Skills Checker[©]

**How to measure the skills necessary to work in the
job market today?**

EDULAI SKILLS CHECKER

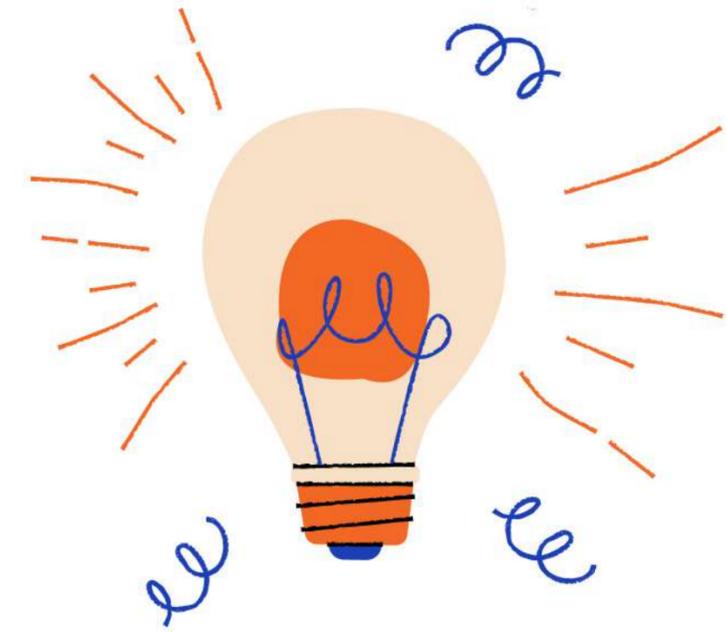

Edulai Skills Checker© is a unique, patented software designed to measure both traditional soft skills and the skills required to work with AI, as demanded by today's job market.

The Skills Checker provides real-time assessment of the competencies of candidates, young adults in training, and employed workers.

PROBLEM

How can new skills be effectively measured in a constantly evolving market?

SOLUTION

Through a new patented method that places users in novel work-related situations to be solved.

FEATURES

Skills Checker is not just a technology, but primarily a **scientifically tested method** derived from the social sciences and transferred into a platform. It assesses a range of **transversal digital and soft skills** through more than 10 professional cases to be solved. **It is not a psychological test or a group game.**

SKILLS TEST AVAILABLE

- 1) **Traditional Soft Skills** (7 skills - 10 cases)
- 2) **Soft Skills for sales** (9 Skills- 14 cases)
- 3) **Soft Skills for working with AI** (10 skills - 18 cases)
- 4) **Soft Digital Skills for remote and hybrid work** (10 skills- 12 cases)

