- Title of the experience Pic-Nic in a Century's Olives Grove
- Short description: Picnic immersed in nature under the centuries-old olive trees, a breathtaking panorama of the Little Lucanian Dolomites based on artisanal products and oil
- Long Description Walking in an olive grove gives serenity, in every moment of your day, in every season. The olive tree lives every day of the year and always shows the elegance of its being and its resistance both when man prepares it for the new season with pruning and at the time of harvesting, when he allows them to be removed by force its fruits. The olive grove is the origin of the passion that animates us and brought us to Basilicata. Come and learn about our work. Come and embrace the centuries-old olive trees of our company, to admire how the youngest ones are growing, planted to give a future to our business. We at Mantenera will guide you to discover a simple and fascinating world, because passion makes life in the countryside simple and fascinating. Starting with the olive trees, following an ideal path made up of stories and people, going beyond the oil we produce, which

will be the reason for a meeting and the gateway to renewed attention to our daily diet. We will walk our land discovering areas with breathtaking views of the Piccole Dolomiti Lucane and the Gallipoli Cognato Park of which we are in the air of respect, admiring the expanses of olive trees, and under the shade of these precious olive trees it will be prepared your picnic based on locally produced cured meats and cheeses, bruschetta with oil and a dessert prepared with our jams for a total immersion in nature.
