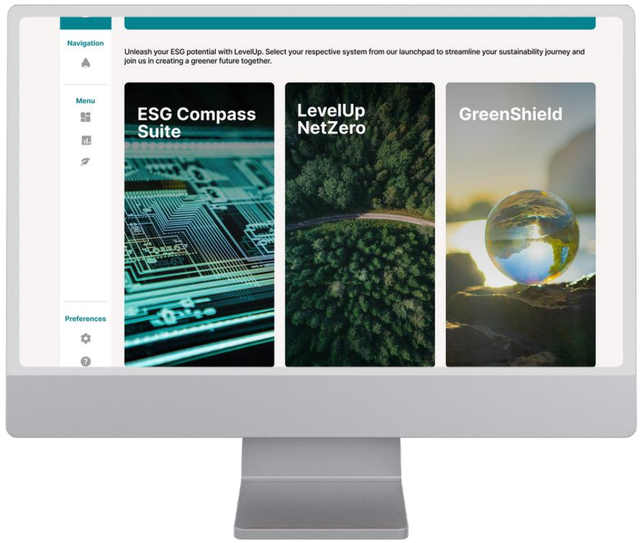
Beyond Compliance

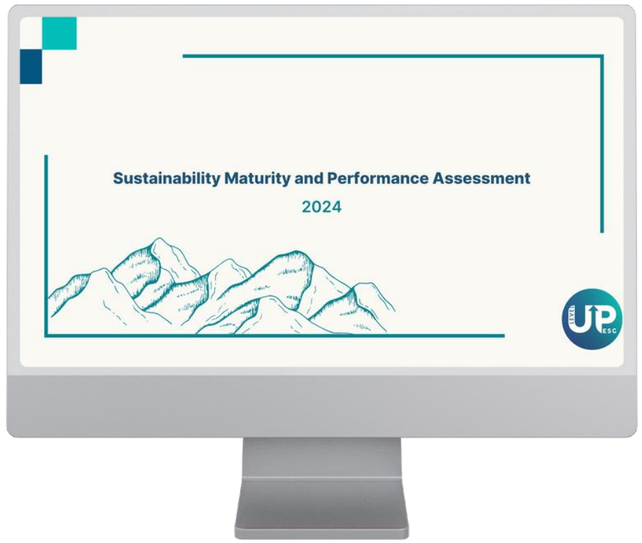
Transform SECR requirements into opportunities for sustainability leadership

Sustainbility Report Assurance

AI-Powered Sustainability Intelligence

- Intelligent Assurance Platform: AI-driven data anomaly detection and verification for enhanced reliability.
- Global Standards Alignment: Adherence to international sustainability assurance standards and recognized reporting frameworks (ISSB, CSRD) for credibility and comparability.
- Certified Assurance Professionals: Engagement of qualified experts for independent verification and stakeholder trust.





Green Hub

Peer Collaboration and Upskilling for the Green Economy

Immersive e-learning library in sustainability, climate and ESG best practices

Bespoke workshops on decarbonization, TCFD, SBTi, SDGs and more

Practical guidance and various resources on sustainability and good business practices

Collaborative hub for knowledge sharing and peer networking

Our AI-Driven Sustainability Solutions

01

Preparedness: ESG Maturity and Performance insights

02

Materiality assessment and strategic insights

03

Human Rights & ESG Due Diligence

04

GreenShield: risk management solution

08

Assurance of sustainability reports and compliance with anti-greenwashing rule “FCA”

07

Reporting Preparedness & Assessment for ISSB & CSRD

06

LevelUp Net Zero: Emissions Tracking and Reduction Strategies

05

Stakeholders Engagement and incident management and reporting

Why Choose LevelUp?

1

Intelligent ESG Navigator

- Delivering deeper insights. Creating clear roadmaps from limited data. Track progress, promote success, and drive authentic impact.

2

Carbon Clarity, Simplified

- Automated, advanced carbon footprint measurement and tracking across Scopes 1, 2, and 3. Leveraging AI for predictive insights, scenario modeling, and optimization recommendations.

3

Intelligent ESG risk management

- Proactively identifies, assesses, and mitigates ESG-related risks by assessing and continuously monitoring regulatory changes, industry trends, and company data.

4

Compliance without Complexity

- Seamless alignment with evolving regulations like CSRD and ISSB, tailored for the unique context of your organisation. Transforming compliance from a burden into a competitive advantage.

5

Flexibility to Grow

- Modular and scalable platform that adapts to the client's ESG maturity and evolving needs.

