## Technological investment advisory

Acquiring the right industrial machinery demands technical expertise, a deep understanding of the production process, mastery of regulatory and compliance frameworks, and careful consideration of various factors that ensure compatibility, safety, sustainability, and proper maintenance. Our service is designed to support our clients at every stage of their technological investment journey.

**User Requirements:** We develop specific criteria that the machinery must meet to fully address our clients' operational needs.

**Technical Specifications:** We conduct a detailed analysis of the technical characteristics required for our clients' projects.

**Proposal Evaluation:** We assess supplier proposals to ensure they conform to our clients' outlined requirements.

**Functional Testing:** We perform comprehensive testing procedures to confirm that the machinery operates correctly and complies with technical standards.

**Installation and Commissioning:** We assist with the installation and initial configuration of the machinery in collaboration with the manufacturer.

The extensive experience of our professionals in the biopharmaceutical industry, bolstered by numerous successful projects, empowers our clients to make informed decisions, safeguard their investments, and fully harness the potential of technology within their production processes.
