Tactical shelter

Changes in war strategies mean that today's armies must **optimize their mobility**: ultra-fast deployment times, severe environmental constraints, autonomy, equipment as close as possible to the theatre of operations, transport of sensitive equipment (such as drones or electronics), comfort and safety of personnel on operations. **Our achievements grant innovative and quality solutions to answer these requirements.**

As a **specialist in the defence market**, we master the technologies needed to **protect people, information and equipment.**

Mobile units and shelters

With our **means**, our **know-how** and our **strong experience**, we **support you in your mobility projects**, on trucks, semitrailers, shelters, specific containers, expandable or not. Our teams are fully **listening to your needs** and **advising you during your projects**, from the **study** to the **approval/qualification of your solution**.

Thanks to our **design capacities** and the **great variety of technologies we master**, our solutions are able to cover a **wide spectrum of operational applications**, making Toutenkamion Group a **key manufacturer for all your mobility projects**.

Our strengths

- **EMC shielding expertise**
- **Integration expertise**
- **The aluminum or polyester composite technologies we use for our large size panels, combined with adhesive bonding or continuous welding assembly processes, ensure the operational efficiency, light weight, strength and durability of our products.**

Dedicated tactical shelter

Specific structure

Air-transportable cab

Truck cabs transformation

We **modify and adapt truck cabs** in order to be able to **follow all the movements of your teams** as the **air-transportable cab**.

We work on the suitability of the cab for your specific needs : protection of personnel thanks to approved roll bars, reception of the entire team by increasing the number of seats and enlarging the cab, modification of the cab to adapt it to the on-board equipment...

Additional seating

Additional openings

Approved roll bars

Other tailor-made mobile solutions

We also design and manufacture mobile units in **many other fields** which will perfectly **meet your needs** in health, training, events, workshop, laboratory, measurement and analysis, decontamination...
