WELCOME TO THE CYCLESUMMIT 2026

In 2026 CycleSummit sets sail for the Netherlands — the country that gave the world modern cycling culture and where the bicycle is not a leisure choice but a way of life. This October, we are proud to bring CycleSummit to Groningen, together with our host, a city that has earned its reputation as the cycling capital of the world.

In Groningen, roughly half of all daily trips are made by bike — a modal share unmatched by any other city on the planet, and a living blueprint for what cycling-first infrastructure can achieve. On our Sunday tours, you will experience first-hand how deeply the bicycle is woven into the rhythm of Dutch daily life, from the historic city centre to the surrounding province.

We are excited to welcome you to four inspiring days in this pioneering destination — filled with opportunities for business, exchange, and fresh ideas.

With best wishes for a successful CycleSummit 2026,

Heiko, Ann-Cathrin, Jürgen & Heike

WELCOME TO GRONINGEN

A very warm welcome to Groningen and the Northern Netherlands!

We are delighted to welcome the international cycling travel community to our region for CycleSummit 2026. There could hardly be a more fitting place to meet: here, cycling is not something created especially for visitors; it is simply part of everyday life.

Groningen is known as a cycling city, but beyond the city limits there is much more to discover. Quiet cycle paths lead through wide-open landscapes, alongside waterways and across dykes, through forests and historic villages and towards the Wadden Sea, a UNESCO World Heritage Site. The landscape is diverse, the horizons are wide and there is always room to explore.

The three CycleSummit cycling tours offer participants the opportunity to experience this diversity first-hand. Each route reveals another side of Groningen and shows how quickly the energy of the city gives way to nature, heritage, water and wide-open countryside.

CycleSummit is, of course, about more than cycling. It brings together cycling professionals from around the world to exchange knowledge, discover new opportunities and build connections. We are proud to provide the setting for these conversations and to share our province with you.

We hope Groningen inspires you, through its landscapes and cycling culture, but also through the people you meet, the ideas you exchange and the connections you make along the way.

Welcome to Groningen. There's Nothing Quite Like Groningen.

CYCLING THE NORTH OF THE NETHERLANDS

The Northern Netherlands is a place where cycling comes naturally. In the Netherlands, the bicycle is part of everyday life and culture. With around 35,000 kilometres of dedicated cycle tracks nationwide and almost 24 million bicycles for fewer than 18 million inhabitants, cycling is safe, accessible and deeply rooted in Dutch life. At the heart of this cycling culture lies Groningen, where excellent infrastructure and remarkably varied landscapes create many opportunities for cycling tourism.

Cycling Infrastructure and Opportunities

Dedicated cycle paths, bike bridges and the numbered junction network give cyclists the freedom to design their own routes, from day trips to multi-day tours. Bike rental is widely available, while cycling holidays with hotel-to-hotel luggage transfer are also available. Groningen's compact size and good public transport connections make it easy to combine cycling with train travel, creating flexible options for leisure travellers, families and long-distance cyclists.

Variety of Routes and Experiences

Leave the vibrant city behind and the landscape quickly changes. Ancient forests and winding stream valleys give way to wide-open grain fields, wetlands and historic waterways. Routes pass centuries-old churches, picturesque villages and monumental farmsteads, or follow the dykes towards the Wadden Sea, a UNESCO World Heritage Site, and the Dollard estuary.

Several long-distance routes offer further possibilities. The LF Coastal Route follows the Dutch coastline, the International Dollard Route explores the Dutch-German border region, and the Atlantikwall Route combines coastal scenery with stories from the Second World War. Pieterburen marks the start of the famous Pieterpad walking route and its cycling companion, the Pieterfietspad. Together, these experiences provide opportunities for cultural, nature-focused, family and soft-adventure cycling products.

Year-Round Potential

The main cycling season runs from spring through late autumn, with each season revealing another side of Groningen. Beyond the core cycling months, Groningen city continues to attract visitors with winter events such as Winterstad and WinterWelVaart. This combination of a long outdoor season and lively city programme strengthens Groningen's potential as a year-round destination.

Experience Groningen First-Hand

The four CycleSummit cycling tours showcase the diversity of Groningen, taking participants through different parts of the province, from coast to countryside. Each area has its own landscapes, heritage and character, while together they form a coherent and distinctive cycling destination in the north of the Netherlands. The tours offer a first-hand experience of what makes Groningen so attractive for cycling: excellent infrastructure, varied landscapes and plenty of opportunities to explore.

There's Nothing Quite Like Groningen. Hop on your bike and discover the north.

RIDE INTO THE WILD

Swap crowded cities and scorching summer temperatures for cool forests, open heathlands and endless horizons. In Drenthe, the Netherlands' original province, every ride brings you closer to nature. Whether you prefer peaceful cycle paths or rugged gravel trails, this is a place to slow down, breathe deeply and feel truly alive.

With around 2,100 kilometres of well-maintained cycle paths, Drenthe offers almost limitless possibilities on two wheels. Quiet lanes and dedicated paths lead through ancient forests, colourful heathlands, stream valleys and welcoming villages built around traditional greens. Along the way, prehistoric hunebeds – impressive megalithic tombs older than the pyramids – appear unexpectedly beside the trail. You can cross three distinctive National Parks, explore the landscape shaped during the last Ice Age in UNESCO Global Geopark De Hondsrug or cycle through the Colonies of Benevolence, a UNESCO World Heritage Site where an ambitious social experiment left a remarkable mark on both the landscape and its communities. Drenthe's extensive network of cycling junctions makes it easy to create a route that suits your own pace, while themed routes add an extra story to the journey. Follow in Vincent van Gogh's footsteps on three signposted cycling routes of around 50 kilometres and experience the rural scenery that inspired him in 1883. Viewing panels, murals and audio stories reveal what the artist saw and felt here. Drenthe is worth the ride.

Looking for more action?

Leave the smooth paths behind and discover Drenthe's wilder side on a gravel bike or mountain bike. Forest tracks, sandy trails, shell paths and old cobbled lanes take you deep into a varied landscape that can be surprisingly challenging. In the north, the 70-kilometre Kop van Drenthe gravel route starts in historic Veenhuizen and winds through open farmland, woodland and kilometres of gravel and loose sand. Elsewhere, technical singletracks, unexpected climbs and fast descents await in places such as Gieten-Gasselte, Grolloo and the Drents-Friese Wold. Sportive cyclists can even test their legs on the VAM mountain, with several climbing routes

and a dedicated off-road course. Yet the greatest luxury is the space around you: fewer crowds, fresh air and room to choose your own adventure. That makes Drenthe an ideal coolcation destination for active travellers. Spend the day outdoors beneath the trees, beside clear streams and across breezy heathlands, then recharge in a woodland cabin, a friendly bed and breakfast, a comfortable hotel or at a peaceful campsite. Wake to birdsong, step outside and start another ride straight from your door. Come for the cooler climate and the freedom of the outdoors; stay for the landscapes, stories and down-to-earth hospitality. Bring your touring bike, e-bike, gravel bike or mountain bike – Drenthe is ready to be explored.

