About C-Control

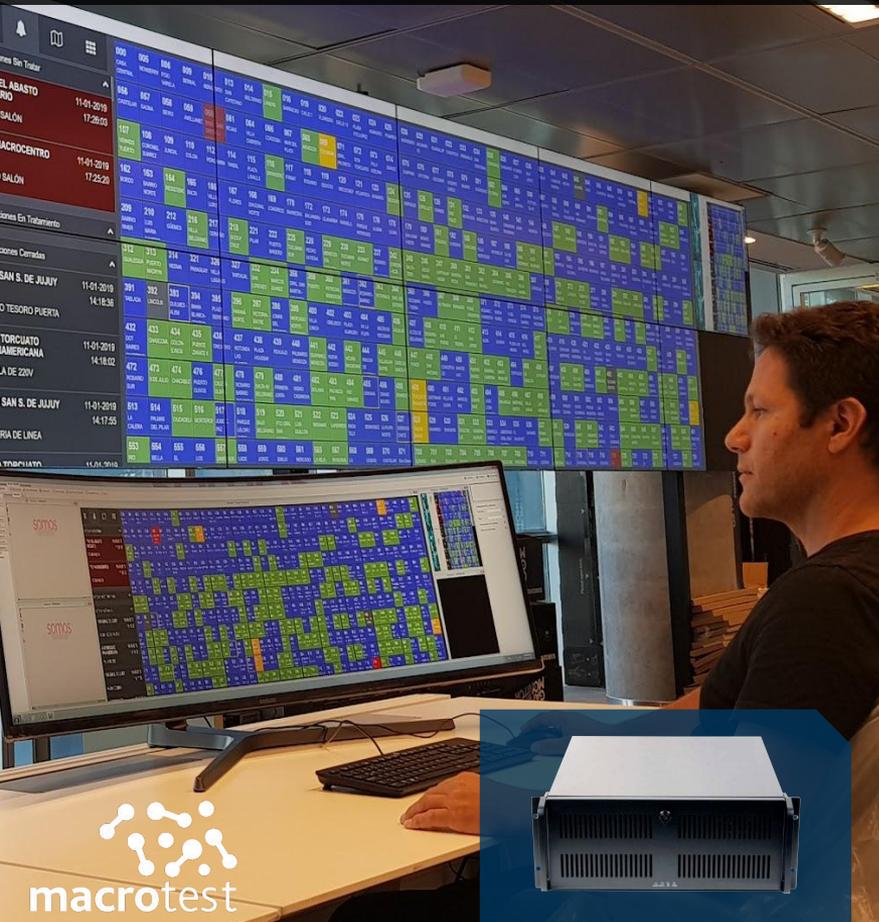

C-CONTROL

ABOUT C-CONTROL

It is a powerful and flexible hardware and software solution that allows you to manage the content of any type of video wall.

- It allows dividing the surface of a video wall into different sectors and assigning the contents to be displayed in a simple and instantaneous way in each one.
- It allows the recording of different scenarios, making it possible to change the contents of an entire video wall with one click.

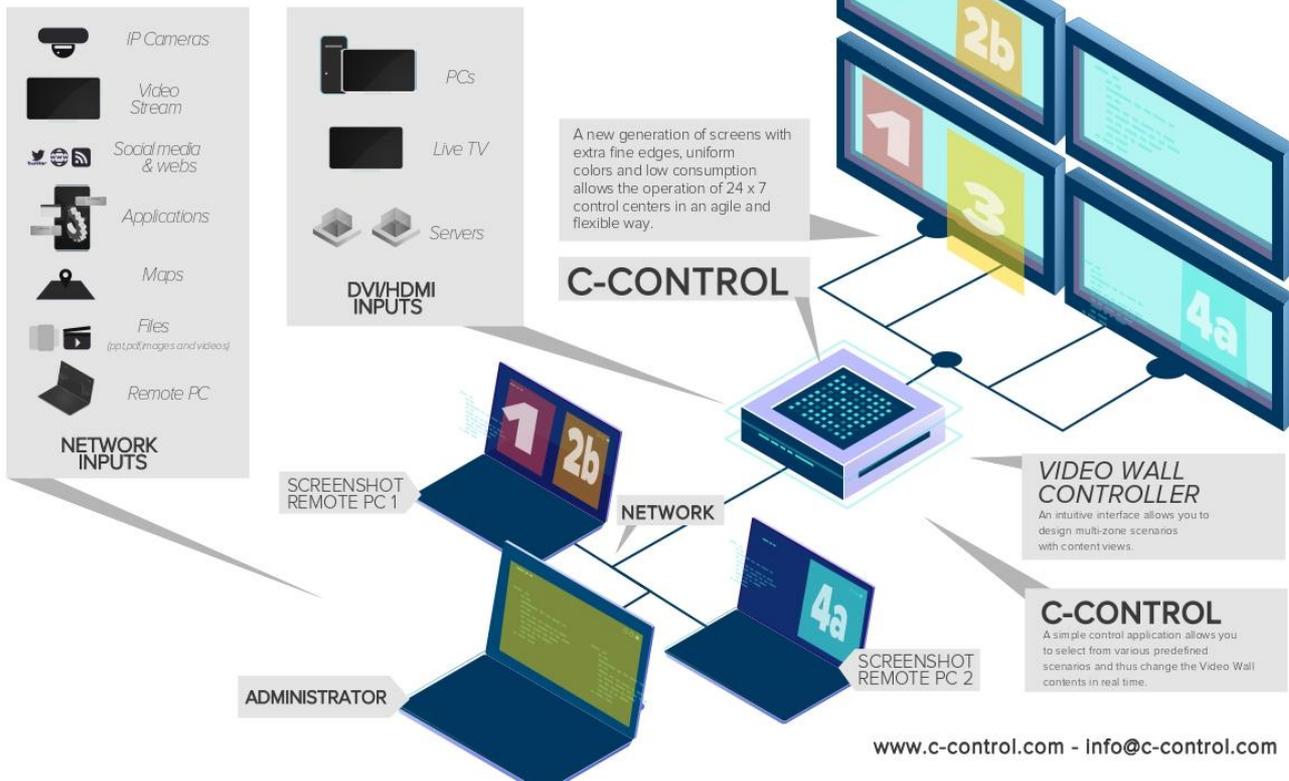

C-CONTROL

Potential

- Physical security monitoring centers
- Cybersecurity monitoring centers
- Data analysis centers (Maps-graphics)
- Social media visualization
- Dashboard visualization
- Meeting rooms

C-CONTROL

Advantages

C-CONTROL

ADVANTAGES

- Equipment preconfigured for 24x7 use
- Scalable teams
- Plug and play installation
- Simple installation process
- Easy to use
- Technical support
