SIMPLIFY YOUR LAUNCH PROCESS AND SAVE UP YOUR MONEY

Launching your satellites should be seamless, efficient and stress-free. Through our partnership with Apogeo Space, our official and trusted facility provider, we offer you the option to integrate your satellites in Brescia (Italy), just an hour from Milan (100 km).

What's included?

↘ Save time and costs

Avoid the complexities of international shipping, export licensing, insurance and excessive bureaucracy

↘ State-of-the-art facilities

Fully equipped to meet the highest standards in payload integration.

All necessary cleanroom gear (lab coats, masks, gloves, and beard covers) will be provided to ensure full compliance with cleanliness standards

↘ Faster integration

Reduce waiting times and get your satellite ready for launch sooner

↘ Simplified logistics

No need to send personnel on long, costly trips

↘ Risk reduction

Minimize handling risks associated with long-distance transport

[Additional costs include the handling of shipping from Italy to our spaceport, which is managed by our partner, Apogeo Space]

PACK YOUR BAGS, APOGEO SPACE WILL HANDLE THE REST
