

# Clean Future Experts

Service for the entire  
lifecycle of projects or  
expertise for individual tasks

# Services & Sectors

Design ⚡ Management ⚡ Supervision ⚡ Consulting

We are a highly experienced team of clean energy experts dedicated to providing specialized services for project developers and asset owners. Our core expertise lies in **high-voltage grid connections**. We operate independently of contractors and equipment suppliers, ensuring our operations remain impartial and customer-focused.

Wind Energy

Grid Connection

Data Centers

Lines & cables 110-400 kV

BESS

Energy intensive industry

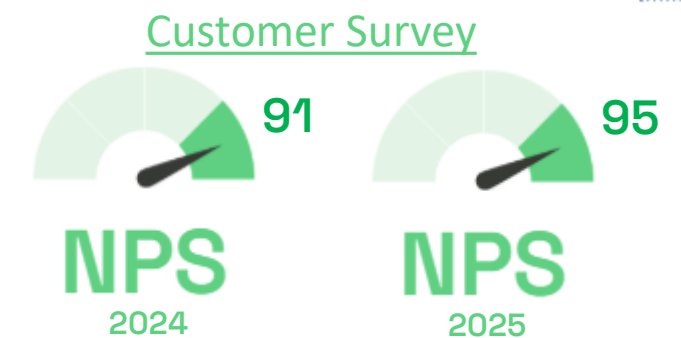

Substations

Solar Energy

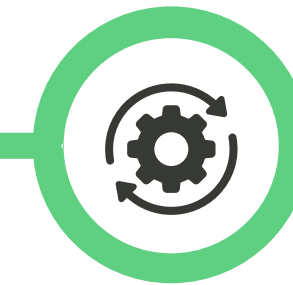

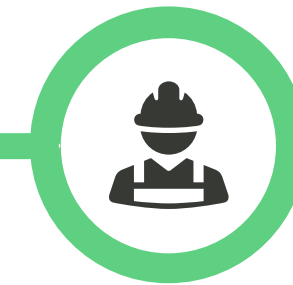

luotettava  
kumppani

# Services

Services for the entire project lifecycle or expertise for specific tasks.

## PROJECT DEVELOPMENT

- Needs and project feasibility studies
- Environmental assessments
- EIA processes
- Land use agreements
- Site permits
- Legal services
- 3D visualization
- Grid negotiations

## TECHNICAL DESIGN

- Preliminary and general design:
  - Grid connection
  - Substations
- BESS (Battery Energy Storage Systems)
- Transmission lines
- Internal networks
- Solar
- Electrical engineering
- Infrastructure design
- Structural design
- BIM modeling

## PREPARATION

- Building permit processes
- Project documentation
- Procurement and tendering
- Bid evaluation
- Review of execution plans
- FAT (Factory Acceptance Test) audits

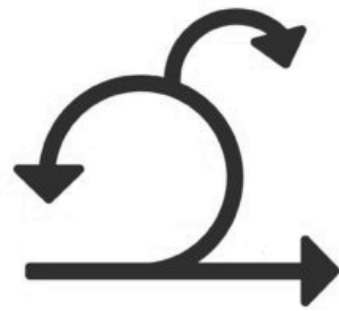

## IMPLEMENTATION

- Grid Manager
- Project management
- Owner's engineer
- Site supervision:
  - Construction works
  - Electrical works
  - Earthworks
  - HSEQ
- Safety coordinator
- Remote management and supervision

## OPERATION & MAINTENANCE

- Commissioning inspections
- Warranty period inspections
- Maintenance plans and inspections
- Responsible electrical manager (S1)
- Remote inspections

# Our way of working

## Flexible and customer-oriented

We don't offer one-size-fits-all solutions - we listen, understand, and tailor our approach to what truly matters to our customer.

## With an experienced team

Our capabilities are built on deep domain knowledge and hands-on experience - not just theoretical understanding, but proven performance in real-world applications.

## Efficiently and intelligently

By leveraging self-organizing teams, advanced expertise, and cutting-edge tools, we consistently deliver optimal results cost-effectively.
