

Short corporate
presentation 2025

we design, develop and build
machines for the automated
manufacturing

more than 180 employees

independent, owned by founders,
flexible

ca. 25 Mio € revenue in 2022

founded in 1995

global customer base
(65% export)

4.500

SUCCESSFUL
AUTOMATION
PROJECTS SINCE 1995

LASERS
WITH UP TO
12.000 W

32.000

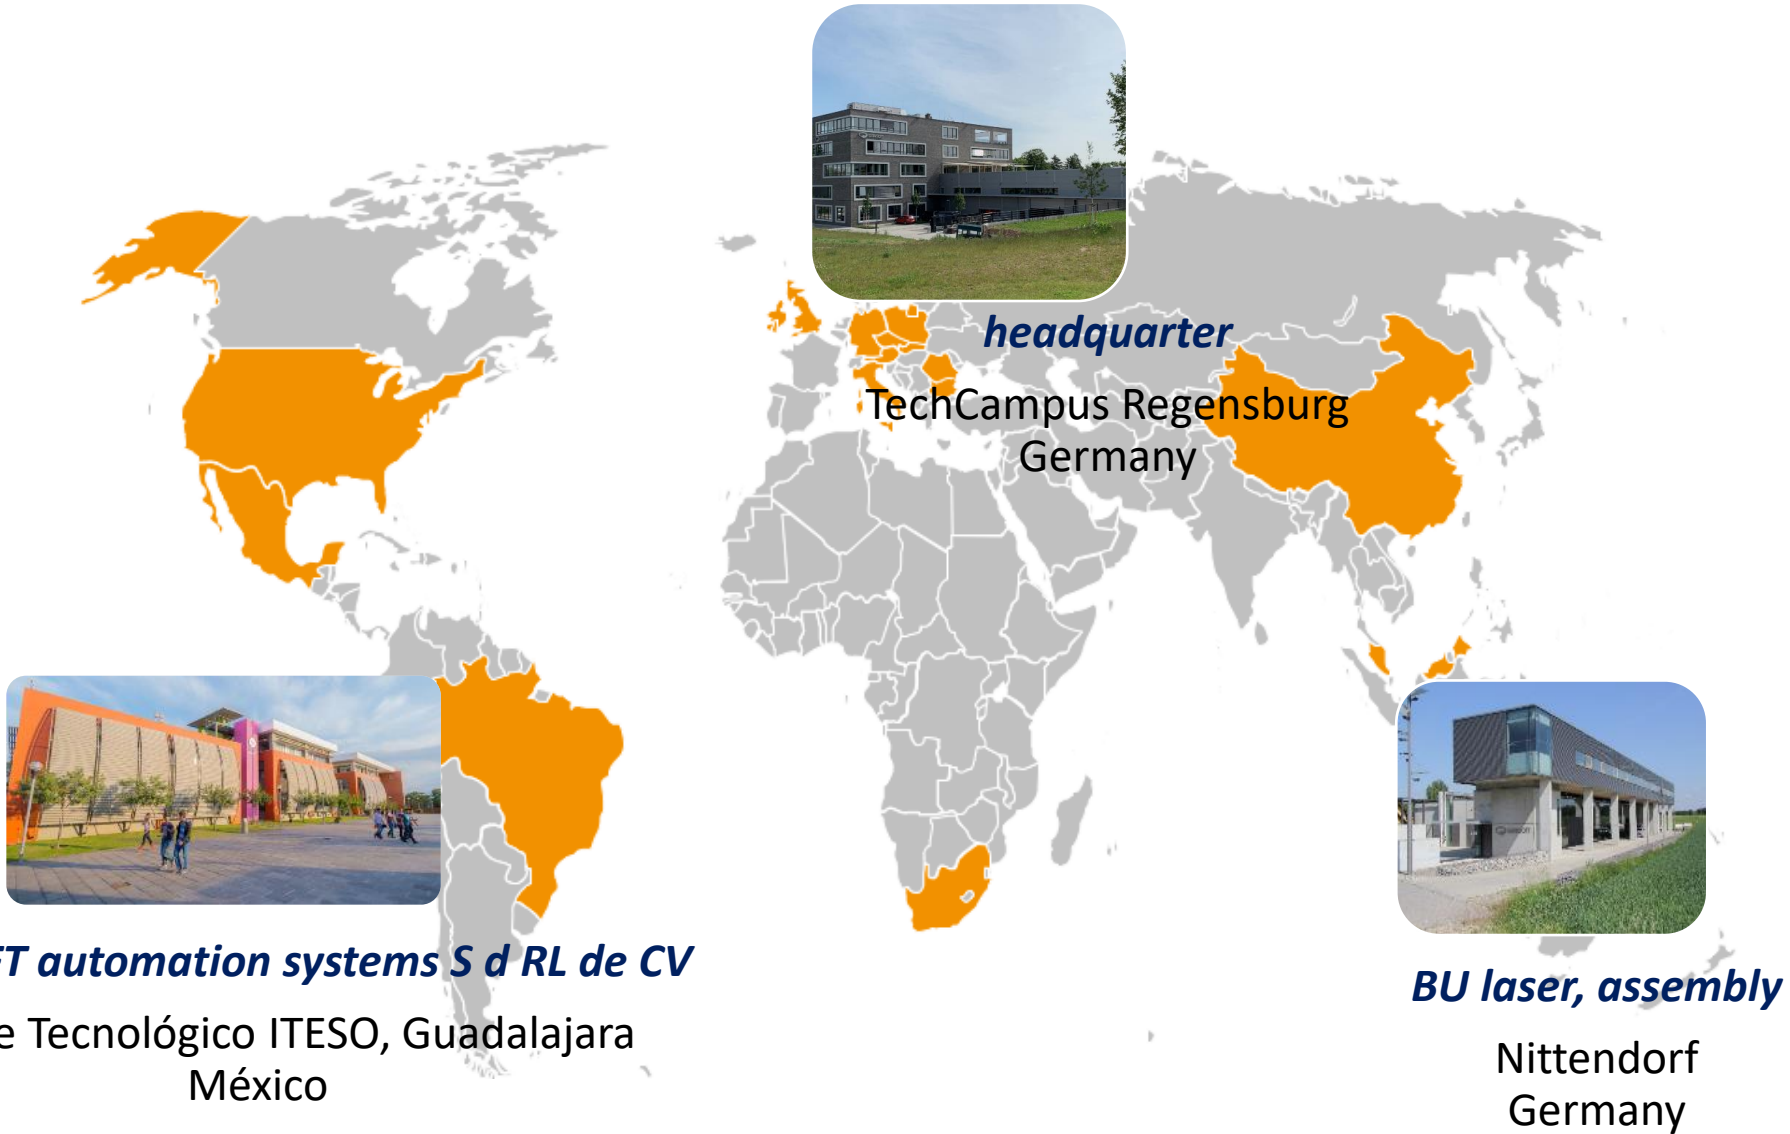

INSTALLED
CAMERAS

260

CUSTOMERS
IN MORE THAN
33 COUNTRIES
ON
5 CONTINENTS

core competencies @ GEFASOFT

Machine vision

Laser material processing

Automation

Machine vision

GEFASOFT delivers machine vision systems for optical process control to improve yield and reliability in automated processes.

We are a global technology leader for glass inspection and calibration in automotive head-up-display applications

Framework for easy & versatile machine vision solutions.
Configure customer-specific applications, based on
standardized building blocks for 2D and 3D imaging

LUCON2® precision LED controller

Viper.NET - modular software framework to develop
and run customized machine vision applications

Fully automatic optical inspection systems for safety-critical metal parts

Laser processing

GEFASOFT delivers systems for state-of-the-art laser welding and laser material processing in automotive and medical device applications

consulting in product design

engineering in process
development

expertise in plastic and metal laser
processing

in-house application lab with
equipment for feasibility studies,
prototyping, 0-series

application specific design of laser
processing machines

Integration module for laser MARKING & CLEANING

a small footprint solution with everything included

- Laser source
- Laser safety
- Device clamping

The **GEFASOFT laser processing module** – either stand-alone or to be integrated in your manufacturing equipment:

Mounting bracket
adapted to your
device handling

HMI included

Including
**integrated laser
shutter (Laser
Class 1)**

product dimensions
300x220x180mm
(further on demand)

Module size
370x660x815mm
(plus separate
cabinet)

https://youtu.be/2n9CkK5nOb4?si=Cp8RGDrUzl_FGEsC

Flexible iterative laser cleaning

-  Part position detection
-  Non-conformity detection
-  Cleaning of non conform regions only (no effect on base material)
-  Re check by vision system
-  (if needed additional cleaning loop)

customized automation

our core competencies in machine vision, laser material processing, servo press and robotic handling are combined to deliver a turnkey solution for assembly & test

