

SUNFILL

Sugar free

100% natural ingredients

SUNFILL is the Ukrainian manufacturer of natural and healthy snacks.

The company was founded in 2016 to make delicious, natural and healthy snacks as affordable as possible.

Modern production technologies allow us to preserve the beneficial properties of all ingredients, thanks to a special drying method.

Our mission is to improve the quality of people's nutrition and create a healthy alternative for unhealthy snacks.

The product contains no sugar, gluten, stabilizers, flavors and E-additives, so it'll be useful even for the smallest consumers.

In 2017 SUNFILL underwent the European ISO 22000 certification that confirms the safety of production and products at all stages.

We use only natural ingredients for the production of snacks and adhere to a low-temperature regime during the drying process.

A temperature of 45 degrees allows to preserve all the primary macro and micronutrients, and all the benefits of the ingredients.
