

Grants8

Agentic Infrastructure for Non-Dilutive Capital

We turn grants into continuous runway – automated, equity-free.

Greg Lancucki

Co-founder & CEO · greg@grants8.com

Digital Innovation
Hubs Network

THE OPPORTUNITY

€200B

in European equity-free capital

available today

Most founders never touch it.

- | The process is a bureaucratic maze
- | Consultants charge +€2,000 upfront
- | So founders bleed equity instead

THE PROBLEM

The best funding **is locked behind** the worst process.

01

40-page applications with custom-made requirements

02

€2,000+ consultant fees charged to fail

03

Months of waiting

"Teams give up before they even submit."

THE SOLUTION

Grants8 is an execution engine

1 MATCH

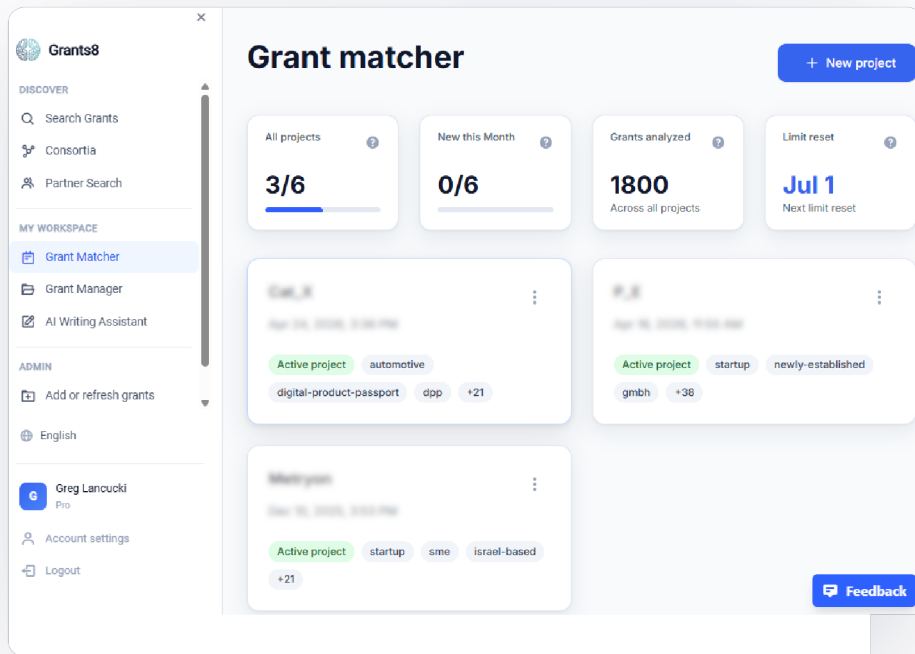

Daily-refreshed grants. Precision eligibility scoring.

2 DRAFT

AI writes the full application. Cross-language. Grant-ready.

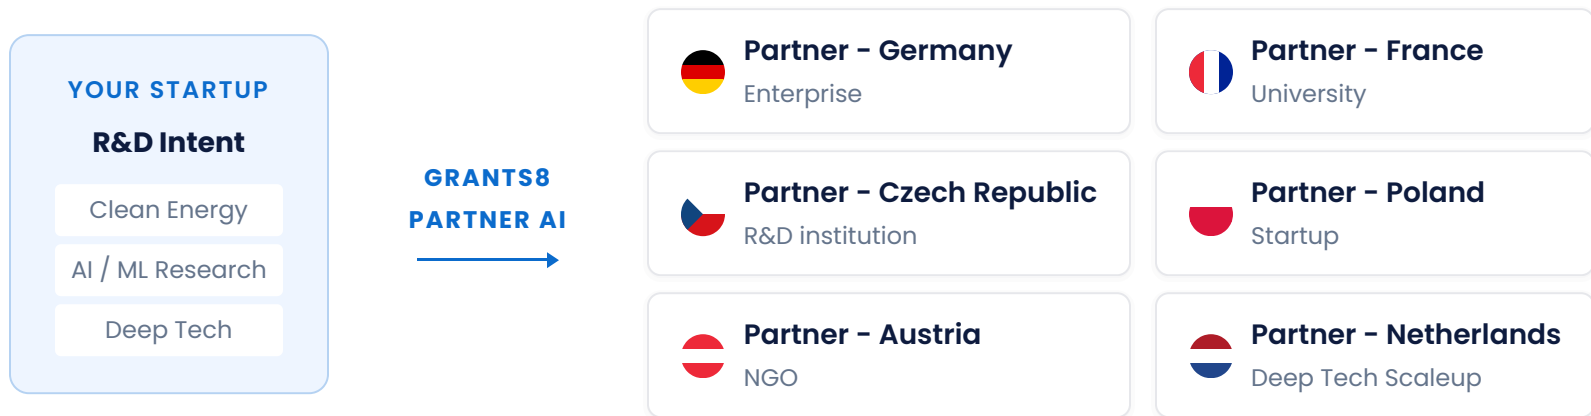

3 WIN

Review and submit in hours, not months.

The hardest part isn't the PDF.

It's finding cross-border consortium partners.

We are building the data layer to dynamically match R&D intent with European partners - turning a bottleneck into a network effect that drives organic growth.

We're not building an AI tool.

**We're becoming the
infrastructure layer
for non-dilutive capital.**

DATA LAYER

Thousands of
grants indexed
daily

EXECUTION LAYER

AI-drafted,
multi-
language
applications

NETWORK LAYER

Cross-border
consortium
matching

Two fees. One aligned with your success.

€50

per month

Platform
access

AI matching

Grant
drafting

0.5%

of grant won

Only on
success

Aligned
incentives

€300k →
€1,500 to
us

We monetize **capital flow** – not just software seats.

TRACTION

55k

grant checks processed

= 14 years of consultant billable work

13

Countries already onboard

founders across Europe are winning with us

€300k+

1M PLN+ grants won - repeatedly

Clients keep coming back for more

3+

We ate our own dog food

Won 3 grants for Grants8 and applying for more

THE TEAM

Greg Lancucki
