

MAXIMIZE YOUR SALES WITH ACCURATE INVENTORY PREDICTIONS!

Skupredict fuels your Ecommerce growth with AI-driven blockchain-powered forecasts, using machine learning algorithms!

PROBLEM

Experiencing
out of stock
losses

Dealing with
non-performing
SKUs inventory

Failing to
achieve revenue
targets

SOLUTION

Our product Skupredict uses AI to accurately forecast ecommerce or retail demands taking into account factors such as seasonality, pricing, promotions, weather, and events. It helps streamline operations and optimize inventory predictions, reducing stock-outs and wastage while increasing revenue.
