International Projects

Strengthening Sustainable and Digital Trade Routes

In 2025, TIA implemented an agreement with the German development cooperation agency (GIZ) to carry out the project “Strengthening Sustainable and Digitalized Trade Routes and Logistics Solutions between the EU Eastern Partnership Countries and the European Union” in Moldova, Armenia, Georgia, and Ukraine.

During 2025, TIA conducted 9 training missions in Moldova, Georgia, Armenia, and Ukraine, and organized twelve online seminars for project participants. The activities focused on the digitalization and decarbonization of the transport and logistics sector, and financing opportunities in the Eastern Partnership countries.

International Projects

eFTI4EU, eFTI4ALL, eFTI4LIVE

CEF (Connecting Europe Facility)

According to the eFTI Regulation, the competent authorities of EU Member States will be required to accept electronically submitted information from mid-2027 (CMR, others). Those projects are aimed at preparing for the implementation of the eFTI Regulation at the national level. Also, to integrate private-sector data collection, processing, and exchange platforms into the testing environment and to certify the eFTI platforms, the development of an eFTI ecosystem governance model and, preparation for the actual go-live of the eFTI system.

TIA is participating in 3 projects by contributing to the promotion and dissemination of the eFTI Regulation requirements, as well as by testing the developed eFTI gateways. In addition, TIA activities aimed at strengthening stakeholder engagement and capacity building