Product specific – project specific – customer specific

INTEGRATION OF TECHNOLOGIES TAILORED TO YOUR APPLICATION

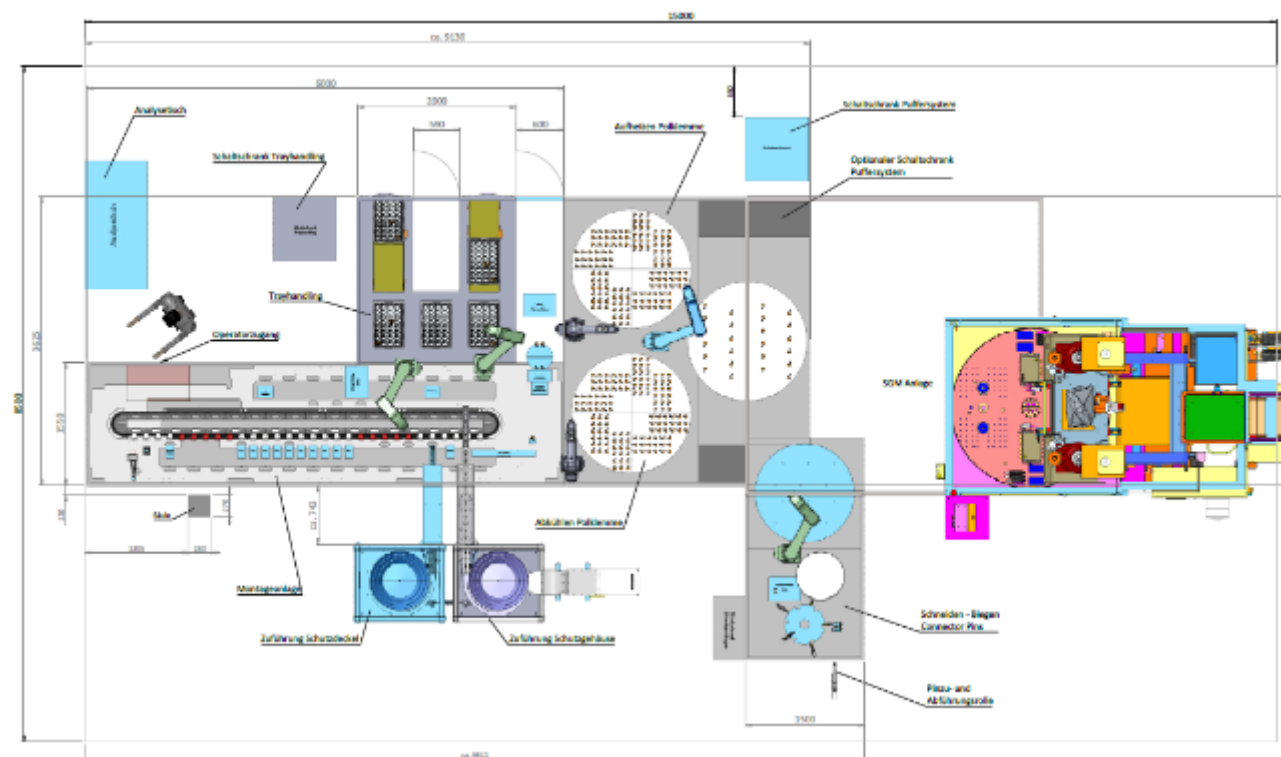

- engineering expertise
- seamless process integration incl. laser, machine vision, servo-press and assembly
- data and software integration
- efficient feeding systems
- various transport systems

automated assembly

fully automated line
incl. trim / form, IR staking and connected molding

Gcell PressFit - force-distance-monitored pressing of multipin connectors into PCB

ZERTIFIKAT

ISO 9001:2015

DEKRA Certification GmbH bescheinigt hiermit, dass die Organisation

GEFASOFT Automatisierung und Software GmbH Regensburg

Franz-Mayer-Straße 10, 93053 Regensburg, Deutschland

für den zertifizierten Bereich:
Automatisierungstechnik, vorwiegend auf dem Gebiet der Blechverarbeitung;
Entwicklung und Vertrieb von damit zusammenhängenden Hardware- und Softwareprodukten
(Standorte siehe Anhang)

ein Qualitätsmanagementsystem entsprechend der oben genannten Norm eingeführt hat und aufrechterhält. Der Nachweis wurde mit Auditbericht-Nr. A22101040 erbracht.

Zertifikats-Registrier-Nr.: 40405358/6
Gültigkeit vorheriges Zertifikat: 16.04.2023
Zertifikat gültig vom: 17.04.2023
Zertifikat gültig bis: 16.04.2026

Dr. Rolf Köckel
DEKRA Certification GmbH, Stuttgart, 21.02.2023