A PROVINCE MADE FOR CYCLING

Where cycling, water and culture come together

Just an hour's drive from Amsterdam, Friesland offers cyclists a landscape unlike elsewhere in the Netherlands. Four national parks, three UNESCO World Heritage sites, eleven historic cities, four Wadden Sea islands and countless lakes create a region where water, nature and culture are always close at hand. Wide horizons, clean air and quiet roads make cycling one of the best ways to experience the province.

Friesland has an extensive cycling network of 3,106 kilometres of routes and 892 cycling junctions, ideal for anything from a short ride to a multi-day cycling holiday. Around 327,000 recreational cyclists explore the province each year, making some 10.8 million cycling trips of an hour or more. Electric cycling is particularly popular, with 54% using an e-bike.

A Landscape Shaped by Water

Water is never far away. Streams, canals, lakes and historic waterways criss-cross the province and tell the story of centuries of living with water. Routes lead over bridges, through polders and alongside canals, combining expansive landscapes with historic towns and villages. In a single day, cyclists can move from lakeside scenery to the open Wadden coast and small harbour towns.

Eleven Cities, Endless Stories

Friesland's famous Eleven Cities are defined not by their size, but by their history. Each has its own identity and stories, making the Eleven Cities Route a natural framework for a cycling holiday. The 11Fountains project adds a contemporary cultural layer: eleven artworks by internationally renowned artists connect the cities and offer a modern interpretation of the legendary Elfstedentocht.

From National Parks to the Wadden Sea

Friesland's landscape changes constantly. Its four National Parks showcase wetlands, forests, lakes and an island in the Wadden Sea. From Southwest Fryslân to the Noardlike Fryske Wâlden, routes suit different interests and adventure levels.

Along the northern coast lies the Wadden Sea UNESCO World Heritage Site. Here, cycling is shaped by wind, dikes, sea and immense horizons. The Wadden Islands add another dimension, with routes through dunes and coastal landscapes.

Local Flavours Along the Route

Cycling in Friesland is also a culinary journey. Local markets, roadside stalls, farm shops and restaurants showcase regional products and ingredients. Restaurants increasingly work with ingredients from their immediate surroundings, allowing food and cycling experiences to reinforce one another.

One Province, Many Cycling Experiences

For cycling tour operators, Friesland's strength lies in its diversity within a compact region. Historic cities, countryside, lakes, culture, the Wadden coast and local gastronomy can all be combined without long transfers. One route, for example, can take cyclists from the Waterpoort in Sneek through historic IJlst and past sawmill De Rat to the shores of the Sneekermeer.

Friesland offers all the ingredients for distinctive cycling holidays for recreational cyclists, e-bike travellers, culture lovers and nature enthusiasts.

Friesland is a province best experienced at cycling speed.

CYCLESUMMIT 2027 PAMPLONA, NAVARRA

WE ARE DELIGHTED TO PRESENT YOU THE HOST FOR
THE NEXT CYCLESUMMIT IN 2027

From 17 to 19 October 2027, the international cycle tourism community has a must-attend event in Pamplona.

We're not here to sell you on Europe's biggest cycle tourism destination, because it isn't. We're here to reveal one of the continent's best-kept secrets: a peaceful, authentic region that's still waiting to be explored. Navarra has taken its time to decide to tell its story. It's doing so now, and we want you to be among the first to hear it.

Navarra: The luxury of unwinding and contrast

Navarra may be small on the map, but it is infinite in its contrasts. In just 150 kilometres, your clients can go from the lush greens of the Pyrenees and the beech forests of the Selva de Irati to the striking desert landscape of the Bardenas Reales—both designated UNESCO Biosphere Reserves.

Here, tourism is all about avoiding crowds and rushing. We are committed to a model where visitors do not replace the locals, but rather coexist with them, respecting the essence of the land. An ideal destination for designing exclusive experiences that respect the environment.

Pamplona: Your perfect base of operations

Pamplona isn't just the venue for the Summit; it's the gateway to a greater adventure. It's a compact, convenient city with a historic centre that can be explored by bike in a matter of minutes.

- **Excellent transport links:** Its airport, railway station and road network connect it directly with the rest of Europe, making logistics easier for both you as an operator and for independent cyclists.

- **A vibrant culture all year round:** Beyond the famous global image of the Chupinazo at the San Fermín festival every 6 July, Pamplona is a vibrant city. Its streets are brimming with music, neighbourhood life and a warmth that captivates long after the cameras have been switched off.

A land of champions and legends

In Navarra, cycling isn't just a trend; it's part of our identity. We are the birthplace of Miguel Indurain, the legend who won five consecutive Tour de France titles. But the legacy lives on: today it thrives in the new generation with Paula Ostiz, junior world road champion and European time trial champion.

That same passion is evident in iconic races that have become international benchmarks: from the gruelling Irati Xtrem—crowning the legendary Larrau, which challenged Indurain himself back in '96—to the demanding trails of the Tierra Estella Epic in its MTB and Gravel versions.

Navarre is also home to three professional cycling teams: the men's and women's Movistar teams, Caja Rural and Kern Pharma.

Four disciplines, endless business opportunities

Navarra offers more than just one way to cycle. It offers five perfect options to diversify your product range:

A wide variety of routes for road cyclists, ranging from high-mountain passes to undulating terrain.

Road and Camino: The Camino de Santiago crosses the region via five different routes, linking up with the European EuroVelo 1 and EuroVelo 3 routes. Kilometres of history and major mountain passes.

Gravel like nothing else: The Bardenas Reales offer the most distinctive setting on the market: dirt tracks amongst lunar-like formations, free from traffic and with a unique visual appeal for gravel enthusiasts.

Pure mountain biking: Over 3,000 km of cycleable terrain and 7 MTB areas classified by difficulty level. Lush forests, mountain meadows and technical terrain await the most discerning cyclists.

Touring and Greenways: Five restored railway routes, with virtually no elevation gain. The ideal choice for families or cyclists looking to explore the region at a leisurely pace, stopping off at wineries, market gardens and rivers.

The reward: local cuisine

Exploring Navarra by bike is also a treat for the taste palate. The cycle routes wind their way through the vineyards of the Navarra Designation of Origin, in areas such as La Ribera and Tierra Estella, allowing you to include memorable wine tastings in your itinerary. And at the end of the day, a reward awaits you in Pamplona or any other town: a vibrant pintxo culture, unrivalled produce from local farms and a tradition of savouring food at a leisurely pace that invites you to stay a little longer.

The future of cycle tourism is taking shape in Pamplona. Fancy discovering it with us?

CYCLESUMMIT SPORTS 2027 MAY 1-4 IN GRAN CANARIA

AFTER THE FIRST SPORT EDITION IN THE CENTRE OF TOUR DE FLANDERS THE CYCLESUMMIT SPORTS CONTINUES IN THE CANARIAN ISLANDS

When we launched CycleSummit Sports in Oudenaarde, the goal was to create a dedicated meeting place for sports travel providers in road cycling, gravel and MTB. The premiere proved the idea right: 45 participants from 18 countries, a busy marketplace, many new partnerships – and plenty of cobblestones, Flemish hospitality and Belgian beer along the way. A big thank you to Visit Flanders and the City of Oudenaarde for making the first edition such a success.

