PARTNERSHIP

Bring Kallina to your clients.

We look for resellers, system integrators and contact centers in Portugal and across Europe whose clients lose customers on unanswered calls and messages.

Resellers & agencies

You already sell software or digital services to restaurants, clinics, transport or real estate. Add AI for calls and messages to your offer.

System integrators

You work with CRM, POS, booking or telephony systems. Kallina connects to a client's systems in up to 30 minutes, and you know their stack.

Contact centers & BPOs

Move the repetitive volume (confirmations, bookings, status questions, after-hours calls) off your agents, so they handle what needs a person.

Kallina AI

PARTNERSHIP

What you get as a partner.

A product clients run

After setup, your clients' teams manage it by talking to it. Little maintenance on your side.

Our team behind you

Onboarding, sales support and a demo for your prospects.

EU-ready deployment

Servers in Europe, GDPR-ready, on-premise when the client needs it.

Revenue that grows

Monthly plan plus usage: income follows your clients' volume.

How we start: one client, one painful task, results in the first month. Then we agree on the model that fits you: referral, resale or integration.
