

Zena Energy

Welcome To Company

Founded: 2015 by Yüksel Çağrı Gürses

Headquarters: Istanbul, Türkiye

Specialization: Solar energy solutions

Employee count: 10-20 professionals

Vision and mission

Sustainable Energy for a Greener Future

Contributing to Türkiye's energy independence

Leveraging local engineering talent

Cutting-edge technology

Driving solar energy innovation & long-term sustainability

Know More About Us

Founder & CEO: Yüksel Çağrı Gürses

- Visionary leader in renewable energy solutions
- Expertise in solar technology and sustainable investments

Expert team

- Skilled engineers, technicians and project managers
- Specialization in solar panel installation and AI optimization

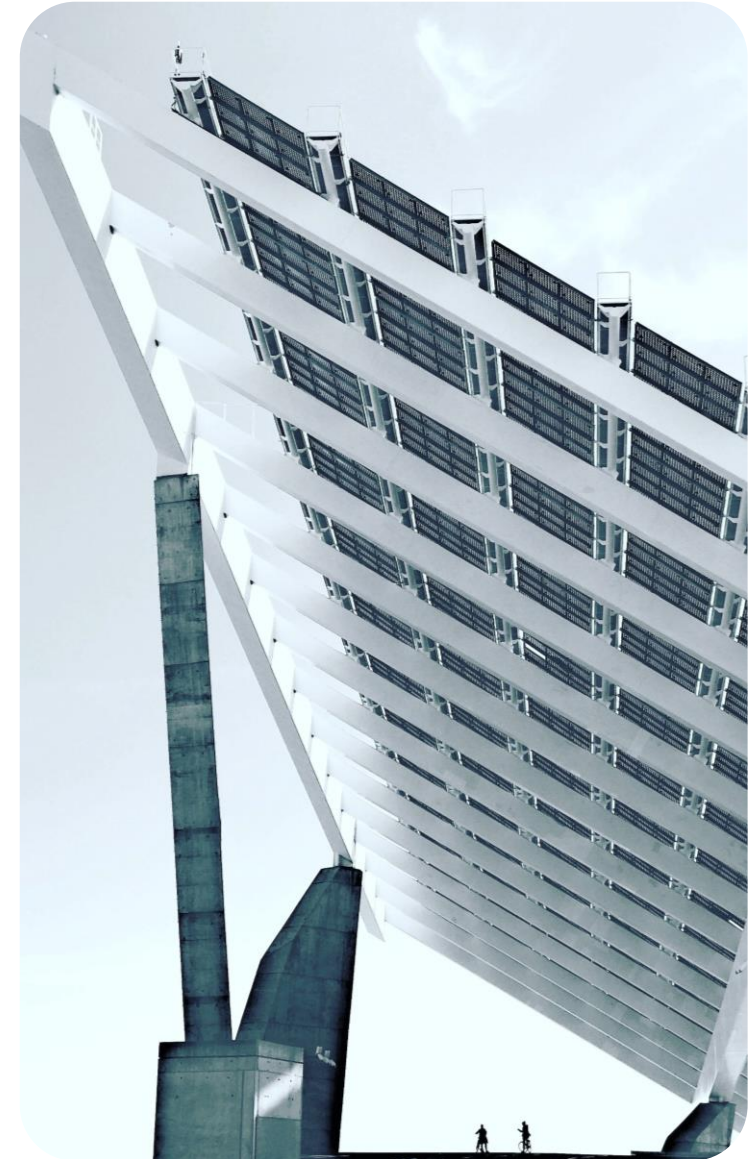

Advisory board

- Certified Public Accountant (CPA) & Sworn-In CPA
- Seasoned CFO (financial planning & investment strategy)

**We Believe In
Renewable Energy**

Strength

Project Development & Design

- Feasibility studies, project planning
- Industrial rooftop solar power installations

Construction & Installation

- Site preparation, permitting, grid integration
- First & largest industrial rooftop solar plant

Drone-Based Thermal Testing & AI Analytics

- UAV thermal testing for solar panel efficiency
- AI-driven performance reports

Operation & Maintenance

- Post-installation monitoring & optimization

Notable achievements

Pioneering projects

- First & only test solar power plant in Türkiye
- First & largest industrial rooftop solar installation
- Successfully completed projects for global companies

Tech-Driven Approach

- AI-based solar system performance analytics
- Advanced drone technology for fault detection

Financial overview

Strong financial position

- Profitable and resilient business model
- Significant cash reserves
- A diversified portfolio of investment properties and assets within selected Organized Free Zones
- No bank debt
- Credit lines secured with prime Turkish banks

Planned long-term investments

- Solar panel ribbon manufacturing project
- Zena's licensed solar farm project
- Other strategic renewable energy projects

Installed capacity

Successfully completed 486 MW solar projects in 15 cities across Turkey, with 370 MW in progress.

Why You Choose Us?

Expertise

Expertise in Large-Scale
Solar Installations

Innovation

Innovative Use of AI &
UAV Technology

Track record

Strong Industry
Reputation & Proven
Track Record