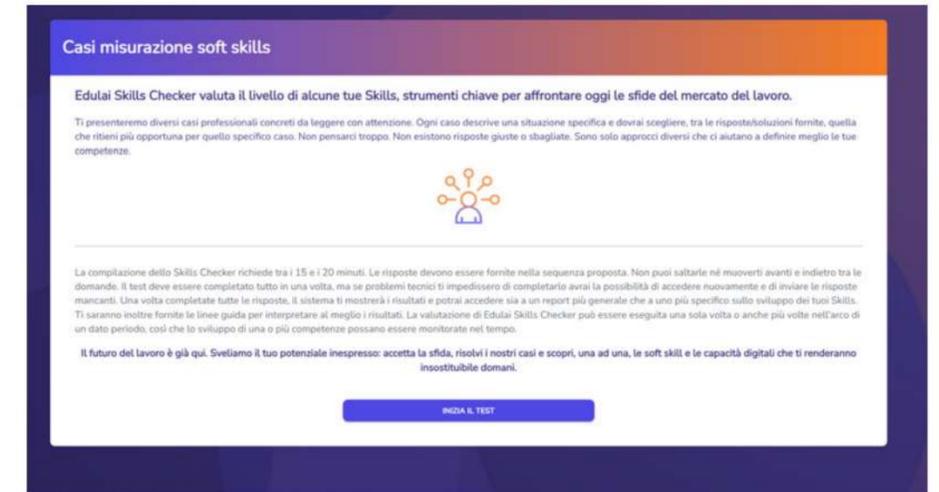

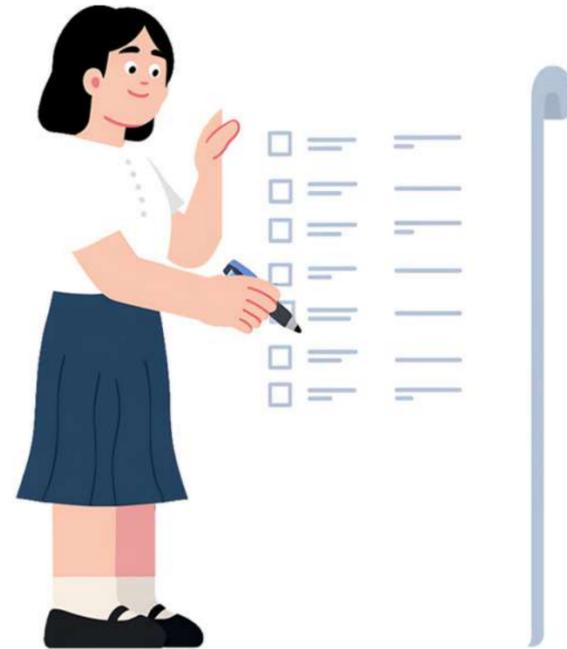

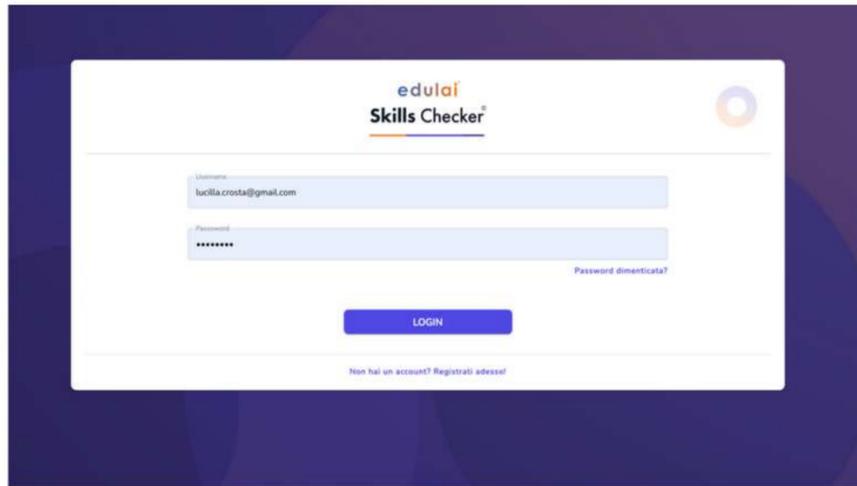

EDULAI COACH AI AND MICRO-LEARNING

Users have access to **EduLai Coach AI**, which acts as a virtual tutor and, following the skills assessment, helps maintain high engagement by **providing feedback, micro-learning recommendations**, and suggestions to improve skills (videos, audio content, podcasts, readings, articles). EduLai Coach AI draws these resources from **our dedicated Intelligent Library**.

3 SIMPLE STEPS TO USE EDULAI

1 ACCESS TO EDULAI

Choose your password to keep your data secure and access your Edulai account.

2 TELL US A BIT ABOUT YOU

Answer a few initial questions so we can get to know you better.

3 SOLVE THE TEST CASES

Solve the test cases to accurately measure your skills.

ADVANTAGES

If you truly want to understand the skills needed to work today, or if you want to plan your training path, all you have to do is **solve the professional cases in Skills Checker and, in just 15–20 minutes**, it will do the rest. Edulai measures skills through concrete cases to be solved and has already been used **by over 2,000 users**, achieving high levels of satisfaction. Edulai can release **a Digital Badge** for your best performing skill!

EDULAI EXCELLENCE PLATFORM

EduLai has received the “**Seal of Excellence**” from the European Commission for its Skills project.

EduLai was selected by Google to carry out **a pilot project** to enhance its platform with **Generative AI**.