Now the second edition is heading south. We are proud to announce that CycleSummit Sports 2027 will take place on Gran Canaria from 1 to 4 May 2027, hosted by Turismo de Gran Canaria.

Cyclists hardly need an introduction to the island. Often called a "miniature continent", Gran Canaria packs remarkable variety into a small space. From the golden dunes of Maspalomas, the roads climb through deep volcanic ravines and Canary pine forests up to Pico de las Nieves at almost 1,950 metres, with Roque Nublo on the horizon and, on a good day, a sea of clouds below. Nearly half of the island is protected, and it has been a UNESCO Biosphere Reserve since 2005. With an average annual temperature of around 24 °C and flights of just a few hours from most European cities, it is one of Europe's most reliable cycling destinations all year round.

The format stays true to the CycleSummit concept: pre- and post-tours across the island's roads, gravel tracks and trails, a joint ride for all participants, and the CycleSummit marketplace at the Congress Center as the heart of the event. Local food will play its part as well, from papas arrugadas with mojo sauce and flower cheese from Guía to coffee from Agaete, the only coffee grown in Europe, and a glass of Arehucas rum to round off the day.

Together with Michael Andersen of Pedal People, we will keep building CycleSummit Sports into the meeting point for the road, gravel and MTB travel community. Save the date now. We look forward to seeing you in Gran Canaria!

4CYCLING 'N TREK

DMC

LEISURE | FAMILY | SPORTIVE | HIKING | GROUP TOURS | SELF GUIDED

4Cycling&Trek is a local company rooted in Puglia, where our team has spent over 14 years designing cycling and trekking experiences that reveal the wild beauty, cultural heritage, and geological uniqueness of the remarkable Apulian landscape. Our guided (or self-guided) tours—led by certified nature and park guides—offer immersive encounters with forests, canyons, rural architecture, and ancient trails, supported by a high-quality fleet of bikes and e-bikes.

In partnership with AuthenticPugliaTours, the DMC that curates and operates our multi-day journeys, we bring travellers into the heart of Puglia through routes that blend iconic highlights with lesser-known villages, local artisans & producers, and genuine hospitality. Together, we deliver reliable logistics, meaningful outdoor adventures, and sustainable experiences shaped by deep knowledge and respect for the territory.

REGIONS & TOURS

Puglia, the „Heel of Italy“, is an exceptionally captivating region for active travel. Our cycling and trekking tours reveal a mosaic of coastal roads, ancient olive groves, limestone plateaus, and UNESCO sites that tell stories thousands of years old. In the north, Gargano blends forested hills with dramatic sea views; in the centre, Itria Valley charms with whitewashed towns, trulli, and gentle rolling landscapes; further south, Salento offers quiet rural roads, hidden beaches, and a vibrant Mediterranean culture.

Mugia area & Matera add a striking contrast: their canyon trails and iconic Sassi create an atmosphere where history and nature merge. Our itineraries balance iconic highlights with lesser-known villages, local artisan workshops, and authentic food traditions (cooking classes, olive oil & wine tastings, cheese-making experiences, etc.). Whether light gravel, road, or e-bike, each route is designed in-house to ensure safety, smooth logistics, and meaningful encounters with the territory and its people — making every journey a deep dive into Southern Italy's essence.

88 Parsec Ltd develops and operates travel projects that bring together destinations, hospitality, adventure and new ways of exploring the world. Its portfolio includes Running on Waves and embarq.travel, two projects with different approaches to creating and connecting travel experiences.

Running on Waves is a 64-metre three-mast sailing yacht offering boutique cruises, private charters and active travel programmes in the Mediterranean. Its Bike & Sail concept combines cycling through Greece with travelling between islands aboard a sailing yacht, allowing guests to explore by bike during the day while their floating hotel moves on to the next destination.

Through its different projects, 88 Parsec creates and develops concepts for travellers while opening opportunities for cooperation with professional travel partners.

REGIONS & TOURS

Through its travel projects, 88 Parsec connects different ways of exploring the Mediterranean. Running on Waves offers boutique cruises, private charters and active travel programmes, including Bike & Sail journeys that combine cycling through Greece with travelling between islands aboard a sailing yacht.

embarq.travel expands this approach through a cruise and charter platform bringing together different yachts, destinations and itineraries. Travellers and travel partners can explore scheduled cruises or create individual charter itineraries by selecting destinations, ports, islands and activities. The platform currently features destinations across Greece, Croatia and Turkey.

Together, the two projects cover both distinctive travel experiences and the tools to find, combine and develop them, creating opportunities for individual travellers as well as professional travel partners.

REGIONS & TOURS

Cycling in Albania & the Balkans

Albania and the surrounding Balkans are one of Europe's most exciting emerging destinations for cycling tourism. The region offers an exceptional combination of dramatic mountains, pristine lakes, Mediterranean landscapes, historic towns, UNESCO heritage, traditional villages, and authentic local culture—often with very little traffic and far fewer tourists than Western European cycling destinations.

For cyclists, the Balkans offer remarkable variety within a relatively small area: from the Adriatic and Ionian coasts to high mountain passes, from the UNESCO landscapes of Lake Ohrid to the remote valleys and villages of the Albanian Alps.

At Beyond Albania Cycling Tours, we have developed three distinctive cycling experiences that showcase different sides of the region.

1. UNESCO Albania – (From UNESCO sites to valleys, mountains and exquisite cuisine, finishing towards the mesmerizing Ionian sea)
2. UNESCO Montenegro – (Unbelievable National Parks, rocky mountains and gorges that are truly remarkable)
3. Five Lakes Odyssey – Albania, North Macedonia & Kosovo - (A journey in encountering the biggest Lakes of the Balkans region)

Bcyclet is a cycling specialist based in Switzerland, the French Alps and Corsica, providing premium bike rental and dedicated logistics solutions for Tour Operators, travel agencies and cycling companies. With a large and carefully maintained fleet of road bikes, e-road bikes, gravel bikes, e-bikes and trekking bikes, we help our partners offer a reliable and seamless cycling experience to their clients.

Our service goes far beyond bike rental. Our own team and vehicles operate throughout our service areas, allowing us to maintain full control over the quality of the experience.

We understand the specific requirements of Tour Operators: reliability, flexibility, fast communication and the ability to handle groups as well as individual travellers.

Special B2B rates and dedicated conditions are available for Tour Operators, whether you need bikes occasionally or are looking for a long-term local cycling partner.

REGIONS & TOURS

Alongside our rental services, Bcyclet designs and operates its own self-guided and tailor-made cycling holidays in Switzerland, the French Alps and Corsica.

From legendary Alpine passes to quiet Swiss roads and the spectacular coastline and mountains of Corsica, our trips are designed to combine outstanding cycling, carefully selected accommodation and high-quality local services.

We specialise in self-guided trips and fully customised itineraries, for individual travellers, private groups and Tour Operators looking for a trusted local partner.

Because every trip is managed directly by Bcyclet, from the initial design to the bikes and local logistics, we can guarantee consistent quality, flexibility and complete control over the customer experience.

