

Introduction to Khomanani Health Research Centre

Let us take you through a Khomanani Health Research & Wellness Centre

Khomanani HRC is a state-of-the-art research centre that is capable of supporting Phase I-IV clinical trials and other non-interventional research studies.

CONTACT DETAILS

015 004 1868

info@khomananihrc.co.za

From the outset, Khomanani was never just about conducting clinical trials. It was about integrating research with community healthcare to create a long-term impact.

Khomanani HRC has four consultation rooms and a dedicated pharmacy and laboratory and fully serviced and calibrated equipments in line with SAHPRA requirements

The centre is also planned as an overnight facility a with four-bed capacity, which can accommodate participants needing extended monitoring.

The centre is led by Dr Nyeleti Bicky Mthombeni, the founder and partner with over 18 years of experience in clinical trial operations

Supported by four pharmacists, Ms K Matlala, Mr T Chokwe, Mr N Makhanga and Ms T Mthombeni

**Three clinical trial assistants in all science graduates
Muphulusi with MSC
Tsakani with BSC
Malamba with BSC Honours**

**Four Clinical trial educators, all with grade 12 and the recruitment team
Also acting as data captures**

**Study Nurses:

Ramaru**

Our facilities are equipped with all the resources to conduct research.

We have a generator in the case of powercuts

We have all the necessary office equipment and medical equipment.

Our centre is a training facility that offers local health sciences graduates valuable hands-on research experience.

We are a community based site and we work with the community

We work with multiple partners to provide training and development opportunities for unemployed disadvantaged youth

We offer community health outreach programmes where we conduct screenings, disease monitoring, and public health education initiatives.
