

Exceed expectations with **Nomentia**.

Clarity

Our number one goal is to provide you with clarity in both your daily and strategic operations. To achieve clarity, we offer more than just a TMS: our specialists help you get the most out of your tools.

Knowledge

You can use our long-standing expertise in treasury to leave a positive mark on your team and organization.

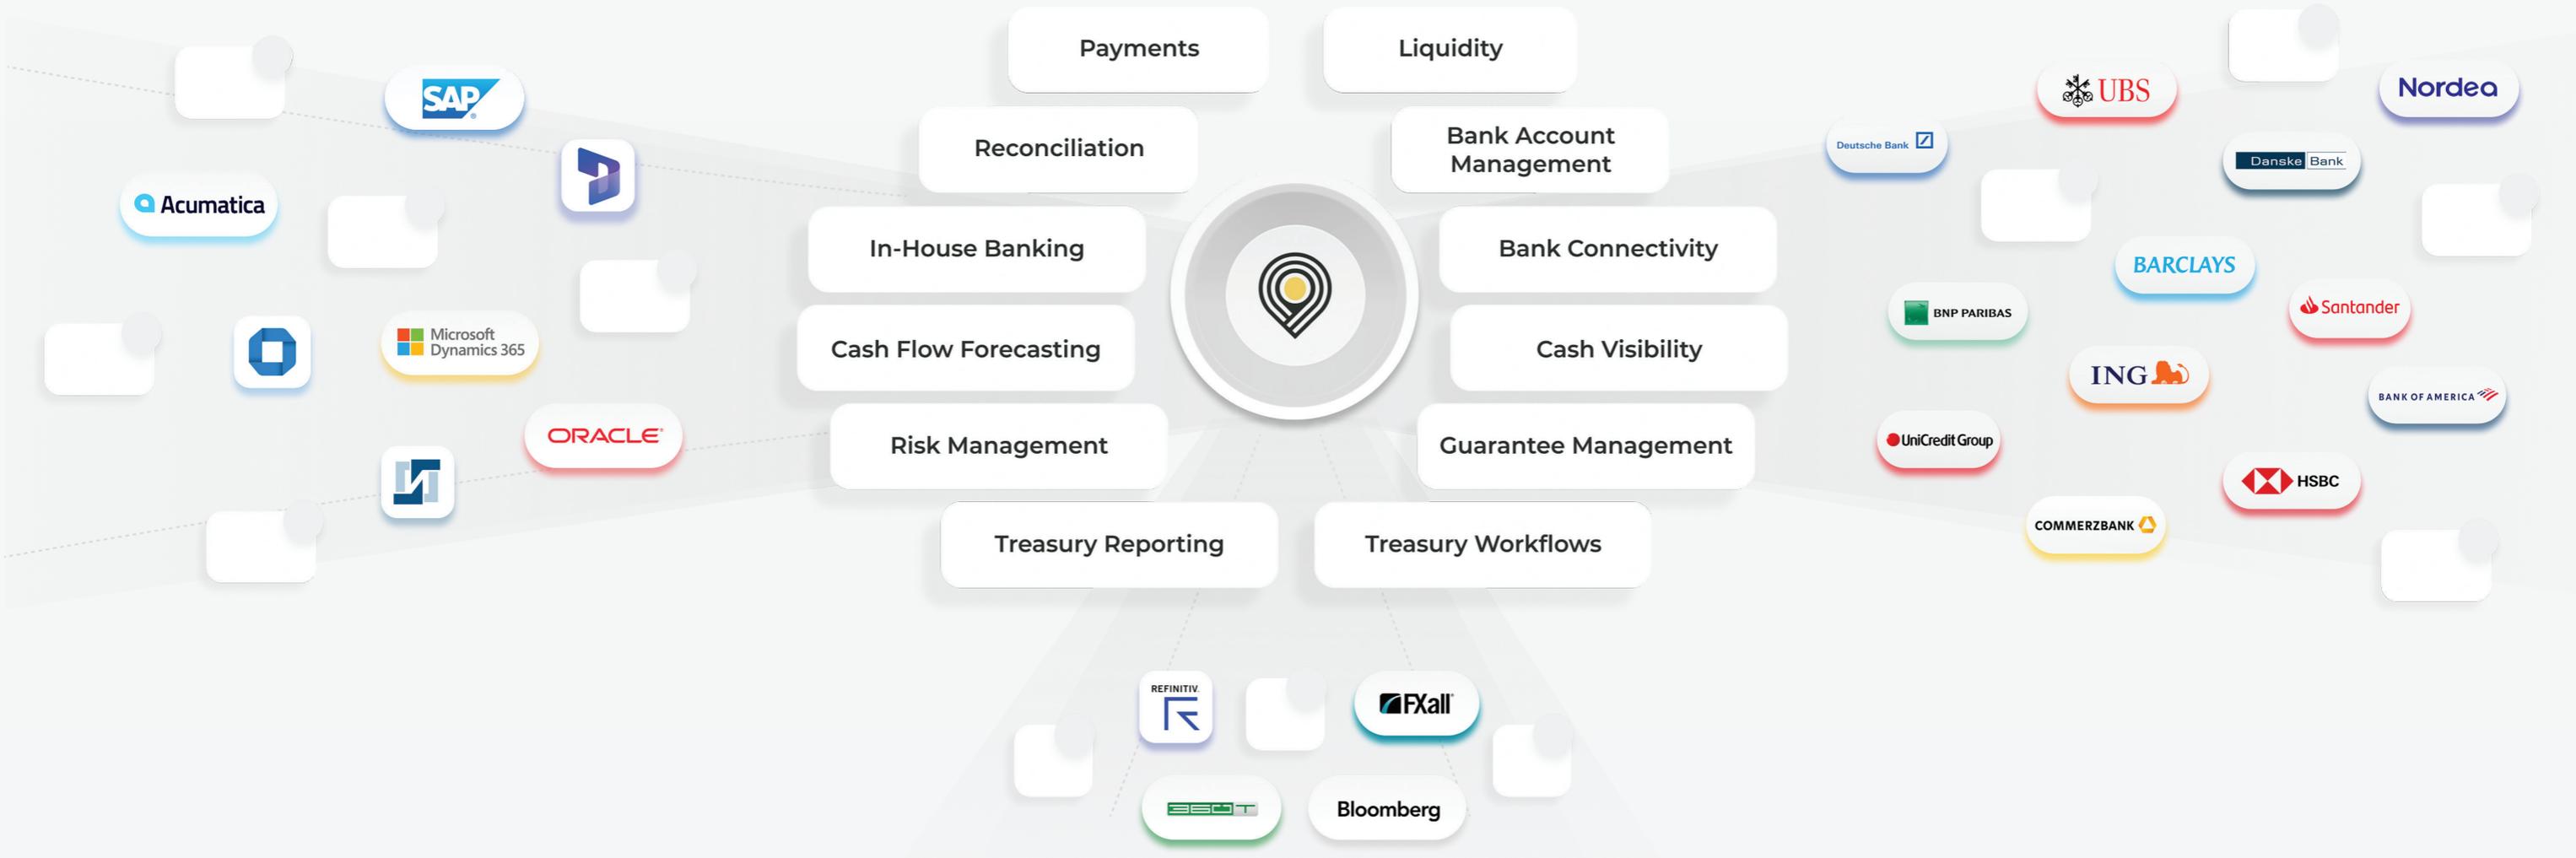

Support

When you need help the most, we are there – whether it's advising on your roadmap, implementing a new solution, or supporting you with daily challenges.

One system to elevate your treasury

Whether you need an entire TMS or only a few solutions, we will connect the solutions with all your banks, systems, and 3rd party data providers.

