30 years of business experience in IT, Telco, energy and rail infrastructure,
as well as media and PR

WHO WE ARE

Future Leader in Ultra-Fast Charging (UFC) EV Infrastructure in EMEA

Organisation: BeReady Group/BeReady2GO

- Over 30 years of experience in IT, telecom, energy, and transport infrastructure
- Fast-growing HPC/UFC operator in Poland
- Network of ultra-fast charging hubs (200 kW–3.6 MW)
- Backed by BeReady Group

MARKET AND GROWTH POTENTIAL

Market Outlook:

- Poland expected to reach approx. 2.5 million BEVs within 10 years
- At least 100,000 charging points required

BeReady2GO Position:

- 100 secured locations in design or grid-connection phase
- 1,000 additional locations in permitting pipeline
- Target: 25–35% market share by 2030–2035

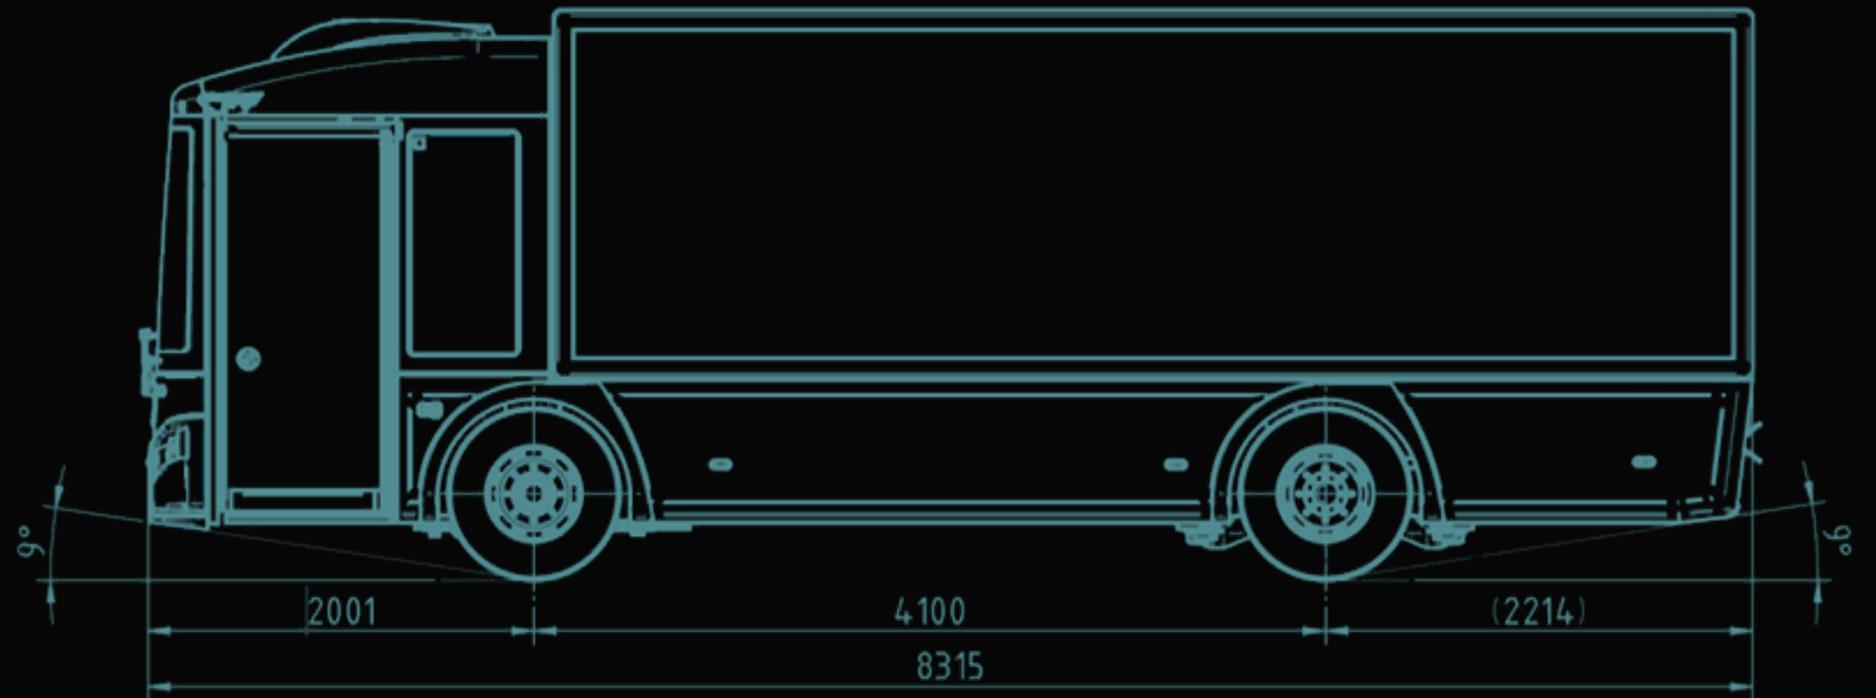

CAPABILITIES AND BUSINESS SCOPE

Scope:

- Production of eVANs, eBUSes, and eTRUCKs
- Civil and military applications
- Support for Poland, Ukraine, and EU markets

Capabilities:

- Operator of HPC/UFC stations
- End-to-end infrastructure delivery
- Full in-house competences

VEHICLE PROJECTS

Projects:

