What is Co(X)ist

Co(X)ist is a virtual reality game that builds peaceful coexistence through immersive role-playing programs that amplify cultural awareness and social tolerance in Ethiopia

Description of Co(X)ist

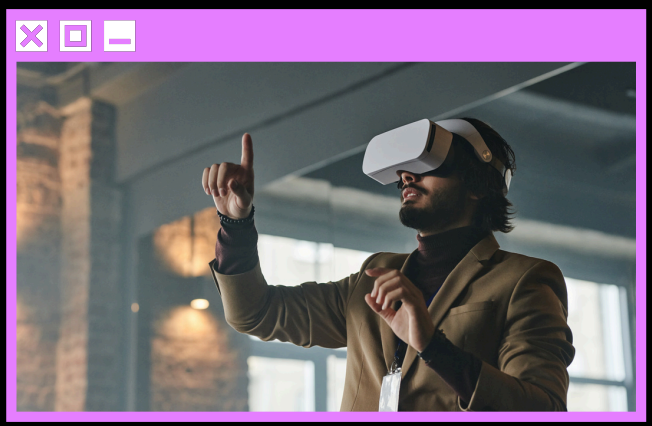

The main objectives

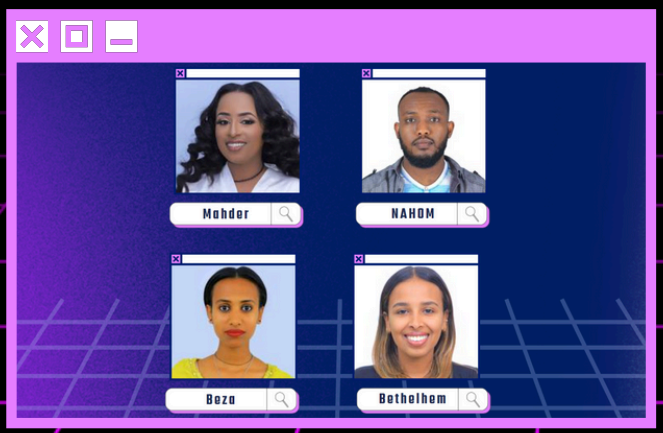

- Creating cultural awareness
- Developing social tolerance
- Promoting learning about other cultures

For Students from elementary schools to Universities

XR Technology as a solution

Immersive XR technologies simulate various cultural scenarios and heritages, where students can interact with different ethnic groups and learn their values, norms, and traditions engagingly.

Co(X)ist Team

Get to know the talented individuals behind the scenes who are making the "Co(X)ist" project a reality. From experienced developers to creative designers, our team is passionate about creating immersive virtual reality experiences..
