

University of Cádiz (UCA) - Resource Guide

An overview of institutional infrastructure, scientific centers, and student assets.

1. Library & Informational Services

- **Multi-Campus Network:** Physical libraries operating across all four provincial campus hubs.
- **Digital Repository:** 24/7 access to international academic databases, journals, and electronic textbooks.
- **Study Spaces:** Specialized group work environments and quiet zones equipped with modern computing stations.

2. Specialized Scientific Resources

- **CEI-MAR Headquarters:** The international hub for marine and oceanographic breakthroughs.
- **Oceanographic Vessel:** UCA operates its own scientific marine vessel for practical offshore research.
- **Advanced Testing Labs:** State-of-the-art facilities for mechanical, aerospace, and chemical analysis.

3. Resource Allocation Matrix

Campus Location	Primary Resource & Focus
Cádiz Campus	Humanities labs, Health simulators, Main historic library archives
Puerto Real Campus	CEI-MAR center, Engineering workshops, Marine science research vessels
Jerez Campus	Social science legal clinics, Mock courtrooms, Specialized business libraries
Algeciras Campus	Heavy industrial labs, Civil engineering machinery, Nursing simulation bays
