

**REVOLUTIONIZE YOUR MOBILITY:  
INTRODUCING THE FUTURE OF TRAVEL  
WITH **FIO-FOLD IN ONE** MOBILITY SCOOTER!**

# FIO

*SupaLite* **Fio**

In our pursuit of solutions through multiple iterations and testing, we proudly introduce this masterpiece that's not only incredibly lightweight but also effortlessly foldable, making it a breeze to take on any journey. Rigorous reliability tests have ensured a harmonious balance between its weight and payload capacity, establishing it as the premier choice among travel mobility scooters in the market.

Discover the freedom to move with ease and confidence with our user-friendly mobility scooter comes equipped with the following standout features:

**FOLD AND LOCK FOR TRANSPORT IN UNDER 10 SECONDS.**

- Scooter folded completely in one.
- Designed for travel and light weight.
- Easy operate and comfortable seating.
- Electronic Stability Control (ESC) available
- Digital current cut-off system providing protection to the electronic and motor.
- Durability designed into the scooter for a long and serviceable life.
- Left hand control if preferred.
- Ideal for indoor and outdoor use.

SP ULTRA

Up to 170kgs

Introducing the SupaScoota series – A revolutionary blend of comfort, portability, and high load capacity. Designed to meet the needs of larger individuals, the SupaScoota Series maintains the outstanding maneuverability and portability that is renowned for, while offering a substantial load capacity comparable to many road-class scooters.

The remarkable test results have exceeded our expectations, showcasing the dedication and expertise of the SupaMobility team. The SupaScoota Series sets a new standard in high-capacity portable scooter design, providing a safe and affordable transportation solution for those requiring a significant load rating without compromising on portability.