IRIS
Bike & Barge Cruise

A blue and white motorboat is cruising on a river, surrounded by lush green hills and vineyards. The boat is moving from left to right, leaving a white wake behind it. The hills are covered in dense green vegetation, including vineyards. The sky is clear and blue. The overall scene is a picturesque view of a river in a rural area.

The Iris organizes tours in the Netherlands, Belgium, France and Germany. Our season starts with tulip tours in the spring, where we loop the Netherlands to see the windmills, flowers and cheese farms. After this we go up and down to Bruges from Amsterdam a few times or do other loops in the Netherlands. Most of our season takes place in Germany though. We go up the Rhine to go to the Moselle, Main and Neckar rivers to do several different tours. In the down season we run the ship as a bed and breakfast in the center of Amsterdam.

LEISURE | FAMILY | SPORTIVE | HIKING | GUIDED GROUPS

„Bike in time” is offering full support for cycling experiences in the wilderness of Romania. Our aim is to put Romania as a top destination on the global map of cycling tourism.

As one of the few licensed cycling tourism agencies in Romania, we are covering all the main historical regions: Transylvania, Bucovina, Maramureş, Dobrogea (Danube Delta), and Wallachia (Bucharest area). Our standard tours can be found on our website: www.bikeintime.com, and each tour can be customized. Participants can bring their own bicycles, but we also have our own road, trekking, MTB, e-bike, and gravel bikes. We are focused on cultural/historical tours, using mainly our gravel/mix routes network. However, road cycling, MTB, and leisure tours are also in our portfolio. Apart from cycling, we are organizing hiking, SUP, and snowshoeing experiences. We are recognized as a sustainable company, becoming a Travelife Partner in 2023.

„Bike in time” is also Eco-Romania and Danube Competence Center member.

Our „Transylvanian Fortification Route” tour is eco-certified by the Romanian Eco-tourism Association as an eco-tour.

REGIONS & TOURS

Our standard tours are covering the main historical regions of Romania, combining the cultural visits with ridings in the wilderness of Romania.

- In Transylvania we have thematic tours related to nature and to history: the manors and fortifications route, as well as mineral water route. Our „Transylvania Middle Age Fortifications Route” is a eco-friendly certified tour by the Romanian Eco Tourism Association
- Moldova and Bucovina are the most religious areas, and we have our painted monasteries tour.
- Maramureş is probably the most authentic part of Romania, with a lot of traditions, as well as forests and rivers.
- The Danube Delta is one of our preferred destinations, as we are combining cycling with boating, SUP, and bird watching. The Danube route (EuroVelo 6 route) is also part of our portfolio.
- Bucharest and surroundings includes thematic routes dedicated to Bucharest, to the wine route, as well as road cycling trips.

Our trips portfolio includes 1-2 day trips, 3-5 day trips, and 6 day trips. All our trips can be customized, for any level of fitness, starting from our standard tours.

BIKENORTH ONEWAYBIKETOURS

TOUR OPERATOR

LEISURE | FAMILY | SPORTIVE | GUIDED GROUPS | SELF-GUIDED

BikeNorth and Onewaybiketours are based in the Copenhagen region and work as local partners for tour operators rather than competing with them through our own scheduled tours. With a fleet of around 700 bikes, we can support cycling programmes of different sizes and requirements. Our fleet includes touring bikes, e-bikes, gravel bikes, road bikes and carbon bikes, with e-gravel bikes joining for the 2027 season.

Bike rental, luggage transfers and flexible bike logistics are at the core of what we do, while we are gradually expanding our services into accommodation. We can support existing programmes or work with tour operators to develop new itineraries, adapting bikes, transfers and logistics to the individual trip. Our aim is simple: to be the Danish partner that makes your cycling programme work on the ground.

CYCLE TOURISM SHOW

Denmark is made for cycling: excellent bike infrastructure, mostly flat terrain with smaller rolling hills, and a landscape that changes constantly along the way. Coastlines, countryside, forests, towns and historic sites create plenty of variety even within relatively short distances. Copenhagen provides an ideal starting point for exploring Denmark by bike and for connecting Danish routes with neighbouring countries.

We can tailor-make three to ten-day round trips starting and finishing in Copenhagen, combining routes with the bikes and luggage services required for each programme. Our one-way concept creates further possibilities for international itineraries, including Copenhagen to Gothenburg or Copenhagen to Berlin, as well as the same journeys in reverse. With a large and varied fleet and flexible pick-up and drop-off logistics, tour operators can design the trip around the route instead of having to return the bikes to Copenhagen.

What began as a small idea has grown into an international family of travel professionals. In 2024, Islandhopping joined us, bringing island-hopping expertise in Croatia, Greece, and Turkey. A year later, Kootstra Rad- und Schifffreisen joined the family, strengthening our German market presence. Together with our USA office, we welcome guests from Europe and North America.

Behind every tour stands a dedicated team sharing one goal: creating memorable experiences and making guests feel at home.

In 2026, our fleet of 50 ships offers 70+ itineraries in 15 countries, welcoming over 32,000 guests worldwide.

In 2027 is our 50th anniversary: we'll invite our international booking partners to a great event in Amsterdam to experience our product, meet and celebrate.

REGIONS & TOURS

Our tours suit everyone who enjoys exploring at their own pace. Most are leisure cycling holidays on hybrid bikes or e-bikes, while selected tours cater to experienced cyclists with road, gravel, or mountain bike options.

Guests stay aboard a carefully selected fleet, ranging from comfortable river cruise ships and elegant yachts to boutique barges, traditional sailing ships, and small premium vessels. Cabins are well equipped and, in most cases, air-conditioned. Full board is included on nearly all tours, featuring breakfast, picnic lunches, and freshly prepared dinners, with selected itineraries also including excursions and cultural visits.

To match different travel styles, we offer three formats: fully guided tours with multilingual guides, self-guided tours for independent travelers, and semi-guided cycling cruises in the Netherlands, Belgium, and Germany. Every tour includes cycling maps, GPX files, free access to the Ride With GPS app, daily route briefings, and comprehensive tour information.

Cycle Breaks has been offering self-guided cycling holidays through the historic landscapes, unspoilt coast and beautiful villages of East Anglia (England) since 1991. We have been receiving clients from European partners since 1996. Our services include great accommodation and bikes, luggage transfer between hotels, carefully planned routes and a service hotline available 7 days a week. Our season runs from Easter to October. We have a range of itineraries from 4 to 10 nights, but are flexible in our approach and willing to cater for specific needs in terms of accommodation level, distance to be cycled and trip duration. See our TrustPilot reviews for confirmation of our service levels and customer satisfaction.

REGIONS & TOURS

Our English tour portfolio focuses on the very historic landscapes, unspoilt coast, timeless villages and big skies of Suffolk & Norfolk - an area traditionally known as East Anglia, just 150kms north east of London.

Suffolk is a green and nature-rich land, immortalised by the English landscape artist John Constable and made rich on the trade and wealth of medieval merchants. Our cycle tours go with the flow of gentle river valleys and follow quiet country lanes through half-timbered towns and villages with great flint churches, beautiful cottage gardens and welcoming inns. Some pass rolling farmland and impressive castles to reach forest paths or bike-ferries to cross estuaries and meet a heritage coastline that's home to sand and shingle beaches, cliffs, marshes and more.