- Electric garbage trucks
- Fire and rescue vehicles
- Electric vans, trucks, and public transport vehicles

Key features:

- Zero-emission
- Ergonomic and user-focused
- Environmentally friendly

OPPORTUNITIES AND BENEFITS

Opportunities:

- Production of multiple vehicle types and bodies
- Short production series
- Military applications
- Charging time approx. 45 minutes (up to 800 A)

Benefits:

- Zero-emission transport
- EU co-financing opportunities
- ESG compliance
- Lower operating costs
- Access to city centres
- Integration with the BeReady2GO HPC/UFC network

PARTNERS AND COOPERATION

Current partners:

- Łukasiewicz – Institute of Aviation
- Łukasiewicz – PIAP
- Łukasiewicz – PIMOT
- PwC

Partners we are looking for:

- Autonomous vehicle developers
- AI in automotive
- Battery technology providers
- Parts suppliers
- Technology and financial partners

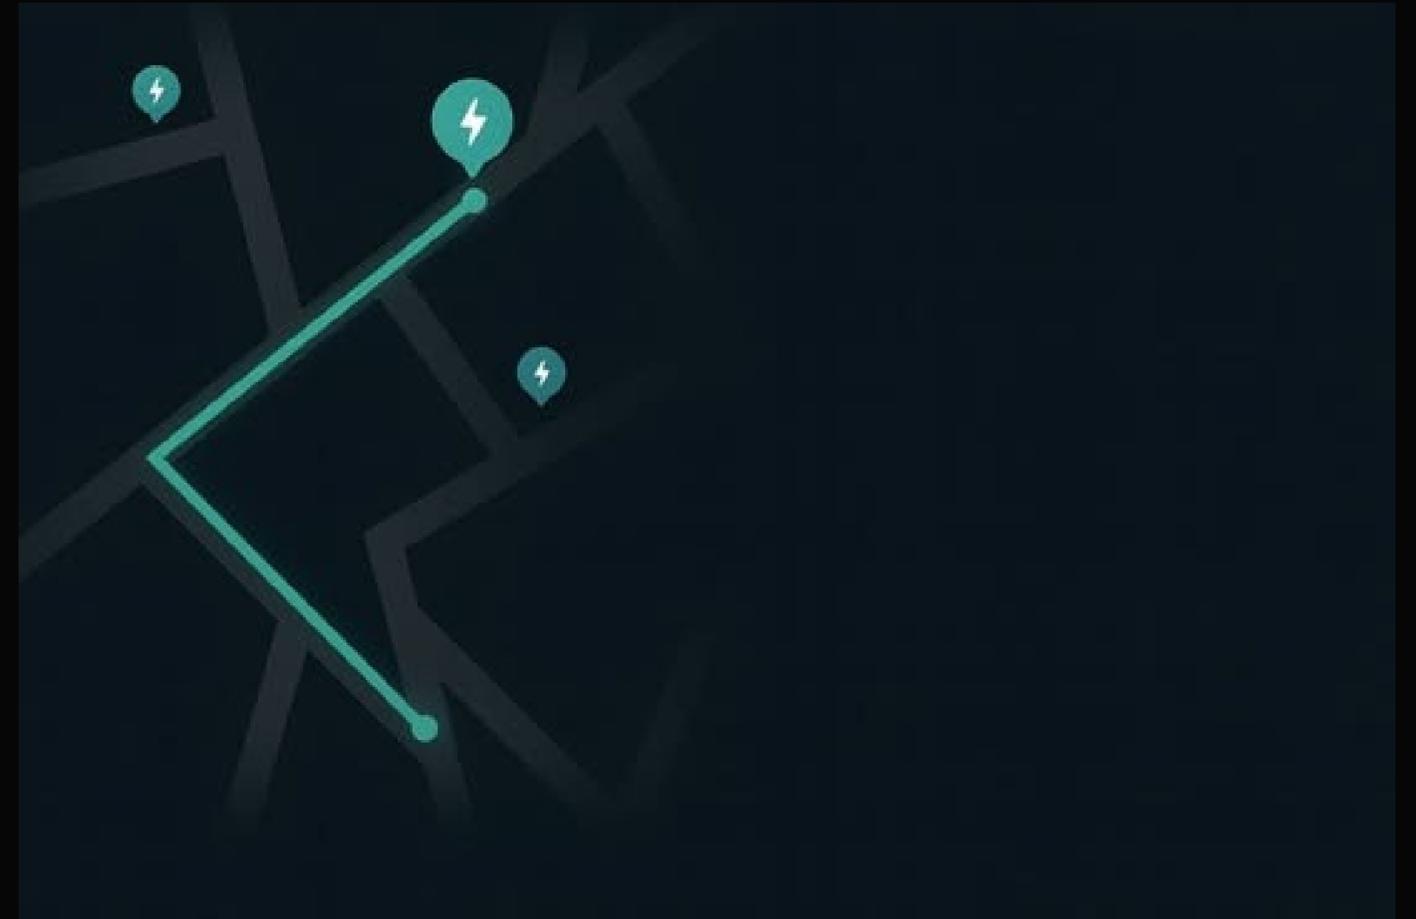

TARGET GROUPS AND CONTACT

Target groups:

- Military decision-makers
- Fleet managers
- Business owners
- City authorities

What we offer:

- eTRUCK production
- Mobile energy storage
- HPC/UFC infrastructure deployment
- Fleet electrification
- ESG-driven solutions
