MEAT  
ALTERNATIVE

1 PAD  
=> 100 Possibilities

# NEXT LEVEL MEAT ALTERNATIVE

- No additives
- Just 5 organic ingredients
- Natural production

KING OYSTER MUSHROOM

FUNGI BASED

## FUNGI BASED:

The FUNGI PAD is based on king oyster mushrooms, which are cultivated, harvested and processed directly here in Ulrichsberg, Austria. The FUNGI PAD can be used to create any dish that can also be prepared with meat. This means that the FUNGI PAD is not a meat substitute, it's a real alternative. Looking forward to:

**GOODBYE FAKE. HELLO FUNGI.**

**1 PAD**  
**100 Possibilities**

The first alternative to cook everything with.

Bring your product range to the NEXT LEVEL with the  
**HERMANN.BIO FUNGI PAD:**

## Fake, chemistry, science fiction

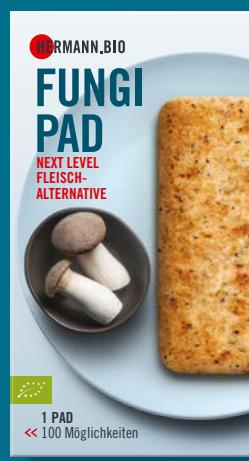

„With every mushroom we cultivate,  
we want to grow a positive future  
for us all.“

Hermann & Thomas Neuburger

# WHAT'S IN HERMANN.BIO?

- Only 5 natural ingredients
- 100% organic, 0 additives
- Naturally produced
- Home-grown king oyster mushrooms
- Gluten- and lactose-free

## Shaping the future of nutrition

**HERMANN.BIO** is creating the culinary world of tomorrow. We are working towards a future in which alternatives to meat are no longer seen as 'second choice', but as 'first class'. A future where meat alternatives are not only more versatile and flavourful, but also healthier than ever before. Our FUNGI PAD is for anyone looking for a real meat alternative, not an imitation of the original. An alternative that stands for pureness and variety.

Thomas & Hermann Neuburger
