CNC METAL WORKS

Attention to every
component

ABOUT **Kavera**

For 30 years we work with 3-axis CNC machines to make custom order steel, stainless steel, aluminium, coloured metals and plastic components in batches from 1 to 1000 pieces.

With the help of our partners, we can offer zinc coating for steel and both natural and coloured anodising for aluminium.

Our customers are mostly long term, from wide range of industries in Lithuania, Sweden, Norway, Germany and other countries.