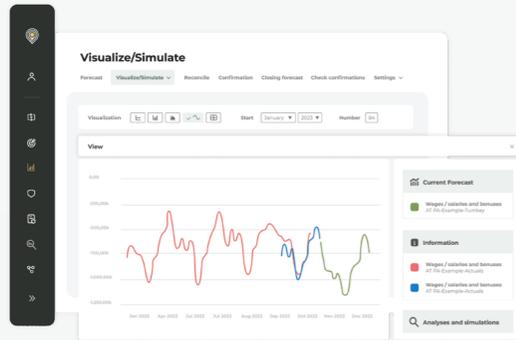

Empowering treasury & finance

We have a long-standing expertise in helping with managing cash, treasury, and payments.

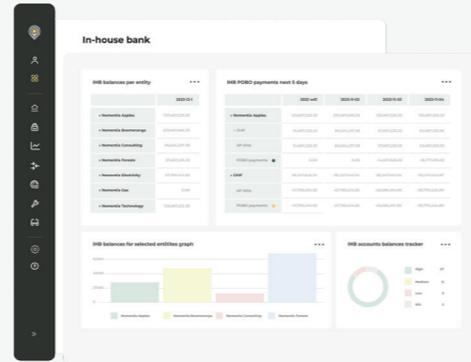

Meet the team

When you need more than a TMS – we'll be there for you.

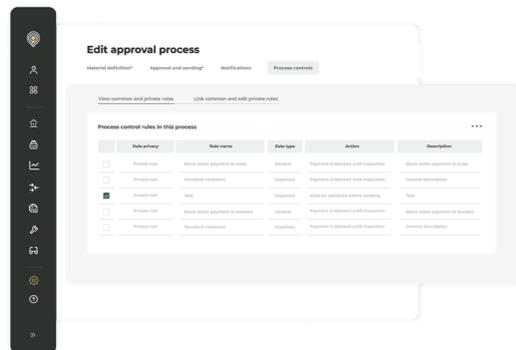

Treasury management

Streamline your day-to-day treasury operations related to risk, reporting bank fee analyses, loans, guarantees, and bank account management.

Cash management

Get more clarity and efficiency for processes related to liquidity management, gaining cash visibility, building bank connections, and in-house banking.

Payments

Build a payments hub to manage company-wide payments. Enhance safety and accuracy with the help of payment reconciliation, automated process controls, and built-in sanctions screening.

When implementing a TMS, you deserve treasury expertise, professionalism, and customer focus. Our professional services teams combine these characteristics to help you get the most out of your system.

Martin Fikar | VP of Professional Services

I've been working with our solutions for over a decade, and now I support our partners in learning the ins and outs of what we do so they can help your team implement new processes.

Tapani Oksala | Head of Partners

Treasury consultant turned sales executive, working with you is twice the fun: I thrive on jointly figuring out the smartest way to run your treasury, agreeing on a fair deal, addressing any hick-ups along the way, and it's rewarding to see you succeed.

Alexander Fleischmann | Market Development Executive

With a background in cash & treasury management, including roles at a bank and a treasury solution vendor, I understand the daily challenges treasury professionals face. This equips me to provide effective consultancy tailored to their needs.

Maarit Suomala | Consulting Manager

Meet our customers

Over 1400 happy clients use Nomentia.

// We have seen that liquidity management is one of Nomentia's core strengths and as cash forecasting and visibility are strategically important for our operations, we've decided to work with Nomentia.

Caverion
Viljami Vainikka
 Head of Group Treasury
 Caverion Group

Geir Bakken
 Head of Cash Management
 Saferoad

"Because of the solution's simplicity and ease of use, I recommend Nomentia to companies currently struggling with spreadsheet-based cash flow forecasting."

Ruth Leopold
 Head of Treasury,
 VDM Metals

"We are outsourcing bank connectivity and format conversion to Nomentia, which is a big relief for our team. We are looking forward to this journey to transform our daily cash management."

Sirkku Markula
 SVP, Corporate Treasurer,
 Kone

"We needed a global tool that could be used in all our locations to manage all payments. The goal was to create a harmonized way of working."

Uwe Drahtschmidt
 Group Treasurer,
 ClimatePartner

"The project management and commitment of Nomentia's employees is the best I have ever experienced."
