

LEFTOVERS

..... A CIRKLE CREATOR

Evidence of
environmental
diligence

Leftover materials from the
furniture industry are given
new life

Prevent
combustion

Sell products
back to those
who generate
the leftover
materials

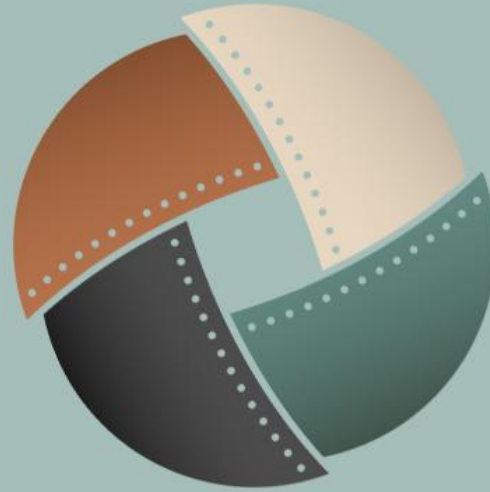

Simplify the process for
the furniture industry,
which currently do not
have sustainable
systems for getting rid
of leftover materials

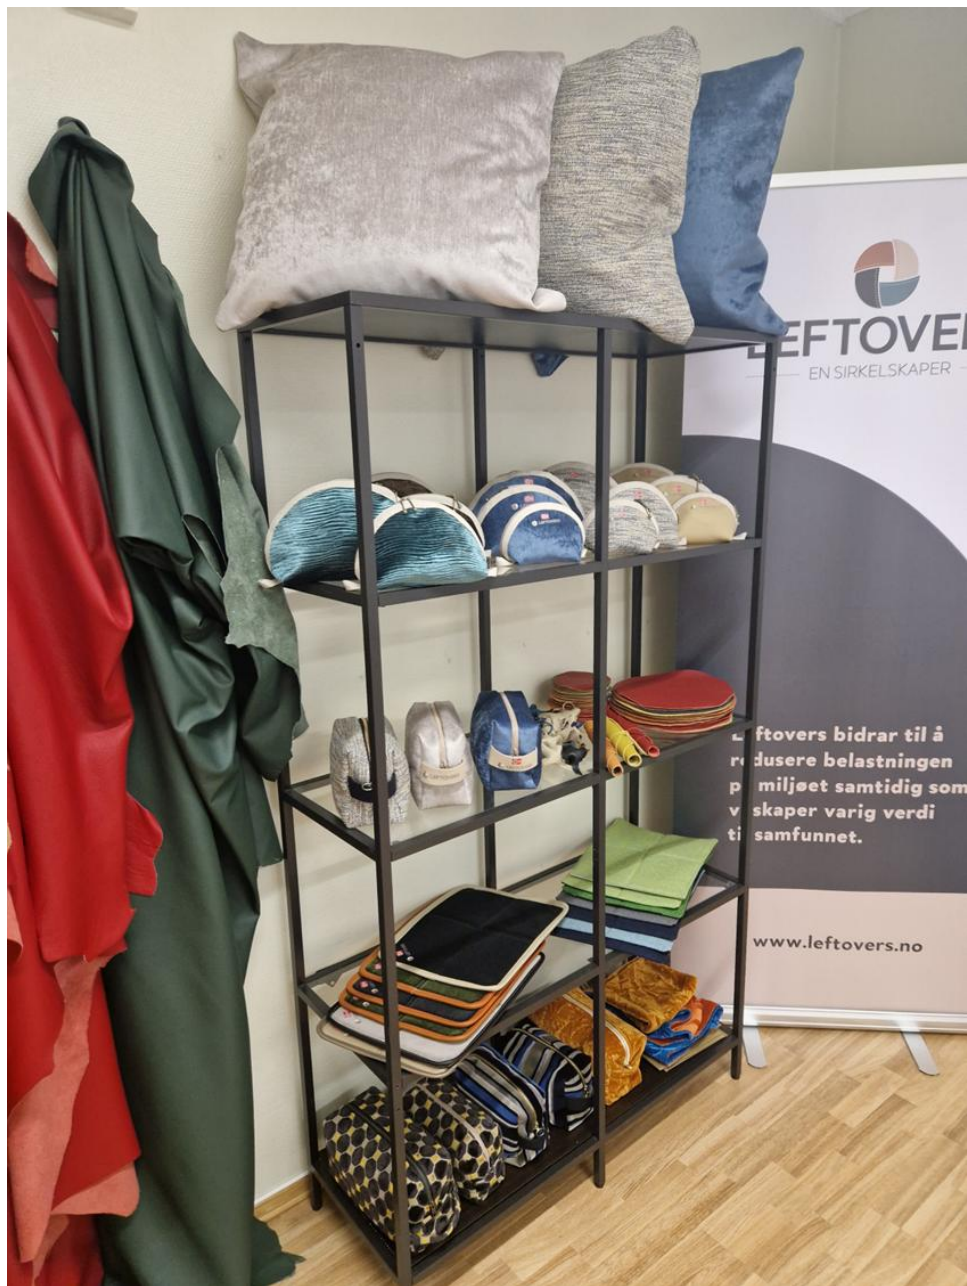

Eco-friendly options

Reduce environmental
footprint by making new
products from leftover
material

Social
entrepreneurship

Produce products in established
workshops and create adapted
workplaces

EKORNES®

BRUNSTAD

Sustainability and social
entrepreneurship in practice

From residue to resource