6

From Data Headache to Strategic Value

- Transforming time-consuming ESG data collection into a streamlined process, dramatically reducing workload while boosting data quality for smarter sustainability decisions.

7

ESG Performance Optimizer

- AI-generated maturity assessments and improvement roadmaps
- Tailored to industry benchmarks and best practices

8

Holistic ESG Empowerment

- Complemented by human-led advisory, upskilling, and peer community collaborative hub.

Engage and Build Trust with Stakeholders

Shareable Reports

Get easy-to-read, professional reports ready to share with stakeholders and incorporate into your broader company ESG documentation.

All Scopes

Comprehensive Scope 1, 2, and 3 emissions footprint measurement & reporting for complete carbon analysis.

Boost Resilience, Protect Reputation

Strengthen sustainability profile, mitigate risks, and enhance trust with transparent, accurate data and anti-greenwashing enablers

Our Core Team

Dr. Ahmed S.
Founder & CEO

- Ph.D. in Sustainability Assurance and LBS Sloan fellow in Strategy.
- 20+ years' experience in sustainability, governance, IA and risk management .
- Global consulting intrapreneur and climate tech innovator.

Dr. Mohamed El Zayat
sustainability Director

- Ph.D. in Environmental Engineering and ongoing MBA
- 15+ years in sustainability, environmental engineering, and solid waste management

Kayode T.
ESG Impact and Investing

- 15 years international experience in ESG, GHG, and Private Equity.
- ESG integration, sustainability frameworks, and value creation across diverse sectors.

Salman A.
Solutions Architect

- Master's degree in Data Science with 7+ years of experience at Accenture, Saudi Aramco, and IBM.
- Specializes in developing end-to-end statistical models across industries.

Jeffery T.
Growth

- Co-founder and top management leader with 20+ years in Sales & Marketing across SaaS, enterprise software, and management consulting.
- Experienced in scaling tech startups globally with expertise in sales strategy, people, management, and recruiting across diverse, high-growth markets.

Yana M.
ESG Strategy

- LBS MBA with 15+ years of experience in business model re-engineering, strategy and business growth.
- Expertise in leading digital transformations and aligning vision, strategy, and execution for sustainable success.

Hady M.
Product Manager

- Product & Operations Manager with expertise in sustainability, tech and PM .
- 5+ years of experience in PM, technical consultation and leading diverse teams.

Our Core Team

Katerina E.
Business Development

- Specialist in environmental automation software with 20+ years of experience, focusing on ESG, LCA, and regulatory compliance (packaging, WEEE, Conflict Minerals).
- Extensive background in software sales, marketing, and leadership, driving sustainability through technology solutions.

Nada A.
Client Success

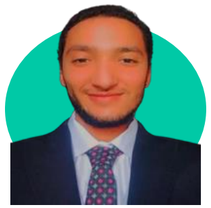
- 4+ years of experience in project management and client success.
- Skilled in managing client expectations, ensuring project success and strong client relation.

Talaat H.
Data Engineer

- Data Engineer with expertise in designing and implementing scalable data pipelines and architectures.
- Skilled in data integration, ETL processes, and ensuring data quality to support analytics and business intelligence initiatives.

Mahmoud E.
Data Analytics Specialist

- Data analyst with 3+ years of experience in transforming raw data into actionable insights using tools like Power BI, Excel, SQL, and Python.
- Skilled in data modeling, dashboard creation, and process automation to drive data-driven decision-making and enhance productivity.



Mohamed S.
Data Analytics Specialist

- Data analyst with 3+ years of experience in data cleaning, analysis, and visualization for decision support.
- Skilled in Excel, Power BI, Tableau, Python, SQL, and advanced machine learning techniques.

Abdo S.
Data Scientist

- Data Scientist specializing in analyzing complex datasets for ESG initiatives.
- Skilled in data visualization and AI tool development, enhancing technical skills in Python and machine learning algorithms.

Baharsu A.
GHG and Carbon Credit

- Environmental engineer and carbon specialist.
- 3+ years in sustainability, environmental engineering, and voluntary carbon market

- LevelUp empowers businesses with comprehensive carbon and ESG analysis, providing essential data for decision making and supporting global industry-standards

- Our granular carbon footprint assessments streamline compliance processes, such as B Corp certification, allowing businesses to meet changing sustainability requirements efficiently and accurately

ISSB · SUSTAINABLE DEVELOPMENT GOALS · TCFD · United Nations Global Compact · GREENHOUSE GAS PROTOCOL · SECR · Certified B Corporation · CDP DRIVING SUSTAINABLE ECONOMIES · CBAM