Norfolk village-hopping itineraries combine rural landscapes with the famous Norfolk Broads (lakes) National Park, wildlife-rich North Norfolk coast or the fine historic city of Norwich.

London: Suffolk is only 80 minutes from central London by train.

Car: we can offer free parking at our base and route adaptations that cater for clients arriving in their own car.

CYCLE TOURS GLOBAL

AGGREGATOR

LEISURE | FAMILY | SPORTIVE | GROUP TOURS

Cycle Tours Global (CTG) is an online aggregator and the world's largest searchable database of cycle tours. We connect people planning a bike tour with the operators who run them, currently profiling around 8,500 tours from roughly 1,500 tour operators. Think of CTG as the Trivago of cycle touring: we don't sell tours ourselves, we help riders find and contact operators directly, with no commission on bookings.

Our mission is to show users as many options as we can. We have 3 categories of operator and promote their tours accordingly:

- Partners – who get top ranking and premium features
- Registered operators with free accounts.
- Other operators and tours.

Beyond the core listings, CTG includes a blog on cycle touring and routes, along with in-depth pages built around location, tour type and other search categories.

REGIONS & TOURS

For tour operators, CTG puts your tours in front of people who are actively searching for exactly what you offer, from trail or road riders, to leisure cyclists and e-bike travellers of any age. Registering a free profile improves your visibility over unclaimed listings and gives you a proper presence on the platform. Upgrading to partner status, on a cost-per-click basis, moves you far ahead of both groups. Staying in touch and sharing your news helps us to publicise your tours.

There are no flat fees or annual contracts. You pay for genuine attention, not promises, and every booking you make is yours in full, since we never take a commission. Our website is optimised for and ranks well in AI and search engines for the questions your future customers are already asking, sending that traffic back toward your listing.

CYCLING NAVARRA

BIKE CLUB

LEISURE | FAMILY | SPORTIVE | GROUP TOURS | SELF GUIDED

Cycling Navarra brings together a broad network of companies and professionals specialising in cycle tourism. This club acts as a single point of contact for discovering and developing cycling products in Navarra (Spain), making it easier for tourism professionals to identify reliable local partners and build complete itineraries adapted to different markets and customer profiles. Cycling Navarra is a trusted local partner for creating competitive, memorable and commercially attractive cycle tourism products throughout the year.

CYCLING THREAD

MEDIA

LEISURE | FAMILY | GROUP TOURS

Cycling Thread (www.cyclingthread.com) is an independent cycling tourism media platform focused on long-distance cycle routes and cycling destinations across Europe. Present your cycling holidays to our readers and reach cyclists looking for their next cycling adventure :-)

We cycle every route we feature, take our own professional photographs and create extensive, practical and detailed guides covering not only the route itself, but also accommodation, transport, attractions, local experiences, infrastructure and everything that contributes to the quality and comfort of a cycling holiday.

Unlike short-term social media campaigns, Cycling Thread focuses on long-lasting content. Our articles remain online, are found through search engines - and are increasingly referenced by AI models as well - and continue to inspire and support cyclists for years. This gives our partners long-term visibility and allows tour operators to become a natural part of the travel-planning process.

REGIONS & TOURS

We understand cycling tourism from the cyclist's perspective. We know how important good infrastructure, comfortable accommodation, easy logistics, reliable services and well-designed routes are when choosing a cycling holiday.

Professional photography is an important part of our work. Every journey produces a collection of high-quality destination and cycling images that can also support our partners' own communication and marketing activities.

For tour operators, Cycling Thread can be both a media partner and a long-term content partner. We can experience existing cycling holidays, present them within detailed destination guides, connect inspiring editorial content with bookable products and build lasting visibility for selected partners.

Our philosophy is simple: we believe the bicycle is one of the best ways to discover the world - and our goal is to help more people find great places, great routes and trusted partners for their next cycling holiday.

CYCLODYSSÉES

TOUR OPERATOR

LEISURE | FAMILY

Cyclodyssées was founded in Brussels in 2022 by two siblings — Joseph and Antoine — driven by a shared passion for exploring the world by bike. Our agency focuses on designing cycling itineraries entirely in-house: Cyclodyssées trips are personally scouted, tested, and refined to be as perfect as possible. Our philosophy: low-traffic roads, reasonable daily distances, and a careful balance between must-see highlights and off-the-beaten-track discoveries.

We have grown into a trusted partner for travellers seeking more than just a cycling route. We favour train-accessible destinations, and maintain direct partnerships with local hoteliers, bike suppliers, and service providers to ensure fair prices, flexibility and quality.

Travellers have access to detailed paper roadbook, a map of their tour, a navigation app, and responsive on-call support to keep the focus where it belongs: enjoying the ride.

REGIONS & TOURS

Although 95% of our tours sold across Western Europe are designed entirely in-house and operated much like a local DMC, our favourite playground remains the small yet surprising kingdom of Belgium. Far from being merely the shadow of its larger neighbours — the Netherlands, Germany, and France — Belgium has in recent years asserted itself as a destination with a strong and distinctive character.

In the north, Flanders enchants visitors with its medieval cities such as Bruges, Ghent, Ypres, Mechelen, and Leuven, where architecture, history, and a captivating urban atmosphere come together. In the south, Wallonia forms the green heart of the country: a region still little known internationally, yet one that pleasantly surprises those who venture there. Rolling pastures, fragrant forests, and stone-built villages create landscapes that leave no cyclist indifferent.

Belgium is also, by essence, a true cycling country. In Flanders, dedicated bike lanes are omnipresent, while in Wallonia, former railway lines and tow-paths have been transformed into an extensive cycling network — making it easy, safe, and endlessly rewarding to discover the region by bike.

DE UNA COLOMBIA TOURS

TOUR OPERATOR

LEISURE | FAMILY | SPORTIVE | HIKING | GROUP TOURS | SELF GUIDED

„DE UNA“ is a typical Colombian expression that is difficult to translate directly into English. It is very popular among friends and is best defined as „let's go“ or „right now“. You don't have to think about it too much, because it all sounds so good that you don't hesitate for a minute. We named our travel and tourism agency DE UNA both for the meaning of the expression, which describes our trips very well, and for the fact that we love to accept challenging requests. As a travel agency, we are in charge of satisfying the specific tourism needs of our clients, both those who choose vacation experiences and those who opt for biking or other adventurous activities.

Thanks to the professionalism, wide experience in the area and support of our team, we manage to create unique and tailor-made packages, thus ensuring the best experiences for our travelers who use our personalized services of exceptional quality.

REGIONS & TOURS

One of the most unique characteristics of Colombia is the immense variety it offers from region to region, whether it's the bustling and avant-garde cities as Bogotá and Medellín, the heavenly Caribbean beaches, the rugged nature of the Amazon, the hidden cultural gems, or the quiet colonial outposts. We have delved deep into the heart of Colombia and spent years exploring its treasures, making us best placed to share the best the country has to offer. With our custom-made itineraries and flexibility, we offer whole Colombia, from its touristic highlights, to the hidden gems, and 'off the beaten trek' options. For our biking trips, we focus a lot on the Coffee Region, which has lots of options for both MTB (or gravel) and road bike itineraries. Without the need to travel huge distances, we have access to all ecosystems, and different altitude options. For longer trips, the coffee region is easily combined with the department of Antioquia (Medellin) and Cundinamarca (Bogota), crossing the whole Andes Mountain Ranges, from east to west. Other regions offered for bike trips are north of Bogota with the departments of Boyaca and Santander, and the Caribbean Coast.

