

From newborns to the elderly

Our company was founded as a project to **improve the quality of life of premature babies in neonatal intensive care**.

Today, our products have a **wide range of applications** and are designed for **all ages**.

We have developed algorithms optimized to adapt to **different age groups** and cover **different areas**:

HOWDY baby

- **Neonatology**
- **Pediatrics**

HOWDY senior

- **Monitoring in the facility and at home**
- **Physical rehabilitation**
- **Respiratory rehabilitation**
- **Athletic training**
