

Circular Economy.
Sustainable Future.

Services and Projects Portfolio

January 2026

WELCOME

**Carlos and Rebecca
Co-Founders**

"We are all Sustainn!"

We are Carlos León and Rebeca Arnedo, the founders of Sustainn. Established in 2014, Sustainn emerged from the collaboration of two individuals dedicated to fostering a more sustainable and equitable society. Our mission has consistently been, is, and will remain the pursuit of TRUE SUSTAINABILITY. We envision a world devoid of waste, emissions, and inequalities, and one that is more liberated. These convictions propel us daily in our quest for progress.

We would like to express our gratitude for reaching out to us. We look forward to collaborating as a team to progressively attain REAL SUSTAINABILITY together.

SUSTAINN

We are a consultancy specializing in circular economy and sustainability, dedicated to guiding organizations toward a circular and sustainable economic model through innovation, while providing services and sharing our expertise.

Vision

Our vision is to guide individuals and organizations in collaboratively creating a sustainable, equitable, and transparent society.

Values

- Excellence.

SERVICES

Diagnosis

Diagnostics of circularity, sustainability, corporate social responsibility, and sustainability compliance.

Decarbonization

Development and implementation of decarbonization strategy and roadmap

Strategy and Business Models

Development and execution of sustainability strategies, circular economy initiatives, and corporate social responsibility. Planning and development of circular and sustainable business frameworks.

Circular Design and Life Cycle Management

Support for the development of products and services by incorporating the three dimensions of sustainability along with the principles of ecodesign and the circular economy.

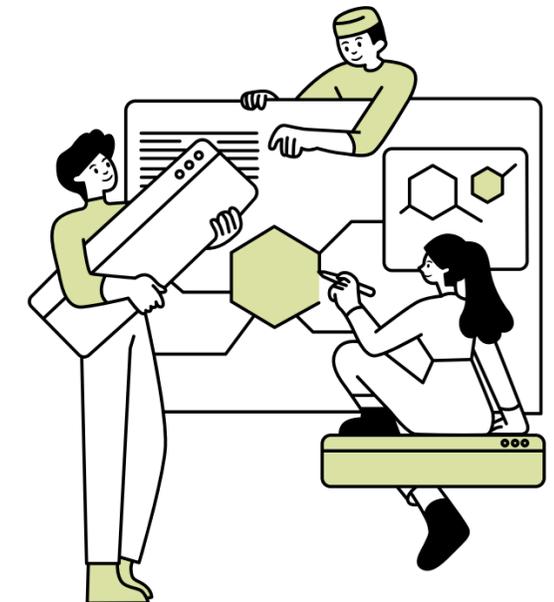

Sustainability and circularity assessment of the life cycle of products and services (LCSA, LCA, LCC, SLCA)

Calculation of carbon and environmental footprints.

Responsible Management

Development of responsible and sustainable supply and value chains

Responsibility and sustainability management frameworks

INNOVATION

What is our role in European innovation projects?

Measure Sustainability & Circularity

- Life cycle sustainability assessment (LCSA)
- LCA, LCC and SLCA
- Circularity Assessment

Circular Design

- Design for Sustainability
- Design for Circularity
- Design for Decarbonization

Green Technologies Development

- Support the sustainable development of green and clean technologies
- Zero-waste systems engineering

RELEVANT PROJECTS

Our most relevant projects in the field of circular economy and sustainability

Oceanwise - Sustainability Assessment - Circularity - (2018-2022)

Development of a methodology for analyzing the sustainability and circularity of the life cycle of EPS/XPS products and applications.

INNOAQUA - Sustainability Assessment - Circularity - (2023-2027)

Sustainability assessment - circularity of the life cycle of algae-derived food ingredients and products

EDIT - ECODIGITAL INDUSTRIAL TRANSFORMATION - (2024-2025)

Expert assistance to aid SMEs in the implementation of the digital product passport.

Product carbon footprint assessment (2021-2025)

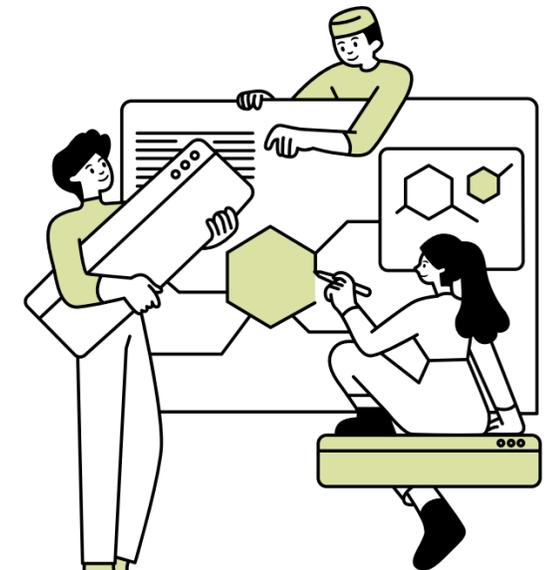

Calculation of the carbon footprint of products across various organizations in diverse sectors, including renewables, construction, food, textiles, and machinery.

Decarbonization Strategies and Organizational Carbon Footprint (2020-2025)

Development of decarbonization strategies and assessment of the carbon footprints of diverse companies across various sectors.

Green Procurement Manual (2025)

Development of a green procurement manual for Pamplona Municipality

RELEVANT PROJECTS

Our most relevant projects in the field of circular economy and sustainability

Navarra Circular Economy Agenda (2019)

Endorsement of the 2030 Agenda for the Circular Economy of Navarre

Circular Economy Strategy Correos España (2020)

Definition of a strategy for transitioning to a Circular Economy at Correos España

Oficina Navarra Circular (2023-2024)

Technical support for the Navarre Zirkular Office of the Government of Navarre

Practical Guide for Implementing the Circular Economy in SMEs (2020)

Collaborating with TECNUN for AENOR

LCSA Diverse Enterprises Navarra - 2020

Life Cycle Sustainability Analysis (LCSA) of products for various companies in Navarre.

Implementation of Environmental Management Systems (2014-2023)

Implementation of environmental management systems (ISO 14001, etc.) across diverse companies in multiple sectors.

Guía práctica para implementar la economía circular en las pymes

Rebeca Arnedo Lasheras, Carmen Jaca García,
Carlos León Perfecto y Marta Ormazábal Goenaga