For more than two decades, we have been organizing cycling holidays in Italy and Europe, making all the arrangements and leaving cyclists with only the pleasure of discovery.

Behind every Girolibero holiday: attention to detail, the expertise of dedicated cycling holiday designers, and above all, close-knit teamwork. Every step is coordinated directly from our headquarters in Italy and our bases in France. Our fleet of touring bikes, e-bikes, tandems, and kids' equipment is available for rent and kept in top shape by our own mechanics.

Four river barges fly the Girolibero flag. In Italy: Ave Maria Italia and the brand-new Ave Maria Portegrandi, an elegant, latest-generation electric barge built to navigate the little-used waterways between Mantua, Venice, Treviso and Grado. In southern France: L'Estello and Caprice, cruising Provence and the Camargue.

These floating hotels welcome cyclists from around the world and are also available for private group charters.

REGIONS & TOURS

Bike and Barge

Italy, Mantua to Venice: easy cycling stages from the Mantua lakes to the Venetian lagoon, through the unspoiled small towns of the Po Valley.

France, Provence and Camargue: from Avignon to Aigues-Mortes, discovering Arles, Saint-Rémy-de-Provence and the Pont du Gard.

Our on-board catering is simple yet refined: local food traditions, fresh seasonal ingredients, a good range of local wines and attentive service. This is what makes Girolibero's Bike and Barge holidays unique.

Cycle independently using our app, or ride together with the group behind an English-speaking tour leader in an international crew.

Cycling

Dolomites, Lake Garda and the Adriatic: from Innsbruck or Bolzano, via Lake Garda or the Venice lagoon; our Venice-Poreč route rides straight into Croatia.

Tuscany: the classic Pisa-to-Florence route, a shorter version, or full Grand Tours through Siena, Chianti and Val d'Elsa.

Puglia: a full week or shorter loops, built around the breathtaking coastline of Salento.

Loire Valley: four itineraries, including one designed specifically for families.

Jotunheimen Travel is a local Norwegian tour operator specialising in active holidays in and around Jotunheimen National Park, Valdres and the mountain regions towards the fjords. Being based in the region gives us detailed knowledge of the routes, accommodation, local suppliers and logistics.

Cycling is one of our main product areas, with FIT holidays ranging from relaxed and family-friendly tours to more demanding journeys. Gravel cycling has also become a special focus area for us. All our FIT tours have daily departures throughout the summer season and include accommodation, meals, luggage transport and local transport. Most guests choose a regular bike or e-bike from our rental fleet.

Guests receive routes, GPX tracks, vouchers and practical travel information through our JVB Travel App, supported by our local team.

We also produce guided group programmes for international tour operators and can take care of the complete local operation. Beyond cycling, our portfolio includes hiking, cross-country skiing, Nordic backcountry skiing and snowshoeing.

REGIONS & TOURS

Our cycling region stretches from Valdres and the high mountains around Jotunheimen National Park west towards the Norwegian fjords. The area has an extensive network of quiet gravel roads through forests, open mountain landscapes and traditional summer farming areas, often with very little traffic and views towards some of Norway's highest peaks.

Throughout the region we use a network of traditional mountain lodges and hotels in our cycling packages, combining active days with comfortable accommodation, local hospitality and good food.

The Mjølkevegen is at the heart of our cycling programme. We offer everything from family-friendly and relaxed cycling holidays to longer and more demanding tours for experienced riders. Our itineraries can be offered with regular bikes, e-bikes or gravel bikes.

Gravel cycling has become a particular focus for Jotunheimen Travel, with dedicated itineraries featuring longer stages, more climbing and extensive use of the region's gravel road network. We also combine Mjølkevegen with routes such as Rallarvegen, creating journeys from the inland mountains towards the fjords.

LA BICYCLETTE VERTE

TOUR OPERATOR | INCOMING | OUTGOING | SUPPLIER

LEISURE | FAMILY | SPORTIV | GUIDED GROUPS | SELF GUIDED

Initially, La Bicyclette Verte was a bicycle rental with the ambition of discovering, by bike, the magnificent Regional Natural Park of the Marais Poitevin. The largest wetland in the West of France is full of treasures and the founders of La Bicyclette Verte strongly believed in the tourism potential of this region.

Then they fell under the spell of cycling holidays. Taking a liking to adventure, La Bicyclette Verte moved further and further away, always by bike, from its native Marais Poitevin. Spotting the routes, finding charming accomodation, browsing the tracks and paths, more and more destinations are offered: Canal du Midi, Gironde, Burgundy, Netherlands...It was immediate success! Nowadays, with the same passion as in its beginnings, La Bicyclette Verte tries to discover the ideal cycling routes, to find remarkable accomodation and to offer cycling holidays for everyone. Brittany, Lot-et-Garonne and even Spain and Portugal appear in the catalog.

REGIONS & TOURS

Located in the heart of the Marais Poitevin Regional Natural Park, within the Deux-Sèvres French department (west of France), in the small town of Arçais, La Bicyclette Verte offers cycling tours in its original destination, the Marais Poitevin. Indeed, this kingdom of greenery has many cycle paths on flat ground, allowing everyone to discover this natural park at their own pace and to marvel at its shaded landscapes. La Bicyclette Verte, because of its proximity to the ocean, also offers tours along the Atlantic coast on cycle paths such as the Vélodyssée (Eurovelo 1), from Nantes to Biarritz, the Vélo Francette from Angers to La Rochelle, but also along the Canal des 2 Mers, Loire, or the Flow Vélo. These tours are reviewed and re-experienced every year by the Bicyclette Verte team, in order to find the best accomodation and offer quality services to customers. We are a small, local company operating cycle tours, mainly for individuals but also for small groups. We offer mainly incoming tours in Alicante and Valencia (Spain). We operate easy-going tours which seem to appeal to older people. Our tours combine nature, culture and gastronomy and derive from our detailed knowledge of the area. We always use very quiet roads and cycle lanes. We offer a very personal service. We meet our clients personally before starting each tour in order to describe the tour, answer clients' questions and adjust the bikes to fit them.

REGIONS & TOURS

1. "The Best of the Valencian Region" (7 days): In this region there is a great diversity of settings, history, experiences, villages, hamlets and landscapes to be found. This route weaves together the rugged, mountainous terrain of the interior with that of the contrasting Mediterranean coastal plain.
2. "Valencia the Land of Contrasts" (8 days): This tour reveals castles, medieval and Arabic villages, natural parks, rice fields, Iberian towns and historic cities such as Xàtiva with its amazing castle. You pass through vineyards where there are many wine cellars, traditional foods and wines.
3. "Alicante-Valencia Along the Coast" (7 days): Welcome to this magnificent tour along the Costa Blanca. This is an idyllic place to travel by bike where the sun and beach landscapes join with the Alicante mountains to create a fantastic contrast in scenery. You will visit the most picturesque towns on the Mediterranean coast and its seafront with the beautiful terraces close to the beach where you will be able to try the traditional foods of the area.

