MINING & PROCESSING OF RM

## STRATEGIC FRAMEWORK

To be a European leader in the sustainable development of advanced materials and clean technologies

H2020  
HORIZON EUROPE  
EIT RAW MATERIALS  
INTERREG

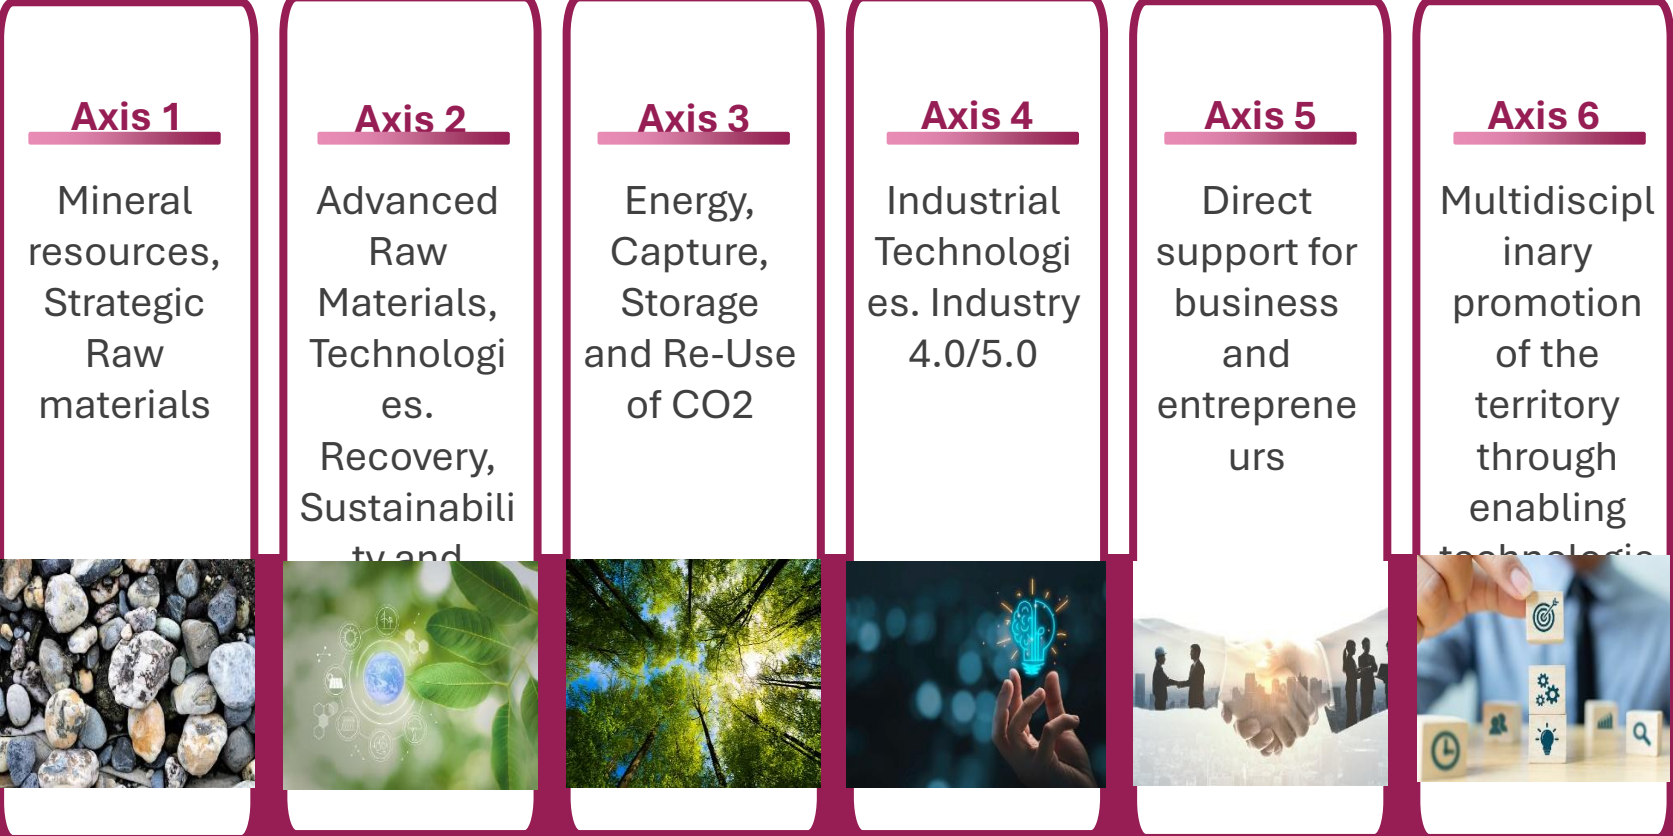

EU INDTECH 2025 Brokerage Event

To innovate in technologies that support European policies on critical materials, CO<sub>2</sub> capture, and renewable energies, strengthening cross-sector collaboration between the economic sectors of Europe.

**PROBLEM TO RESOLVE**

Critical primary and secondary resources for industry, dependence on critical materials, innovation in advanced materials, efficient energy transition

Oriented to Innovation Procurement

# Competences / type of partners sought

**ICAMCYL** positions itself as a strategic hub that connects academic research, technology development and industrial implementation in the field of advanced materials and critical raw materials, with a strong European projection and demonstrated capacity for leadership in large-scale projects.

1. Circular Economy - Advanced recycling companies
2. Renewable Energy - Clean technology manufacturers
3. Electric Automotive - Battery value chain
4. Mining Digitalisation - Industry 4.0 and 5.0 technology companies
5. Critical Materials - Specialised processors
