

Geonet Internet Ltd

Apps, web platforms, geolocation, AI and digital marketing for culture, heritage, tourism and education. As technology partner in EU consortia, we design, build, pilot and promote the tools, and keep them running after the project ends.

What we do *in a consortium*

Apps, platforms & websites

We lead the technology work package: mobile apps, web platforms and websites, from design to hosting.

Responsible AI & data

AI assistants with human oversight; open APIs and EU data-space connections.

Pilot data & evaluation

Experience-sampling apps, sensor sync and dashboards, comparable across sites.

Geolocation & mapping

Location-based apps, participatory mapping, heritage trails, geolocated storytelling.

Compliance built in

GDPR by design, WCAG accessibility, 18+ languages.

Digital marketing & SEO

Technical SEO, short-form social video and campaigns; market pilots and business models.

Apps *delivered*

Going Solo: Travel Friends, a social app for solo travellers on iOS and Android.

Orbis, a geolocated mapping app where cultural communities put themselves on the map.

Clients include Gol, Easy Taxi, Fluminense, Prefeitura de Macaé, Ortobom, Medvelox, Friends Around, ICTBid, Clicklabs and Tech Samurai.

Recent *EU proposals*

- Horizon Europe CL2 · HERITAGE-03 · Submitted Sept 2026
