

Who we are

A European consortium of cancer charities joining forces to transform patients' needs into clinical research priorities and improve cancer care and outcomes across Europe.

What we are working on

Building a European funding program of international, investigator-initiated, patient-driven pragmatic clinical trials addressing rare and hard-to-treat cancers, at all ages.

What's the one thing we need next

A sustainable European funding and policy framework that empowers cancer charities to drive practice-changing clinical research for patients across Europe.

**5 years Mission Cancer:
Stronger Through Connection**
