To:

The CEOs, Executives, and Key Stakeholders

Dear Sir/Madam,

RE: INVITATION TO SUPPORT AND PARTICIPATE IN THE SUSTAINABILITY & GREEN PROJECT MANAGEMENT (GPM-B™) CERTIFICATION TRAINING

On behalf of Treescape Planet Organization, I am pleased to invite you, your executive leadership, and your teams to participate in our upcoming **Sustainability & Green Project Management (GPM-b™) Certification**. This certification program is a key initiative designed to build capacity in sustainable project management and enhance corporate social responsibility (CSR) engagement across diverse sectors.

Concept Note:

As global environmental challenges intensify, organizations must adapt to lead in sustainability and climate action. The GPM-b™ Certification, this program is facilitated by Treescape Planet Organization, in partnership with Vertil & Company, an Authorized Training Partner of Green Project Management Global (GPM®); it equips professionals with the knowledge and tools to manage projects through a sustainability lens. This course empowers participants to integrate environmental stewardship, social equity, and economic resilience into business operations and project delivery.

By endorsing and supporting this program, your organization or entity will not only strengthen its CSR initiatives but also enhance your competitive edge through internationally recognized sustainable project management practices aligned with global frameworks such as the United Nations Sustainable Development Goals (SDGs).

Course Overview:

Duration: 4 days

Format: In-Person & Virtual Options Available

Course Fee: \$600 USD (includes certification exam ad certificate)

Who Should Attend:

CEOs, Top Management, ESG Managers, Sustainability Specialists, Project Managers, HR, Marketing professionals, Lecturers, and other organizational leaders interested in embedding sustainability into their operations.

Key Learning Outcomes:

- ❖ Achieve internationally recognized GPM-b™ certification and be listed on the global registry of Green Project Managers.
- ❖ Gain comprehensive understanding of sustainable project management principles and the P5 Standard for sustainability performance.
- ❖ Develop skills to assess, measure, and report sustainability impacts in projects.
- ❖ Learn to integrate sustainability frameworks and CSR components into project planning and execution.
- ❖ Enhance ability to engage stakeholders and secure executive buy-in for sustainability initiatives.

Curriculum Highlights:

The course covers a comprehensive curriculum including:

- ❖ Sustainability fundamentals and the triple bottom line
- ❖ Green project lifecycle (PRiSM) and sustainability management plans
- ❖ Stakeholder engagement and sustainable procurement
- ❖ Risk and opportunity management within sustainability contexts
- ❖ Business and human rights in sustainable projects
- ❖ Communicating ESG and sustainability progress and reporting
- ❖ Preparation for the GPM-b™ certification exam

A detailed curriculum is attached for your reference.

Request for Support

We kindly seek your support in:

- ❖ Encouraging participation of your leadership and project teams in the training.
- ❖ Facilitating financial sponsorship or institutional support for the course fee.
- ❖ Promoting sustainable practices and integrating CSR into your organization's core strategy.

Your commitment will accelerate the adoption of sustainability best practices, contributing positively to climate resilience and community development.

We look forward to your positive response and participation. Please do not hesitate to contact us for any additional information or clarifications.

Thank you for your continued commitment to sustainability and green project management.

Yours faithfully,

Bonnita Tukwatanise