Through our 2 agencies in Toulouse and Carcassonne we guide you along the route with constant support.

Thanks to our local expertise, we carefully select accommodation. We can also take care of the baggage transfer each day. As a pioneer of the one-way trip in this area, we manage bike returns for you.

With our own large bike fleet you can choose different type of premium bike: Hybrid, Electric, Gravel and Road bikes, maintained by our mechanics before each trip.

Open daily, your bike can be delivered to your accommodation or picked up at one of our shops. In both cases, our team is available to advise you with a personalized briefing.

If you need accessories or repairs, our two shops provide products and services to meet all cycling needs.

REGIONS & TOURS

Based in south-western France, in Toulouse and Carcassonne, Le Petit Cyclo offers visitors the chance to discover a region with an exceptional heritage, steeped in history and rich in culture and gastronomy. Toulouse, the “Pink City”, a veritable crossroads of major routes, and Carcassonne, at the heart of a renowned wine-growing region, with its medieval city listed as a UNESCO World Heritage Site, invite travellers to discover the region.

As specialists in south-western destinations, we design more than 20 trips across the region, taking place in the Pyrenees, the Canal du Midi, the Basque Country, the Canal de Garonne, the “Canal des 2 Mers”, the Vélodyssée cycle route on the Atlantic coast, and the Tarn with its picturesque villages, fortified towns and vineyard. We also offer trips to the Lot Valley, rich in lush natural landscapes. A route along the Camino de Santiago enriches the offering, providing an experience that is both athletic and cultural.

Thanks to our own logistics and support system, our own cycle mechanics and our guides, we offer our travellers a unique and hassle-free experience.

RIDING TOGETHER

BUYER

LEISURE | FAMILY | GROUP TOURS | SELF GUIDED

Riding Together is an Australian registered charity connecting people who want to ride with people who can. We bring riders who cannot cycle independently, including people who are vision-impaired, together with trained volunteer pilots on Hase Pino e-tandems. Rider and pilot pedal as a team, sharing the effort, challenge and freedom of the journey.

From community rides and pilot training to ambitious international tours and cycling holidays, we demonstrate that accessibility need not diminish adventure. We work with cycling brands, tour operators and destinations to identify and remove practical barriers, test inclusion in real touring conditions and show what becomes possible when the right bikes, people, planning and partnerships come together.

Our goal is not to create a separate category of cycling tourism. It is to help the existing industry welcome more riders, strengthen communities and grow the market for inclusive cycling adventures.

REGIONS & TOURS

Riding Together is based in Australia, but our touring region is wherever an established cycling journey can be opened to riders who need an adaptive cycle or thoughtful support.

Before CycleSummit 2026, five teams will complete Pino the Netherlands, an approximately 700-kilometre journey on Hase Pino e-tandems from Hase Bikes' headquarters in Waltrop, Germany, to Groningen.

Following the Lower Rhine, the route crosses the Netherlands via riverside paths, cycling cities, coastal landscapes, ferries, Texel's island cycleways and the Afsluitdijk. Vision-impaired riders, each paired with a sighted pilot, participate as equal members of each team, sharing the effort, decisions and experience of a genuine multi-day cycling holiday.

The journey demonstrates inclusive cycling tourism in real conditions, testing route planning, accommodation, luggage transfers, secure tandem storage, ferry logistics, daily distances and rider support. At CycleSummit, we will share what worked, where barriers remained and how existing cycling holidays can be adapted to welcome more riders.

We are seeking partnerships with tour operators and destinations to help make inclusive cycling tourism mainstream.

RUNNING ON WAVES

LUXURY SAILING YACHT | BIKE & SAIL | ACTIVE TRAVEL | GREECE
CYCLING | SAILING | HISTORY | ISLANDS | ADVENTURE

Running on Waves combines authentic sailing, active exploration and five-star comfort, offering a dedicated E-Bike & Sail service in the Mediterranean with a strong focus on Greece. Our 64-metre three-mast barquentine provides a very different way to discover the region, not from a bus or conventional cruise ship, but from a real sailing yacht.

Our guided Bike & Sail tours accommodate up to 42 guests in 18 cabins, accompanied by two cycling guides and 21 professional crew members. Bikes are provided, with e-bikes and standard road bikes available, and the yacht can store and transport up to 34 bikes. A full-board meal package is included, making the yacht a comfortable base throughout the journey.

With an average cost of around €3,500 per person for a one-week journey, Running on Waves combines the freedom of cycling with the freedom of the sea: ride during the day, sail between islands and return to the same cabin every evening.

REGIONS & TOURS

Our guided Bike & Sail cruises in Greece combine cycling with the pleasure of travelling by yacht. The route between Athens and Corfu takes riders through some of the country's most spectacular landscapes and historic destinations, with bikes, guides, accommodation and full-board meals forming part of the experience.

From Athens and Aegina through the Corinth Canal, Itea and Katakolo, the journey continues to the Ionian islands of Zakynthos and Kefalonia, finishing in the atmospheric Old Town of Corfu.

Along the way, cyclists encounter ancient landmarks, archaeological sites, fishing villages, olive groves, mountain roads and crystal-clear Mediterranean beaches. The bike routes are designed to make Greece more than a backdrop. You ride into the landscape rather than simply passing through it.

When the day's ride is over, the yacht becomes your floating base: enjoy a swim, relax in the Jacuzzi, savour Mediterranean cuisine or simply watch the coastline disappear beneath the sails.

SALENTO BICI TOUR I SLOW YOU

TOUR OPERATOR | INCOMING

LEISURE | FAMILY | HIKING | GUIDED GROUPS | SELF GUIDED

Based in Lecce, we have been organising active holidays in Puglia since 2011. Cycling is at the heart of what we do, alongside walking and sailing experiences that invite travellers to slow down and get to know southern Italy.

We work with tour operators across Europe and the Americas, welcoming around 1,200 guests on week-long holidays and 300 on day trips each year. Our strength is local knowledge: carefully planned routes, selected accommodation and long-standing relationships with the people who bring each journey to life.

Our commitment to the region goes beyond tourism. We also run a non-profit organisation promoting sustainable mobility and environmental education. On our tours, this takes shape through visits to organic farms, encounters with local producers and time spent discovering the places between the main sights.

Our main destination is Puglia, with itineraries also exploring Matera and Calabria.

REGIONS & TOURS

Quiet country lanes, dry-stone walls, coastal roads and towns worth stopping for: Puglia rewards those who take their time. Our journeys connect its landscapes and history with everyday life, from a visit to an olive oil producer to a conversation over a glass of Negroamaro.

We offer guided and self-guided cycling holidays for individuals, families and groups, with accommodation ranging from welcoming three-star properties to selected upscale and luxury hotels.

Our Food & Wine tours put local flavours and their producers at the centre of the journey. For travellers who want to connect through language, "Learning Italian by Bike" combines daily rides with an intensive Italian course.

