

CAMCOPTER® S-100 Operator/Instructor

📍 Wiener Neustadt

🕒 Fulltime

The Schiebel Group of companies is a world-wide high-tech electronic enterprise for Unmanned Air Systems (CAMCOPTER® S-100) and Mine Detection Systems.

At Schiebel, we are increasing our global operational footprint and operations, therefore we are looking for highly motivated UAS Operators who are willing to travel for long-term deployments and reinforce our teams worldwide. Our highly qualified Training Team will ensure you are fully trained before deployment (training will take place in Austria for a duration of typically two months). Once you have completed your Internal Qualification Training you will become a certified CAMCOPTER® S-100 Operator on a contracting basis. Thereafter you will be deployed to different parts of the world (land and/or ship-based operations) on rotation (2 months ON / 1 month OFF) as a member of our Flight Operations Teams.

Your Duties:

- Operate the CAMCOPTER® S-100 in support of our global flight operations and training activities
- Ensure all flight and ground operations follow established procedures and are conducted safely
- Conduct all necessary pre-flight and post-flight procedures, including ground station setup and removal
- Maintain situational awareness of the air vehicle's location, in-flight status, and threats to the aircraft from air and ground
- Constantly monitor weather on-site and along intended flight paths
- Continually re-evaluate risk assessments and take appropriate actions to mitigate any elevated risk levels
- Capture critical information for input into after-action reports and lessons learned
- Professional, accommodating behaviour, internally and externally
- Work in compliance with all system related and operations related regulations (Duty of Care)
- Proper usage of system documentation and creation of internal and external reports (Duty of Documentation)
- Participate in relevant meetings and conduct briefings on request
- Develop and facilitate continuous product and service improvements

Our Requirements:

- Must be an EU citizen or have the unrestricted right to work in the EU/ Schengen Area e.g. work visa
- Have strong technical skills and knowledge preferably from previous experience in aviation
- S-100 Operator Qualification is desired but not required
- Excellent communication skills in English, both verbally and written
- Proactive attitude and capable of working under minimal supervision.
- Must be willing to travel overseas for extended periods of time

Your Characteristics:

- Excellent team player within a multi-national team
- Strong work ethics & proactive attitude
- Highly organized, with excellent attention to detail
- Reliable, self-motivated, and able to deal with stressful situations and timelines
- Highly responsible and takes safety as the highest priority

Diversity in our team and working without discrimination are important to us. We actively support diversity in terms of personal backgrounds, perspectives and experiences. We therefore encourage people of different genders, backgrounds, ages, abilities and religions to apply.
