Healthcare Experience

ENEHUB integrates naturally into offices, malls, campuses, community centres and wellness spaces, providing users with a one-stop healthcare experience.

Explore Your Health Status

Through medical-grade health screening devices and a virtual avatar interface, users can better understand their physical and mental wellness status.

Recognise Psychological Status

Through psychological assessment and analytical technology, users can identify whether professional mental wellness support may be needed.

Relax and Recharge

Intelligent recommendations for relaxation modes and stress-relief mini games help users recharge and quickly regain their everyday balance.

Auto-Dimming Glass

3D Immersive Experience

Up to 50 dB Noise Reduction

Self-Service Health Check

Thermometer

Blood Pressure Monitor

Pulse Oximeter

ECG

BMI Check
(Calculated through weight and height)