Beyond cycling, we organise guided and self-guided walking holidays, as well as sailing trips in Puglia and Greece. Our wider programme includes Matera and Calabria, offering more ways to explore southern Italy at a slower pace.

SIMIENECOTOURS ETHIOPIA

TOUR OPERATOR

LEISURE | SPORTIVE | HIKING | GROUP TOURS

We are a Travelife certified Ethiopian tour operator founded in 2014 employing 15 tourism professionals enthusiastic about travel and outdoors. We enjoy exploring new destinations and propose innovative products off the beaten path.

Among others, we're specialized in biking and cycling tours all over Ethiopia and the exclusive company operating E-Bikes. We own a bike trailer carrying 14 bikes and a mountain bike fleet of 20+ imported hard tail mountain bikes (Scott Scale 980 & 935) and 10 new one-of-a-kind full suspension E-Bikes (Scott Strike eRIDE 930).

Our bike guides are annually trained in group management, emergency response and bike mechanics, and include Yirga Mekuriaw (EN), Marco Degasper (EN, DE, IT), Getachew Alemu (EN) and Samuel Belete (EN). Our European management understands the clients' needs and expectations; we give high importance to customer satisfaction and focus on quality and on maintaining our words.

REGIONS & TOURS

Ethiopia is an emerging tourist destination in general, and in particular for biking. It's definitely a challenging cycling destination, but offering spectacular landscapes, dramatic mountain ranges, lakes and waterfalls, rich cultural heritage, and world-famous coffee.

Considering the challenges of operating bike tours in the Northern part of the country, we developed multi day cycling trips to other regions, mainly to the safe south of Ethiopia, where biking on exciting roads and tracks can be combined with cultural experiences in surprisingly green landscapes. These routes are through regions such as Gurage, Sidama, the Bale Mountains, and the lakes in the Rift Valley, emphasizing no traffic and authentic village experiences. Riders should be prepared for high altitudes, rugged terrain, and occasional technical trails, which can also be avoided.

We recommend fully guided tours for logistics, safety, and local knowledge. Then Ethiopia is guaranteed a rewarding destination for adventurous cyclists seeking spectacular scenery, unique culture, and unforgettable riding experiences.

The best season to visit Ethiopia for biking is October to March.

TURISMO DE GRAN CANARIA

DESTINATION

LEISURE | FAMILY | SPORTIVE | HIKING | GROUP TOURS

Gran Canaria – Europe's Outdoor Island

Gran Canaria is one of Europe's most complete destinations for outdoor sports. Known as the „miniature continent“, the island offers an extraordinary diversity of landscapes within just a few kilometres: golden dunes, volcanic ravines, pine forests, dramatic cliffs, mountain passes and more than 60 kilometres of coastline. Combined with a mild climate throughout the year, these natural conditions make Gran Canaria an ideal destination for both recreational athletes and professional training camps.

Through its Natural & Active, Gran Canaria Golf and Tri, Bike & Run brands, the Gran Canaria Tourist Board promotes a wide range of experiences designed for travellers who want to stay active while discovering the island. A network of specialised companies, certified guides, sports facilities and accommodation adapted to cyclists, runners, golfers and outdoor enthusiasts allows visitors to enjoy the destination with the support of experienced local professionals.

A cycling destination for every level

Gran Canaria has become one of Europe's leading cycling destinations thanks to its year-round riding conditions and remarkable variety of routes. Quiet mountain roads climb from sea level to more than 1,900 metres, crossing volcanic landscapes, traditional villages and extensive pine forests before descending once again to the Atlantic coast.

Professional teams regularly choose the island for winter training camps, attracted by the combination of favourable weather, demanding climbs and low traffic. Amateur cyclists appreciate the possibility of riding iconic mountain routes in the morning and relaxing by the sea in the afternoon, all within relatively short distances.

Mountain bikers also benefit from an extensive network of trails that crosses protected natural areas and forests, offering routes suitable for every level of experience, from scenic recreational rides to technical descents.

A natural playground all year round

Cycling is only one part of Gran Canaria's outdoor identity. Hiking, trail running, climbing, surfing, diving, open-water swimming, sailing and golf can all be practised throughout the year thanks to the island's exceptional climate and geographical diversity.

With more than 300 days of sunshine annually and a landscape that changes dramatically from one valley to the next, every day offers the possibility of a different adventure. Visitors can start the morning hiking beneath volcanic peaks, spend the afternoon surfing Atlantic waves or enjoy a round of golf overlooking the ocean.

This unique combination of accessibility, infrastructure, natural diversity and year-round conditions has established Gran Canaria as one of Europe's leading destinations for active tourism, where sport becomes one of the best ways to experience the island.

Tenerife presents itself as a paradise for active tourism, where adventure never rests thanks to its perfect climate and endless landscapes. With Tenerife Tourism's 'Sport and Adventure' product, the island invites travellers to immerse themselves in unique experiences, whether they are sailing the sea, flying through the mountains or exploring its rich land. It offers multiple options for practising sports, both professional and recreational, thanks to associated companies that provide specialised services and accommodation designed for those seeking an active holiday. In this way, each activity becomes an opportunity to connect with the island's nature, creating unforgettable memories.

A cycling circuit for pro and beginners

Cycling enthusiasts find perfect conditions for this sport on Tenerife. The island's road network is extensive and very well maintained, and many roads are in low-traffic areas. It is possible to cycle on routes up to 2,000 metres above sea level, at the foot of Mount Teide, or along the shore. Cycling is an option any day of the year, thanks to Tenerife's consistent comfortable temperatures and the variety of cycling locations, with routes that allow for comprehensive training. Amateur cyclists find this a unique place to ride, not only because of the variety of the routes themselves but also because of the landscapes and scenery they traverse, which are a delight for the senses. Of course, professional cyclists are likewise aware of the excellent training available on the island. Famous pros come each year as a prelude to their participation in events such as the Tour de France, World Championships, and even the Olympic Games.

Go mountain biking

Mountain bike enthusiasts have around 200 kilometres of trails available across the island. In most cases, the routes run through the highlands of Tenerife, primarily the Corona Forestal park. A comprehensive network of trails, many of which are served by shuttles or parking at the trailhead and the terminus, attracts a great number of riders each year. The trail network consists of four main routes, each with variants and branches that allow for multiple combinations, making for a practically limitless arrangement of routes. It is possible to design customised routes based on distance, the difficulty of the journey, and the type of landscape. Tenerife is, without a doubt, a paradise for exploring these nature routes by bike.

A cyclist wearing a green shirt and a black helmet is riding a road bike on a paved path. The path is lined with tall palm trees on both sides. Other cyclists are visible in the background, also riding on the path. The scene is outdoors and appears to be a recreational or training area.

In North America, Great Canadian Trails offers rides through Quebec's wine country and other routes, and Great American Trails brings the same experience to California and beyond across the United States. Across every brand, we favour train-accessible destinations, direct local partnerships, and itineraries balancing highlights with off-the-beaten-track discovery.

A group of four cyclists, two men and two women, are posing for a photo on a gravel path. They are standing behind a black sign that reads "Ecuador High Road" and "Cycling the Andes".
